NEW CLEWS IN PARK MURDER

OLD INDICTMENT RISES TO HAUNT SENATOR GUFFEY

Charges Recalled by Radio Attack.

BY CHESLY MANLY.
[Chicago Tribune Press Service.]

Washington, D. C., Aug. 23.—[Special.]—The 1922 federal indictment of Pennsylvania's Joseph F. Guffey, which sent him into political obscurity for a decade and was mysteriously nol prossed in 1930, has been conjured up to haunt him at the zenith of his power as chairman of the Democratic senatorial campaign committee and one of President Roosevelt's closest advisers.

Senator Guffey.

Senator Guffey brought it all upon himself when, following a conference with the President, he went on the radio Friday night to denounce as "ingrates" and decree the political death of four Democratic senators who fought the court packing scheme.

As a result of this attack, Senators Burton K. Wheeler of Montana, Edward R. Burke of Nebraska, Joseph C. O'Mahoney of Wyoming and Rush D. Holt of West Virginia gave Guffey one of the severest lashings ever administered a member of the senate just before congress adjourned Saturday and then circulated a petition to oust him from the campaign committee chairmanship.

Aided by Mellon.

Senator Holt went into the Guffey indictment on charges of embezzling funds of the alien property custodian's office, of which he was sales director at $1 a year under Woodrow Wilson's administration, and then hurled the appellation of "ingrate" back at him. For Andrew Mellon, former secretary of the treasury and one of the "economic royalists" so frequently denounced by the Roosevelt administration, guaranteed $75,000 of Guffey's securities and helped him to make up the shortage in the funds he had "borrrowed" from the government's accounts.

Considerable mystery still surrounds Guffey's handling of the alien property custodian's funds, and particularly the nol prossing of his indictment eight years after it was voted by a grand jury in New York, but a mess of facts are disclosed by the hearings before a special senate committee which investigated the affairs of the justice department under Attorney General Harry M. Daugherty in 1924.

Sold Alien Property.

The affair is further illumined by the motion of the United States attorney in asking the nol pros in 1930 and by a statement which Mr. Mellon issued during Guffey's 1934 senatorial campaign.

Among other things, the record shows that Guffey sold seized alien property aggregating more than 55 million dollars; that he put the money in three separate accounts in 32 banks; that he borrowed $2,147,000 on his personal note from the banks in which he deposited the government funds, and that he was called upon to make good a shortage of $406,001.36 when the Harding administration came into power in 1921.

Furthermore, it was charged, Guffey borrowed $275,000 from a New York bank by putting up $328,000 in government Liberty bonds as collateral, and diverted $7,651.05 of government petty cash to his private use.

Served Three Years.

George W. Storck, an agent of the bureau of investigation, testified before the special senate committee on April 9, 1924, that Guffey, who was the Democratic national committeeman from Pennsylvania, was made director of sales by A. Mitchell Palmer, alien property custodian and later attorney general under President Wilson, in July, 1918. He served until March 8, 1921.

"I prepared a report on that case under date of Aug. 24, 1922, and in the fall of 1922, at the December term, southern district of New York, I indicted Mr. Guffey for embezzlement," Storck testified. Since then, he said, nothing has been done, but on Jan. 4, 1924, Attorney General Daugherty referred an unsigned mem-

JAPANESE BAND OF DEATH LEADS TROOPS ASHORE

Faces Deadly Fire at Shanghai.

Describes Carnage

SHANGHAI—Eyewitness describes scene of carnage after projectile explodes and wrecks two department stores at Shanghai's busiest shopping corner. Details on page 5.

WASHINGTON, D. C.—Secretary of State Cordell Hull urges Japan and China to "refrain from resort to war." Details on page 4.

SHANGHAI, Aug. 24 [Tuesday].—(A)—Led by suicide detachments of the "white band of death," Japanese reënforcements were landed by the thousands at Woosung today for a concentrated assault against the Chinese defenders of Shanghai.

Through the center of the battle 212 Americans were evacuated aboard the liner President Pierce for Manila.

For the first time United States authorities convoyed the fleeing Americans to safety with a warship guard.

U. S. Warship Uncovers Guns.

The destroyer Edsall hovered close by the Dollar Line tender down the Whangpoo river to Woosung, and, after the Americans were transferred to the President Pierce the Edsall moved alongside, uncovered her guns, and escorted the American vessel with its cargo of lives safely to sea through the raging naval and land battle.

The battle developed into the most terrible fighting of the war when the Japanese army units began pouring ashore from the transports anchored off the Woosung area.

Flanked by their warships, the Japanese transports crept up to the Woosung wharves in the pitch darkness just before dawn. The Chinese positions were ominously silent until the first launch was lowered. Then, as though at a signal, the still blackness became a living inferno of flame and noise.

Proud Samurai Prepare to Die.

The small improvised armored launch bore seventy picked and self name "Sirodasukitai," literally the "white band of death." The only color they wore was a white sash around their back and shoulders—the traditional guard of Japan's proud Samurai who enter combat prepared to die.

As the little boat with its suicide band touched the water, the almost solid wall of Chinese machine guns and artillery blazed at pointblank range and the Japanese warships replied with broadsides.

Japanese warplanes hovering in the darkness overhead swooped suddenly to within 500 feet of the Chinese lines, blasting with machine guns and bombs.

Enveloped in Sheet of Flames.

As the bottom of the launch scraped the Yangtze mudflats, the band of death leaped into the waist-deep water and waded ashore in the face of withering fire from machine guns and hand grenades.

As they scrambled up the low river bank a Chinese land mine was touched off and the "white band of death" was enveloped in a lurid sheet of flame. The few survivors closed in hand to hand combat with the Chinese.

The fighting raged along the banks of the Yangtze river from Woosung to Liuho to the west and down the Whangpoo river 12 miles to Shanghai's international settlement.

Flames were sweeping vast areas of Shanghai and the Woosung vicinity where the Whangpoo meets the Yangtze to form a great estuary of the China sea.

Woosung Is Wrecked by Japan.

Woosung itself was wrecked by guns from the some 100 Japanese warships covering the landing of the reinforcements for the hard-pressed Japanese in the northern and eastern sectors of the International settlement.

Japanese claimed they had landed 50,000 troops yesterday before today's attempts were made. Chinese asserted no more than 15,000 had been brought ashore and that Chinese batteries had taken heavy toll of those.

There was scarcely a house in Woosung untouched by the flames; the multi-million dollar Whangpoo docks were heavily damaged; the repair shops of the Shanghai-Nanking railway were demolished.

Kiaochow beach, Shanghai's Coney Island, just across the river from Woosung, was bombed and completely wrecked by Japanese planes. Some

Baby Is Stolen from Buggy as Mother Shops

(Pictures on back page.)

Mrs. Dorothy Lucas, 1261 Argyle street, went shopping yesterday in the Hillman food store at 4631 Broadway and left her daughter, Diane Carol, 3 months old, in her carriage outside. She returned in fifteen minutes, saw that the child was safe, and went back in the store to make another purchase. When she came out ten minutes later the baby was gone.

At first Mrs. Lucas thought that her husband, Herman, who was in the neighborhood, had taken the baby and would return in a few minutes. She waited nearly an hour and then realized the child had been stolen.

Fail to Find Motive.

Last night, after several hours' search in the district, the police failed to find a trace of the baby and her abductors, or any person who had seen her taken. The mystery deepened as police were unable to uncover a motive for the theft of the child.

Police worked on the theory that the attractive little girl was spirited away by a childless couple or by an irresponsible person who took a fancy to her. Investigators doubted that the baby was a victim of a kidnaping for ransom, because Mrs. Lucas and her husband, who is in the hotel carpet repairing business, are in moderate circumstances.

Questioned at the Town Hall station, the grief stricken mother, who is 22 years old, said neither she nor her husband ever had received any threats against the child.

Remembers Jealous Woman.

Mrs. Lucas did recall, however, that a young woman had been jealous of her before she married Lucas on Aug. 3, 1936. This young woman, who tried to break up the romance before the marriage, works in New York, but recently had been in Chicago, Mrs. Lucas said. Police began inquiries to determine if the young woman is still here.

Mrs. Lucas became hysterical after she realized the baby was gone. When she regained her composure her first concern was that Diane may become ill if not fed regularly and carefully. She described the child as having brown eyes and brown hair, an olive skin, weighing thirteen pounds, and wearing a white dress and pink knitted shoe

Mrs. Lucas and her husband, who is 31 years old, left their home with the baby at 3 o'clock yesterday afternoon for the Broadway shopping district. At 3:30 o'clock Lucas left his wife at Leland avenue and Broadway to make a business call. The couple arranged to meet at home at 5:30 o'clock.

Mrs. Lucas reached the Hillman store at 3:45 o'clock and left the baby in its carriage outside. She came back in fifteen minutes and then remembered another purchase she had to make.

Leaving the baby again, she went back into the store and when she came out ten minutes later the mosquito netting had been pushed back and the carriage was empty.

Mother Waits Hour.

Believing her husband had taken the child as a joke, Mrs. Lucas waited nearly an hour for their return. Then, alarmed, she notified the Town Hall police. Police telephoned the Lucas home and the husband, who had just come in, said he did not have the baby.

Mrs. Lucas came to Chicago four years ago from the home of her parents, Mr. and Mrs. Joseph Booher, at Lafayette, Ind. She worked as a waitress and met Lucas two years ago. After their marriage they moved to the Argyle avenue address. Their baby was born in the Michael Reese hospital last May 25.

REWARD POSTED FOR RETURN OF SKELETON STOLEN FROM A PRISON

LONDON, Aug. 23.—(AP)—A reward of $25 was posted today for the return of a 250 year old skeleton stolen from a prison cell.

The skeleton, chained upright to an oaken chair, was stolen from Rye house at Hoddeson, Hertfordshire, scene of the famous Rye house plot against Charles II.

The castle now is a tourist attraction. Its owner, T. Green, said he believed the "kidnaping" was somebody's "grisly kind of joke."

The Rye house plot was a scheme by one of Cromwell's republican officers to murder Charles II. and the duke of York, later James II., in 1683. The plan was to kill them when they returned from the Newmarket races, but it was foiled when they returned a day ahead of schedule.

The plotters were arrested and the missing skeleton is supposed to be that of one of them.

Detroit, Mich., Aug. 23.—(AP)—Dr. Vincent P. Russell, physician of the Rev. Charles E. Coughlin, said today the pastor of the Royal Oak shrine of the Little Flower had left for an undisclosed destination because of illness. Dr. Russell said Father Coughlin was suffering from nervous indigestion.

Six Are Killed as Navy Plane Falls Into Bay

San Diego, Cal., Aug. 23.—(AP)—A big navy flying boat crashed mysteriously into San Diego bay early tonight, killing six of its crew of eight.

The big craft, one of a type flown this year from San Diego to Hawaii and Panama, was engaged in night maneuvers when it fell into the lower bay.

Injured Taken to Hospital.

Two injured members of the crew, J. W. Blackman, aviation ordnance man, second class, and T. O. Dougherty, aviation machinists' mate, third class, were picked up and taken to the Naval hospital, along with the body of one unidentified man.

Naval officials said the other dead crewmen are Lieut. W. C. Dey Jr., Lieut. Junior Grade F. L. Wallace, Lieut. Junior Grade W. M. Freshour, R. Fall, aviation chief machinist's mate; R. M. Purdy, radio man, second class, and H. K. Bryan, radio man, third class, naval aviation pilot.

The plane, identified as PBY-1, was one of the navy's new $150,000 flying boats and was the first one of its type to be involved in any major accident.

Cause of Crash Unknown.

"At about 7 p. m. [10 p. m. Chicago time]," said a statement released by naval officials, "PBY-1 airplane, assigned to patrol base squadron 2, crashed in Lower San Diego bay. Cause of crash unknown. Airplane was engaged in local routine night practice flight."

The statement said the extent of Blackman's and Dougherty's injuries was not immediately determined.

"Rescue party from U. S. S. Riegel, destroyer base, and naval air station are at the scene of the crash," said the statement.

He Doesn't Like the Army Life, but Army Likes Him

Private Louis Spizzarri, 20 years old, can't seem to stay out of the army. He skipped away from Fort Sheridan several weeks ago, but was seized in Chicago soon afterward, and returned as a deserter. Yesterday Spizzarri walked out of the guard house and headed for Chicago again. He was seized late last night at his family's home at 3140 Jackson boulevard, and returned once more to the fort.

City Puts Price of $1,000 on Sex Criminals

(Picture on back page.)

A standing offer of $1,000 reward for information leading to the arrest and conviction of any person committing a serious sex crime in Chicago was authorized by Mayor Kelly yesterday as the city's highest law enforcement officials united for a fight to the finish against sex morons preying upon women.

State's Attorney Courtney and Police Commissioner Allman met with other principal police and prosecuting officials at Courtney's office. They did not reveal details, but declared:

"A definite plan of action has been agreed upon, with centralization of activities."

Set Up Five Point Program.

However, it was learned that the following five point program was accepted as being a practical means of halting the series of outrages by sex criminals:

1. The police department will assign special details to hospitals, nurses' homes, and hotels where morons have preyed most frequently.

2. Police will demand that hotels assign only men to rooms accessible from fire escapes, the morons' favorite means of entering a room.

3. A separate file on sex criminals will be established, probably at the police bureau of identification. Information on degenerates, including those arrested on minor charges, will be made complete and readily available.

4. A separate sex offense branch of the Municipal court should be established. The judge would specialize in hearing sex cases just as some judges now specialize in automobile theft and trafic offense cases.

5. New legislation will be sought to provide that incurable sexual psychopaths be committed to asylums for life. Leading psychiatrists will meet in Courtney's office Friday to draft a set of standards to be used in determining the mental status of suspected degenerates.

Suggests Board of Experts.

"There has been talk of such laws before," Courtney commented, "but this time we mean to put them on the books. We want a board of skilled medical men to pass on the cases of sexual psychopaths before they commit serious crimes. Then those afflicted can be put in an institution for life."

Among those attending the conference were Chief of Detectives John L. Sullivan, Supervising Captain John Prendergast, chief of the uniformed force, and supervising captains representing police districts of the city.

Asks Fire Escape Alarms.

Mayor Kelly yesterday contributed a practical suggestion for balking sex criminals who use fire escapes to reach the rooms of their victims. Fire escapes of the counterbalancing type, which can be pulled down by a person on the ground, should be equipped with electric alarms which will sound as soon as the lower section drops, he said.

"If an ordinance requiring this to be done can be legally drawn I will recommend that it be introduced at

REVEAL VICTIM'S HIDDEN PAST AS QUIZ IS PUSHED

True Identity Bared; Couple Unwed.

(Pictures on back page.)

Two surprising disclosures sprang out of the Grant Park murder mystery last night when the state's attorney's office began an earnest investigation.

One was that Robert Francis Burns, the respectable Evanston business man who was shot dead as he walked in the park with his blonde sweetheart, was not Robert Francis Burns at all. He was Herbert F. Lee.

Not Mrs. Robert Burns.

The second development was that Mrs. Robert Francis Burns, who had appeared as the widow of the murdered man, is not Mrs. Robert Francis Burns. She is Mrs. Theresa Weichbrodt. She was never married to Herbert F. Lee, or as he was known in Evanston, Robert Francis Burns.

A third development, of passing importance, is that Mrs. Weichbrodt was accompanied to the state's attorney's office by Anthony Peiffer, 2448 Cleveland avenue. Peiffer is Mrs. Weichbrodt's brother. Also he is a night watchman employed at 216 North Michigan avenue. It is an odd circumstance that this address is a short distance from the entrance to Grant Park where Burns-Lee was killed. No significance has been attached to this fact, however.

Girl Companion Held.

Both Mrs. Weichbrodt and her brother were sent to their homes after the questioning. She lives at 5921 North Paulina street. Not so, however, Miss Lucille Buehler, the blonde young woman of 22 years who was walking with Burns-Lee when he was killed in the park at a point off Madison street early last Sunday morning. Miss Buehler, a night club hostess, was kept in technical custody by the state's attorney's office. It was announced that she will be given an opportunity to face the lie detector this morning.

Peiffer, the brother, who is employed by the American Mutual Liability Life Insurance building, was discovered to have twice served terms in the House of Correction on charges of petty larceny.

Before she was allowed to leave Mrs. Weichbrodt explained to police that Lee had changed his name to Burns about nine years ago when he came to Chicago from Detroit, where he had abandoned his wife, Lillian, and a son, Robert. She said she had been living with Lee for two years before he confessed these facts to her.

Husband Dies Soon After.

She also said that she met Lee about two weeks before the death of her husband, Leo, father of her 15 year old son, who now uses the name of Burns. Soon after Weichbrodt's death she had begun living with Lee and calling herself his wife, but they never were married, she said.

Just before Mrs. Weichbrodt was allowed to depart she and Miss Buehler were brought face to face in one of the rooms at the state's attorney's office. By this time each woman had learned something about the other, and instead of the cold glares which they had exchanged earlier they glanced sympathetically at one another.

"Did you know that Lee or Burns, which ever you want, was running around with Lucille," Lieut. Thomas Kelly of state's attorney's police asked Mrs. Weichbrodt.

Suspected Him, Says Widow.

"No," replied the woman with a slight smile, "but I suspected he was cheating with some one. I didn't know who."

Turning to the blonde pretty Lucille, the lieutenant asked if she had known anything about Mrs. Weichbrodt.

"Not a thing," the girl replied. "He always told me he was single."

Mrs. Weichbrodt told police she could believe Miss Buehler's stories about Lee's spending in night clubs. She said that the state of his bank account convinced her that he might have spent $100 or more in a single night.

Lee, she explained, was a war veteran. About two years ago he received $760 bonus. Of this sum $260 was invested in the meat market at 713½ Main street, Evanston, where he was in partnership with Joseph Finley. The remainder he had put into the bank.

Yesterday, she said, she examined

his bank balance and found it was only $2. In addition to this he had borrowed $200 from a finance company on her signature and another $200 on a note which Peiffer had signed.

Peiffer, whose record showed that he had been indicted in 1922 on a charge of robbery with a gun but later was convicted for petty larceny, was questioned about the time he left the building where he was on duty Saturday night. He said he had left about 2:30 a. m. Sunday and arrived home about 3. A card bearing his name and address was found in the clothing of Lee.

Promises to Return.

Peiffer said he did not carry a gun while working as watchman. He promised to return if wanted for further questioning.

Miss Buehler freely talked about herself when she was questioned by Assistant State's Attorney Harry Posner. She said she had at one time been a bookkeeper, but had drifted into night spots and finally into vice resorts because she liked bright lights, fun, and good clothes.

Claims Marriage Promise.

"Bobby knew all about me," Posner quoted her as saying. "He forgave me for my past life and we planned on getting married and starting all over again. I knew that he didn't have as much money as some of the other men I had been out with, but he was making enough for us to get along on.

"I really cared about him and I believed he was on the square with me."

CANADA HOLDS 7 IN KIDNAPING OF MILL OFFICIAL

COWANSVILLE, Quebec, Aug. 23.—(AP)—Charged with kidnaping and illegally transporting their employer out of the province of Quebec, seven employés or former employés of the Bruck silk mills were brought back from the United States border tonight and jailed to await arraignment tomorrow.

The seven had been in custody since yesterday at Richford, Vt., where immigration authorities released from the employés' car Samuel Griss, superintendent of the Bruck plant.

Griss, father of two children, swore out warants for the arrests after police returned him to his hotel from Richford, where he was taken in one of seven cars which drove up to the community golf course and surprised the native New Yorker as he played golf with his wife in company with their small children. He declined to discuss the abduction and would only say he had been done "a personal injury."

TARGET PRACTICE JARS PLASTER IN HIGHLAND PARK

Firing of high power anti-aircraft guns at targets towed by airplanes a mile above the ground has shaken plaster off the walls of a number of Highland Park homes near the battery positions at Fort Sheridan, residence owners reported yesterday. They said the concussions also damaged the foundation and main beams in their homes.

Robert W. Larke, whose two story, eight room stucco home is at 1024 Fort Sheridan avenue, said his home had been damaged each year for more than seven years. One year all the bricks in his fireplace collapsed and a government mason repaired them, he said.

The home of John Minorini, 1036 Fort Sheridan avenue, also was reported to be damaged. It was said that more than half a dozen other houses in the neighborhood also were damaged. Engineers said it was possible a land fault transmitted the vibration from the firing to these houses.

Prisoners Hunger Strike Ends with Cries for Food

Toledo, O., Aug. 23.—(AP)—A hunger strike of twenty-four prisoners in Lucas county jail that lasted through three meals ended tonight with cries of "We want food." Sheriff's officers said the prisoners would have to wait until tomorrow when breakfast is served.

COURT REFUSES TO CURB STATE IN HAHN INQUIRY

Cincinnati, O., Aug. 23.—[Special.]—A motion by counsel for Anna Marie Hahn, alleged poison slayer under investigation in a dozen deaths, for a rule restraining the prosecution from "interfering" with witnesses, was denied today by Judge Charles S. Bell.

"There is an entire failure of proof that the prosecutor or his assistants attempted to hinder justice," Judge Bell declared.

Informed that state and defense counsel could not agree upon an expert to check the findings of Dr. Ott H. Behrer, city chemist, who reported arsenic in the bodies of Jacob Wagner and George Gsellman, the two men whose death has been charged officially to the youngish blonde, Judge Bell announced that he would appoint such an expert not later than Wednesday.

WILKINS FLIES NEAR N. POLE IN HUNT FOR PLANE

FAIRBANKS, Alaska, Aug. 23.—(AP)—A message intercepted by the Pacific Alaska airways radio station here today reported Sir George Hubert Wilkins, explorer, had flown close to the north pole in his search for six missing soviet transpolar flyers who vanished Aug. 13 on a flight from Moscow to Fairbanks.

Wilkins left Coppermine, N. W. T., yesterday and flew nearly 1,500 miles before fog forced him to return.

Meantime other flyers, soviet, Canadian, and American, awaited lifting fog to join in the search.

Three giant arctic planes at Moscow were prepared for flight across the north pole to Alaska along the route probably followed by the lost plane.

Three planes were at Point Barrow, and others were on the way there.

COURT DECLINES TO HALT RECORD 134 DAY SITDOWN

New York, Aug. 23.—[Special.]—The longest sitdown strike on record—134 days—continued at the plant of H. Anton Bock & Co., Inc., today when Magistrate Edgar Bromberger refused to interfere.

Magistrate Bromberger ruled that Ernest Eckes, president of the company, "through permission and sufferance," has let the 130 sitdown strikers occupy the cigar plant so long that it is beyond the power of the magistrate's court to order eviction for unlawfully possessing property.

CITY PUTS PRICE ON SEX MORONS IN NEW DRIVE

Mayor Makes Offer of $1,000 Reward.

[Continued from first page.]

the next council meeting, Aug. 31," Mayor Kelly said. "But I urge managers of hotels and nurses' homes to take such preventive action before then."

Predicts Passage of Law.

The day also brought proposals for action from state legislators. State Representative Peter C. Granata [Rep., 17th], declared that he is now assured of votes sufficient to pass a bill killed at the last session of the general assembly, providing for emasculation of criminals guilty of raping girls under 16 years of age.

"I have telegraphed a request to Gov. Horner to include the amending of the criminal code in his call for a special session of the legislature in October," Granata said. "Wires from downstate members of the assembly since the latest wave of sex crimes in Chicago assure me the bill will pass easily."

Seek White Man as Rapist.

Meanwhile, the search for the rapist-slayer of Miss Anne Kuchta, 19 years old, a student nurse at the Chicago hospital, 811 East 49th street, shifted to a new front yesterday. Capt. Ray Crane of the Hyde Park police announced that he had positive information that the criminal was a white man and not a Negro, as was believed earlier.

Capt. Crane said a new witness had come forward who told of seeing a white man carrying a table radio such as was stolen from Miss Kuchta's room at the hospital. This was about 6 a. m. Saturday, shortly after the murder. The suspect was described as from 25 to 28 years old, height 5 feet 10 inches, weight 150 pounds, with a light complexion, and wearing a white polo shirt and dark pants.

Tells Conductor of Murder.

The man boarded a northbound State street car at 47th street and remarked to the conductor, "There's been a murder down the block." Police considered the remark significant since the murder was not generally known at that time. The man alighted from the street car at Walton street, on the near north side. The conductor says he can identify him.

More than eighty colored men, arrested on suspicion in connection with the Kuchta murder, were released yesterday. However, two colored men were held as suspects in the assault on Mrs. Anna Hollander, 50 years old, latest victim in the series of sex crimes. Mrs. Hollander, maid at 8153 South Green street, resisted an attacker in a prairie at Halsted and 82d streets Sunday night.

Three Named in Attack.

Three young men seized by New City police were identified last night by Miss Frances Oksas, 19 years old, 4445 South Fairfield avenue, as the men who raped her early Sunday in a prairie near 69th street and Kolmar avenue. The three, who according to police, confessed the attack, are Fred Langolf, 21 years old, of 3428 Emerald avenue; James Kenneth, 18, of 3421 Emerald avenue, and John Davis, 20, of 5648 South Bishop street.

Two others in the party were held as accessories. They are Walter Wenckus, 23, of 2713 West 43d street, driver of the car Miss Oksas was forced to enter at 44th street and Western avenue, and Edward Churas, 21, of 3421 Emerald avenue.

TOO MANY WIVES

MRS. MARGARET VALENZA.

[TRIBUNE Photos.]

VIOLET ALLEY.

Judge George B. Weiss in Felony court yesterday held Salvatore Valenza, 33 years old, a former convict, to the grand jury in bonds of $4,000 for contracting a bigamous marriage at Crown Point Aug. 14. This was the second bigamous Crown Point marriage disclosed within a week.

Valenza was arrested Saturday on complaint of his wife, Margaret, 28, 150 West 25th street, that he had eloped with her cousin, Violet Alley, 19, 243 West 58th street. Through his attorney, Bernard Barasa, Valenza confessed and waived examination. He is a former inmate of Joliet penitentiary.

Quiz Annoyer of Nurse.

Curlee Barron, 31 years old, colored, 3834 South Wabash avenue, was questioned last night after his arrest on the complaint of a nurse, Miss Evelyn Fowler, 21 years old, 2003 Indiana avenue. She was given a police escort on her way to work at the Wesley Memorial hospital at 2449 South Dearborn street and pointed out Barron on the street as the man who had annoyed her on several occasions.

THIRTY INJURED IN HUDSON TUBE TRAIN ACCIDENT

New York, Aug. 23.—[Special.]—Trafic on the Hudson tubes from New Jersey into downtown Manhattan was halted for eight hours today by an accident in which thirty passengers were injured.

The 50,000 New Jersey commuters who use this branch of the tubes during the morning rush hour had to get to their offices by ferry, Pennsylvania railroad trains and the uptown branch of the tubes, and almost all of them arrived late.

The accident occurred when the second car of a six car train bound from Newark to Manhattan jumped the track at a switch and smashed into a concrete retaining wall.

Four of those hurt remained at Broad Street hospital seriously injured, but all are expected to live.

NEPTUNE RULES AS CARNIVAL OF LAKES BEGINS

Water Pageant and Music Head Program.

(Picture on back page.)

King Neptune, with water dripping from his long white whiskers and his court of mermaids at hand, crowned Miss Faraday Benedict queen of the Carnival of the Lakes last night as the week long Chicago Charter Jubilee event opened in Burnham park.

Thousands crowded into the lagoon theater to watch the show on a floating stage, while another show went on a quarter of a mile south before 20,000 more who jammed special stands in front of another stage also anchored in the lagoon waters.

Yacht Parade Opens Show.

Neptune, ancient Roman god of the waters was played by Albert B. Snite of the Chicago Yacht club. He reigned over colorful floats of monstrous sea serpents, ducks, elephants, and hippos. There were dazzling diving girls who also danced and swam. In the parade opening the show were 70 power and sailing yachts and the city's new fireboat, the Fred Busse.

Music shared the place of honor with aquatic exhibitions. Dave Rubinoff, violinist who thrilled the crowd at the Chicagoland Music Festival Saturday night, and P. A. Cavallo's symphonic orchestra won applause. Jane Fauntz, Chicago Olympic Games star, and Larry Griswold, Western conference champion, appeared in swimming and diving exhibitions. And "Mermaidonia," a ballet, had combined nautical and musical appeal.

The Mexican Otomi Indians presented their flying ceremonial dance before the crowd at the south stage.

Mayor Talks on Jubilee.

Mayor Kelly, introduced by Corporation Counsel Barnet Hodes, told the spectators the purpose of the Charter Jubilee has been to interest outsiders in Chicago as an educational and cultural center.

As finale of the show the fireboat sent a water screen 100 feet high cascading above the lagoon while colored lights played upon it.

SHERIDAN OFFICER CAMP GRADUATES TO HAVE REUNION

Tentative plans for a three day reunion of members of the first and second officers' training camps, held at Fort Sheridan in 1917, were announced yesterday by Brig. Gen. James A. Ryan, who was in charge of the second camp. The reunion, to start Oct. 7, will be the first meeting of camp members since the organization of the Fort Sheridan association at the close of the second camp.

Plans include a visit at Fort Sheridan as guests of Brig. Gen. Philip B. Peyton, commander. Gen. Ryan said few addresses of the 7,508 graduates of the camps are available. He asked that any men who graduated notify him at the Army and Navy club, 850 Lake Shore drive. Two hundred and sixty of those who trained at the first two camps died in service.

Mundelein Dairy Farm Wins Chicagoland Neatness Prize

BY FRANK RIDGWAY.

The New Home farm, owned by Earl H. Kane, Mundelein, Ill., was declared Chicagoland's neatest dairy farm in the fourth annual contest held by the Pure Milk association, coöperative bargaining agency for 14,500 farmers, according to an announcement yesterday by John Case, general manager of the organization.

The prize for winning this grand championship honor is an eight day trip for Mr. and Mrs. Kane to Yellowstone National park in Wyoming and also to several points in Colorado. They will start next Saturday.

Wins Over 300 Farmers.

Kane won in competition with 300 other dairy farmers in Illinois, Wisconsin, and Indiana. His winning farm of 140 acres is located two miles south of Mundelein on route 59 A. He won by having his farm exceptionaly neat, by keeping the milk house and equipment in a santiary condition throughout the year, and by having a herd of 32 pure bred Guernsey cows that scored exceptionally high on cleanliness.

The Kanes have been operating a dairy farm for twenty-one years. Mr. Kane has been a member of the association since it was formed in 1926. His affiliation with PMA is through the Prairie View local.

16 Win Gold Medals.

The New Home farm finally was selected from sixteen farms that had won gold medals qualifying them to compete for the grand championship. The gold medals were awarded to the farms receiving the highest rating in each of fifteen districts in the Chicago milk shed, comprising 33 counties in northern Illinois, southern Wisconsin, and northern Indiana.

They were judged on the following points: General appearance, 50 per cent; condition of barn and herd, 20 per cent; condition of milk house, equipment and utensils, 20 per cent, and condition of all other buildings on the farm, 10 per cent.

Winners of Awards.

The following won gold medals:

ILLINOIS—Douglas I. Hine, Harvard; Henry J. Stilling, McHenry; Louis Heuer, Mount Prospect; Daniel C. Myers, Sugar Grove; George A. Damisch, Hampshire; William Eyre, Minooka; Nick J. Baumann, Aurora; Charles Mark, Frankfort; Philip Surprenant, Kankakee.

WISCONSIN—Studnicka Brothers, Janesville; William A. Kienbaum, Whitewater; S. B. Chapin, Lake Geneva; George Henning, Burlington.

INDIANA—Fred A. Heide, Crown Point; John Heinold, La Crosse; Albert Gudeman Sr., Francesville.

The three final judges were: Dr. H. A. Ruehe, University of Illinois, Urbana, Ill.; Prof. H. W. Gregory, Purdue university, Lafayette, Ind., and Prof. L. C. Thomsen, University of Wisconsin, Madison, Wis.

148 Accordions Stolen; Police Keep Ears Open

Police kept their eyes and ears open yesterday for a 148 piece accordion band. George Gautier, 1021 South Ashland avenue, found that over the week-end burglars took that many accordions—valued at $11,392—from his International Music Instrument company store, 1014 Blue Island avenue.

WINDSOR PASSES OUT FREE BEER TO 1,600 NEIGHBORS

Duke and Duchess Hosts at Garden Party.

NOETSCH, Austria, Aug. 23.—(AP)—Chorusing the grand old drinking song, "Hoch Soll Er Leben," the peasants of Gail valley bade hail at farewell tonight to the Windsors, who found this quiet retreat the ideal setting for their honeymoon.

The occasion was the duke of Windsor's garden party at Wasserleonburg castle, and he was host to 1,600 residents of the community and countryside—with band, beer, contests, and heart-shaped cake.

Persons of all ages climbed the steep and muddy road to the Windsor party, beginning at 5 p. m., and began to do justice to the free beer which former King Edward VIII. provided.

Plan to Go to Hungary.

For many it was their first glimpse of the celebrated sojourners at Wasserleonburg, and all joined heartily in "Hoch Soll Er Leben," which means "may everything always go well with him." Many guests didn't realize that the duke and duchess tentatively planned to leave here Sept. 15, perhaps on a hunting trip to Hungary.

The peasants dressed in Sunday's best or historic costumes and milled about the lawn while Mayor Karl Jost proclaimed it the valley's most memorable occasion and assured Windsor that all "are pleased and honored that you chose to live with us."

The duke blushed as the mayor warmed up to his theme, but he retained sufficient composure to make a speech himself.

Duke Speaks in German.

"The duchess and I have enjoyed living here, and Gail valley will always have a place in our memories," said the duke in precise German.

A six piece band, including two drums, played Austrian airs—very loud. The children got the heart shaped cakes wrapped in pretty paper.

The entertainment feature was a riding contest—the men on wild horses, clubbing at a target past which they galloped. The duchess smilingly insisted on meeting and congratulating the winner. Hundreds shook hands with the party's host and hostess.

Among the guests was Col. Martin Scanlon, attaché to the American embassy in London.

STORM LASHES ATLANTIC COAST; HEAT WAVE ENDS

New York, Aug. 23.—[Special.]—Ending a record heat wave, the season's first northeaster lashed the metropolitan area Sunday night and this morning, whipping island and ocean waters into a fury, making small pleasure craft and one commercial boat helpless, forcing some to sea and disabling others.

Coast guard stations were busy until the storm abated, towing boats to shore. Tonight they were seeking a few boats unaccounted for after having rescued 101 persons from fourteen crafts.

One person was drowned when a launch capsized, and another died of a heart attack when lightning struck near by.

EX-CONVICT HELD TO U. S. JURY IN MAIL BOX THEFTS

William F. Neumann, 55 years old, who admitted taking more than 500 letters from Chicago mail boxes in the last four months, was held to the federal grand jury in bonds of $2,500 yesterday by United States Commissioner Edwin K. Walker. Neumann has served four terms in federal penitentiaries in the last 20 years for the same offense.

Neumann said he was unable to say how much money he obtained from cashing checks and money orders found in the letters. Town Hall police found more than three dozen uncashed checks and money orders with a value of more than $1,000 in Neumann's room at 317 South Throop street.

DIVORCE ASKED

[Associated Press Photo.]

Alice White and Sidney S. Bartlett.

Los Angeles, Cal., Aug. 23.—[Special.]—Alice White, blonde film actress, filed a suit for divorce here today against her husband, Sidney S. [Cy] Bartlett, motion picture writer and a former Chicagoan. She asked $1,000 a month alimony.

Bartlett, whose real name is Sacha Baraniev, once attended Hyde Park High school in Chicago, where he was a basketball player in 1916. His name was changed here to Bartlett. He married Miss White at Magdalena, Mexico, Dec. 3, 1933, and they have been separated since July 15, 1935.

Among Miss White's specific accusations is that Bartlett gave liquor parties during her absence and invited women guests who remained for long periods.

Bartlett is credited with collaborating on such pictures as "Kansas City Princess," "Going Highbrow," "Boulder Dam," and "Under Your Spell."

CYCLIST KILLED BY AUTO AS HE ENDS VACATION

Robert Bugersky, 17 years old, 2248 72d court, Elmwood Park, was knocked from his bicycle and killed yesterday when he was struck by an automobile in Highway 11, just east of Burlington, Wis. Robert Pfister of Racine, Wis., was driving the car. Young Bugersky was returning home after a cycling vacation at Eagle River with John and Alice Rybicki, 1732 West 18th street, Chicago.

John Urban, 40 years old, a factory employé who lived in North Lewis avenue, Waukegan, died at Victory Memorial hospital in the suburb yesterday of injuries suffered Sunday when he walked in front of an automobile driven by Arthur Petitclerc, 31, of 52 South Lewis avenue, Waukegan. The accident occurred near Urban's home.

Philip Henz, 67 years old, 1326 4th street, Northbrook, died last night in St. Francis' hospital, Evanston, of a skull fracture suffered Saturday when he was struck by an automobile in Waukegan road at Schermer road. The driver was M. Russo, 26, of 531 East Detroit street, Milwaukee, Wis.

Up to 4 p. m. yesterday 669 persons had been killed in automobile accidents in Cook county since Jan. 1. Of these 517 were killed in Chicago, where 14,381 were injured.

[See editorial page for the massacre clock.]

RENEW SAFETY TEST ARRESTS ON SOUTH SIDE

Police yesterday resumed arrests of automobile owners lacking current safety test stickers on their windshields. Approximately 75 tickets were issued on the far south side. On instructions from Edward Gorman, deputy city vehicle commissioner, arrests were confined to this neighborhood because the city's safety inspection lane at 99th street and Avenue G has been the only one of the eighteen throughout the city that has not been crowded for the last week.

Of the city's 525,000 motor vehicles, 426,000 now carry 1937 stickers. Of the 119,000 still lacking stickers, 78,800 have not appeared at the safety lanes this year. The other 40,200 were ordered to have mechanical defects corrected and return for a second test.

SENT TO BRIDEWELL FOR LARCENY.

Lloyd Weatherbee, 24 years old, 1017 East 65th street, was sentenced to a year in the bridewell and fined $25 yesterday by Judge George B. Weiss in the felony court on a charge of larceny.

JUDGE ORDERS 17 TO STOP DRIVING; JAILS REPEATER

Equals Day's Record in Safety Court.

Vigorously pushing his safety court campaign to slow down the hands on the automobile massacre clock, Judge Charles S. Dougherty yesterday equaled his record of last Monday by depriving seventeen motorists of the right to drive. Four of them also were sentenced to county jail and the rest were fined.

One driver who was sentenced to three days in the Bridewell for reckless driving and barred from driving for thirty days by Judge Dougherty on July 16 appeared in court again yesterday, just a week after the expiration of his driving suspension. He is Fred Williams, 34 years old, 1342 West 108th street, accused of running through a stop light Sunday at 87th and Halsted streets.

Called Menace on Streets.

"You're a menace to other motorists," the judge said. "Evidently the safety lesson given by this court the last time had no effect. You have shown you are not fit to drive a car."

He sentenced Williams to thirty days in jail and ordered him not to drive for one year, the maximum period under the new state drivers' law.

Three other motorists were sentenced to jail for ten days each for drunken driving. They are Walter Moore, 42, of 3134 Seminary avenue, ordered not to drive for sixty days; Lester Becker, 27, of 5608 North Nordica avenue, forbidden to drive for ninety days, and Edward Miller, 37, of 1733 Central street, Evanston, forbidden to drive for six months.

Other Drivers Suspended.

Other erratic drivers, their fines and the length of their driving suspensions:

WILLIAM F. GROSSMAN, 45, of Oak Forest, $10, thirty days.

JOSEPH BILKA, 36, of 4200 Walton street, $10, ninety days.

HENRY RUBLING, 41, of 3158 North Rutherford avenue, $10, sixty days.

ROLLIN GRONENDYKE, 40, of 1915 South Loomis street, $10, ninety days.

CHARLES SZABO, 22, of 37 East 158th street, Harvey, $10, sixty days.

JACOB KELLER, 52, of 513 South Bell avenue, $5, thirty days.

PETER KORNEVICH, 24, of 3833 Dawson avenue, $10, sixty days.

EDWARD PAVLICK, 45, of 4445 North Kilpatrick avenue, $10, sixty days.

JOSEPH LANNER, 34, of Mount Prospect, $10, ninety days.

EDWARD GREGA, 25, of 10009 Parnell avenue, $10, thirty days.

JOSEPH LUKANCIC, 25, of 1820 Indiana avenue, $10, thirty days.

WILLIAM BROWN, 23, of 1008 Orleans street, colored, $10, fifteen days.

THOMAS CLARKE, 42, of 4732 Prairie avenue, colored, $5, thirty days.

In Traffic court Judge J. M. Braude fined Mike Amerino, 36, of 712 South Aberdeen street, a cab driver, $75 for speeding sixty miles an hour in Lake Shore drive, and ordered him examined by Dr. David B. Rotman, court psychiatrist. Another traffic offender, Edward McClure, 25, of 959 Altgeld street, was fined $30 and freed on Dr. Rotman's report.

Mexican Strike Brings Gas Shortage, Tourists Warned

Motorists bound for Mexico City were warned by Bert Vanderwarf, manager of the Chicago Motor club touring and travel bureau, that an oil field strike has caused a gasoline shortage in the Mexico City region. The strike, in the Poza Rica, area, has forced the Mexico City refinery to shut down, he said. The rest of the country is not affected.

Edward Miller (left) was sent to jail for ten days and forbidden to drive for six months yesterday. Mike Amerino (right), a taxicab driver, was fined $75. He was also ordered to submit to a mental examination.

SHOOTS DRIVER, 19, TO END WILD 3 MILE PURSUIT

Stanley Urzetowski, 19 years old, 3330 South Albany avenue, was shot in the right arm and captured by Policeman Thomas Hoban in front of 1858 West Cermak road late yesterday following a three mile automobile chase through the near west side. The youth was not seriously wounded and was taken to the Bridewell hospital.

Stanley Urzetowski.

The chase started at 31st street and Western avenue after Hoban noted Urzetowski had no license plates on his car. Hoban said when he stepped into the street and waved for the driver to stop Urzetowski tried to run him down.

Hoban jumped on the running board of another car and chased Urzetowski's car through crowded streets and down alleys to 21st street and Damen avenue, where another youth who was riding with Urzetowski jumped out and escaped. Hoban then began firing and on the fifth shot hit and stopped the fugitive motorist.

PHOTOGRAPHER DIES IN CRASH.

Moline, Ill., Aug. 23.—[Special.]—Ralph L. Peterson, a photographer, died in a hospital here of injuries incurred Sunday when his automobile was struck by a car driven by Leon Grapes of Davenport, Ia., Scott county prosecutor. His death was the first automobile fatality in Moline this year.

JAPANESE BAND OF DEATH LEADS TROOPS ASHORE

Faces Deadly Gunfire of Chinese at Shanghai.

[Continued from first page.]

20 villages near Woosung and Kiaochow were burning.

SHANGHAI COUNTS DEAD

Raging, destructive fire became the Chinese offensive weapon against the Japanese army as Shanghai counted hundreds of dead as the result of a shell blast which wrecked two crowded department stores in the International settlement at noon yesterday.

The great, new fires broke out in the darkness of early morning in the Pootung industrial area, opposite the International settlement on the Whangpoo river. The Chinese apparently were attempting to burn Pootung to the very water front rather than permit millions of dollars in property and valuable stocks of merchandise to fall into Japanese hands.

One of Shanghai's ancient pagodas was reduced to ashes by the fires, which have swirled through the metropolis intermittently in many areas for more than ten days.

Dead Nearly All Chinese.

The blast in the department stores of Sincere & Co., a seven story building, and the Wing On company, a sixteen story building, killed some 400 noncombatants, nearly all Chinese, and wounded 1,000. Three Americans were among the wounded.

[*Other sources reported that an airplane bomb caused the tragedy. It was reported that five minutes before the stores were hit a similar bomb was dropped and only partly exploded within half a block of the Metropole hotel, hitting the Szechwan road warehouse, which holds supplies for United States marines. The bomb was almost intact and was identified as a 200 pounder.*]

The stores' blast at Nanking and Chekiang roads, the city's busiest shopping corner, was the worst disaster the international district had experienced since Aug. 14, when Chinese air bombs fell into crowded streets, killing more than 1,000 persons, including three Americans.

American victims of the blast were Anthony James Billingham, formerly of Nashville, Tenn., New York Times correspondent, with shrapnel wounds in chest, left arm, and hand; Hallet Abend, head of the New York Times China staf, slightly wounded in one foot, and Miss Blanche Tenney, Shanghai born American, slightly wounded. A Germar youth and a Swiss engineer were the only foreigners killed.

The explosion shattered the windows of the car Al G. Huebner of Amberg and Marinette, Wis., was driving. He was half a block away.

The missil could scarcely have struck with more devastating effect at any other place or time. Both stores and nearby streets were thronged with shoppers. The casualties were increased by the fact that the upper floors of both stores were occupied by Chinese hotels and were packed with hundreds of refugees. The streets were littered with bodies and debris.

Both Sincere's and Wing On's are Chinese owned, but the companies are incorporated in Hongkong and stock is largely owned by wealthy Chinese having British citizenship.

U. S. Storehouse Hit.

"No responsibility rests with Japan for the Nanking road tragedy," Vice Admiral Kiyoshi Hasegawa of the Japanese fleet at Shanghai said last night, "because none of our warships, artillery, or planes were firing at that time."

Two big shells—whether from Japanese or Chinese guns—did find marks, but without disastrous effect, just before the Nanking road explosion. One huge shell—said to be a 16 inch naval shell—pierced the roof and six floors of a storehouse occupied by the United States navy and the Dollar line, but failed to explode.

The other hit the Ward road jail where 6,000 prisoners are in a "no man's land" of the Shanghai battle area. The building was slightly damaged.

Japanese Warship Sunk.

A vicious battle raged during the landing of the Japanese troops yesterday. Chinese artillery, machine guns, and airmen fought bitterly to prevent the landing. An American eyewitness, Michael Hermann of Chicago, an oil chemist for the Texas company, reported seeing one Japanese destroyer badly crippled and a gunboat sunk by Chinese bombing planes.

The United States destroyer Parrott, commanded by Lieutenant Commander R. E. Melling of Alton, Ill., was lying in the Whangpoo to give what protection it could to the plant.

FIGHT WITH FIRE

(Story Starts on Page 1.)

Lower arrow points to Pootung industrial district which Chinese are reported burning to the waterfront to prevent Japanese occupation. An estimated 400 persons were killed in the international settlement of Shanghai yesterday when a projectile exploded, wrecking two crowded department stores. A battle raged as the Japanese landed 50,000 fresh troops near Woosung, which was in flames.

HULL ASKS CHINA AND JAPAN NOT TO ENGAGE IN WAR

[Chicago Tribune Press Service.]

Washington, D. C., Aug. 23.—Secretary of State Cordell Hull tonight said the far eastern situation was a matter of grave concern to all the nations of the world and appealed to Japan and China to "refrain from resort to war."

This government, the secretary said, is giving "most solicitous attention" to every phase of the situation in China, not only toward safeguarding the lives of Americans but toward making effective the policies of peace "in which this country believes and to which it is committed."

"When there unfortunately arises in any part of the world the threat or the existence of serious hostilities, the matter is of concern to all nations," Hull said. "Without attempting to pass judgment regarding the merits of the controversy, we appeal to the parties to refrain from resort to war. We urge that they settle their differences in accordance with principles which in the opinion not alone of our people but of most peoples of the world should govern in international relationships. We consider applicable throughout the world, in the Pacific area as elsewhere, the principles set forth in the statement of July 16."

In the statement of July 16, Hull had enunciated fourteen principles of American international policy. One of the principles was "adjustment of problems in international relations by processes of peace negotiation and agreement."

WORKMAN DIES OF INJURIES.

Pathways to a Full Life

To establish an objective and to create a plan for reaching it is a sane approach to successful living. Perhaps your idea of a full life is a cultivation of the intellect, or the attainment of cultural advantages. Perhaps like many you want to be shown the way to happiness by really enjoying work. Or a generous measure of success and independence in the professions or business may be your interpretation of a full life.

Education is no magic formula for getting out of life what you most desire. But it can become a very workable part of your plan for establishing and reaching your objectives.

De Paul has profoundly affected the lives of many. Perhaps this University can help you to live more fully.

STORY OF DEATH IN SHANGHAI'S 'STATE STREET'

Victims Shoppers in Two Busiest Stores.

BY MORRIS J. HARRIS.

(Picture on back page.)

SHANGHAI, Aug. 23.—(AP)—The busiest corner in China was turned into a scene of carnage today when a heavy artillery shell plunged into the heart of Shanghai's Nanking road shopping district. At least 400 persons were killed and probably 1,000 wounded.

The projectile wrecked the city's two largest department stores, the Wing On company and the Sincere company. There were large areas of devastation that the searchers may not be able to dig into for days, and there was no chance that any survived in those tons of blasted steel and concrete.

Bodies Swept Into Rows.

The two crowded stores immediately after the blast presented a ghastly picture. Hundreds of bodies lay heaped as if the fearful blast had neatly swept them into rows. I counted 200 bodies. Complete counts were impossible. In desperate efforts to save the living, many dead were left in the ruins.

After buying paper and food supplies I was just leaving the Wing On store when the shell screamed toward the International settlement. Suddenly every one was aware of the danger—but it was too late. It struck with the speed of a meteor, smashing into a bewildered mass of humanity. Every pane of glass was shattered in buildings for blocks.

It was as if a great shell had fallen at noon on a 5th avenue corner in New York or in State street Chicago. There could have been no time, no place, in the orient where the shell could have done more havoc.

Fronts Blown Out.

The Sincere company's big seven story building faces Wing On's new 16 story skyscraper across narrow Nanking road, which here is teeming, day and night. The entire facade and one whole corner of the Sincere company's store was blown out. Behind me the fronts of the Wing On store's two buildings seemed to fly out from their foundations, then crumble in a rain of litter.

Suddenly there was death all around. Most of the bodies were horribly twisted and burned black. Bodies were torn to fragments. Some arms and legs were flattened against building fronts by the terrific force. Some were blasted as far as two blocks.

I turned back into Wing On's to find it a shambles. The explosion had ripped through walls as if they had been tissue paper. Hundreds lay about, either dead, wounded, or so dazed and white with shock that they appeared dead.

Hundreds, crazed by fear, sought to escape from the wrecked building. Stairways and exits were choked. Elevators were jammed wherever the blast caught them. In them were dead and many grievously wounded.

Fight to Escape.

Most of the store's staf were lying about dead, hurt, or shell shocked. A few managers who had survived the blast tried to control the crowds, but none heard them. It was a tide of humanity fighting in panic for life and tearing through any open space.

Outside I found sections of the two towering stores hanging dizzily over the street. Balconies and railings sagged. Here and there bodies were draped on balustrades.

Mortally wounded persons staggered blindly, insanely away from the ruins to collapse and die. They lay there until police had gathered up those whose lives might be saved. Thousands of frenzied relatives stampeded into the street to claim their dead and dying.

American Volunteers Busy.

American members of the Shanghai volunteer corps were among the first on the scene, ahead of the police and Red Cross. They had to battle their way through crowds and a mass of twisted wires and wreckage to reach the dead and injured.

Rescuers commandeered ambulances and other automobiles to race the victims to first aid. The injured were carried away on anything that could be found—stretchers, torn down screens, and boards.

Trucks came and went behind the workers, disappearing with loads of bodies and swiftly returning. When police reënforcements arrived they went to work with shovels and hose, gathering up fragments of humans and carting them off in huge baskets.

While this work went on at least 10,000 terrified natives jammed the nearby streets, clamoring to be allowed to search for friends and relatives. Police were forced to strong measures to restrain them.

Divorced in Nevada

HELEN WILLS MOODY.

FREDERICK MOODY JR.

Carson City, Nev., Aug. 23.—(AP)—Mrs. Helen Wills Moody, 30, former world tennis queen, divorced her broker husband here today and announced she would virtually desert the courts to play golf and design links costumes.

Charging mental cruelty, the erstwhile Wimbledon and United States women's tennis champion divorced Frederick L. Moody Jr. of San Francisco at a private trial.

She came here from Glenbrook, Lake Tahoe, where she had fulfilled her six weeks' residence requirement.

Mrs. Moody, who only recently turned to the links, said of her plans for the future:

"So many women look dumpy in golf clothes. Maybe this will help me design some more attractive costumes. You can quote me on that as a tennis player or golf dub," she laughed.

She nas only had four lessons in golf, but displayed keen fascination in the game.

Wife Wins Children from Corporation Counsel's Aid

Judge Charles A. Williams yesterday ordered Assistant Corporation Counsel William V. Daly to give temporary custody of his two children, Patricia, 5 years old, and William Jr., 4, to his wife, Mrs. Madelyn Daly, 6539 Justine street. Mrs. Daly filed suit for separate maintenance last week. She said Daly took the children when she went to a hospital with a nervous breakdown Aug. 15. A third child, Ann, 21 months old, is with her.

Kentuckian Acquitted on 24 Year Old Killing Charge

Inez, Ky., Aug. 23.—(AP)—Harvey Hardin, 44, a mining engineer, was acquitted today of charges that he slew James A. Watterson, 62, a wealthy timberman, 24 years ago because of jealousy over a woman.

BOY DIES AFTER FALL.

Robert Cook Jr., 7 years old, colored, 20 East 44th street, died yesterday in Provident hospital of injuries received in a fall from the fourth floor apartment where he lived.

JAPAN DECIDES TO END WAR IN CHINA 'QUICKLY'

Tokio Orders Troops to Take Offensive.

[Chicago Tribune Press Service.]

TOKIO, Aug. 24 [Tuesday].—The war ministry today announced the Japanese government is eager to terminate the Chinese-Japanese fighting as quickly as possible.

"With this desire in view it has been decided to conduct military operations on a positive basis, that is, without waiting until the Chinese attack," the ministry said. "We are not going to be caught by China's tactics to purposely prolong the incident, and are taking care not to play into the hands of Chinese who are planning protracted fighting."

Tokio Conscripts Wealth.

TOKIO, Aug. 23.—(AP)—The Japanese government today revealed plans to tighten its control over the private wealth of the empire to further its program for placing Japan under a wartime economic regime.

Okinobu Kaya, finance minister, said the government "finds it necessary to readjust investment capital" in order to increase funds available for expansion of munitions industries and foreign trade.

To meet immediate needs of the expanding army and navy operations in China, the government decided to issue shortly 200,000,000 yen [about $58,000,000] in deficit bonds.

Avoids Absorbing Reserves.

The finance minister took occasion to assure financiers the government has no intention of compelling business to underwrite its national defense bonds with its fixed reserves or of establishing "unreasonable capital control."

But Kaya added that a banking syndicate, with the official bank of Japan as the leading member, was considering voluntary measures for the readjustment of capital.

An official of the Tokio stock exchange said:

"Control of industrial funds naturally will result in ample supplies of funds for industries connected with the present situation, such as the munitions and export industries. These will benefit from restrictions on the expansion of non-urgent industries."

Tells of Government Plans.

The government's program is expected to be enacted by the special session of parliament to be called early next month. The influential newspaper Asahi said the "capital control bill" will provide:

That government permission must be obtained for all mergers, establishment of new corporations, increases of capital, collection of unpaid share subscriptions, borrowing for expansion or improvement, all loans for six months or more and exceeding 100,000 yen [$29,000].

CHILD REFUGEES HIDE AS MANILA PLANES SALUTE MERCY SHIP

MANILA, P. I., Aug. 23.—(AP)—Child refugees screamed in terror today as two welcoming airplanes swooped low over the liner President Hoover, bearing 871 persons fleeing from the Shanghai war zone.

Miss May Button.

The vessel was held several hours at the breakwater while the passengers were inoculated against cholera, smallpox, and typhoid. Among the refugees was Miss May Button of 3115 Congress street, Chicago.

Three hundred of the refugees were housed at Fort William McKinley. Others were given lodging in Manila and at the mountain resort of Baguio. Immediate financial help was asked by 332.

President Manuel Quezon, with an escort, was at the pier.

ADMIRAL UNABLE TO PLACE BLAME FOR FATAL SHELL

Washington, D. C., Aug. 23.—(AP)—Rear Admiral Harry E. Yarnell, Asiatic fleet commander, reported to the navy department today a special board of investigation had not been able to determine the origin of the shell which fell on the flagship Augusta near Shanghai last week.

Yarnell said the shell "probably was fired" from a single shot gun. He said evidence as to location of the gun was "contradictory" and added there was no definite evidence as to whether Chinese or Japanese forces fired the projectile.

Yarnell said the opposing forces were warned immediately to exercise more care in the direction of their fire. He said the board found that Freddie Falgutt, first class seaman of Raceland, La., died in line of duty after being struck by a fragment of the "high explosive anti-aircraft projectile." Yarnell advised the navy department that all 17 sailors wounded by the shell were "doing well."

Girl Ends Life with Gun; Relatives Know No Motive

Miss Elaine Erd, 23 years old, a stenographer, died early today in the Auburn Park hospital of a self-inflicted bullet wound. She shot herself through the mouth while in the apartment of her brother-in-law, Walter Heidenway, 1651 West 83d street, where she lived. Heidenway and his wife said they knew of no reason for her act.

BABY DROWNS IN LAKE.

Henry Ross Wimmersberger Jr., 4 years old, 732 Ashland avenue, River Forest, was drowned Sunday in Long Lake, near Phelps, Wis., when he fell from a diving board.

BRITISH SUSPECT BINGHAM'S IN BAD WITH ROOSEVELT

Papers Again Hint Envoy May Resign.

BY DAVID DARRAH.

[Chicago Tribune Press Service.]

LONDON, Aug. 23.—British newspaper correspondents stationed at Washington, D. C., today conveyed hints in their dispatches that Robert W. Bingham, American ambassador to London, is at odds with state department officials. It is intimated the difficulty is concerned with matters of policy, particularly affecting the extent of American coöperation with England in an effort to remove Chinese and Japanese armed forces from Shanghai.

When Bingham left hurriedly Saturday, the idea here was that he had been summoned by President Roosevelt for consultation on views about foreign affairs. This impression was given in the press.

Story He May Quit Revived.

Today, however, Washington dispatches to London papers said the probability of the ambassador's resignation has been revived.

The News Chronicle recalled that Bingham has the reputation at home of being too much of an Anglophile.

"He [Bingham] knows and likes England, and is proud to trace his descent from the Binghams of Dorset," said the News Chronicle. "He is accused often in the United States of being too pro-British."

Find Bingham Is Good Shot.

The Daily Telegraph in commenting on the ambassador's departure said somewhat skittishly:

"For twenty years before he became ambassador here he used to spend his summer holiday in Scotland, shooting. Indeed his friends said it was the shooting to be obtained here that induced him to accept the post as ambassador. Recently, however, the uncertainties of diplomatic life have led him to rely on the hospitality of friends. Shooting hosts have never been found lacking, for Bingham is a good shot as well as a pleasant guest."

If the ambassador is in disagreement with the state department it is assumed here that possibly his July 4 speech may be the root of it all. On that occasion Bingham's evocation of an alliance between Britain and the United States to fight dictators angered Germany.

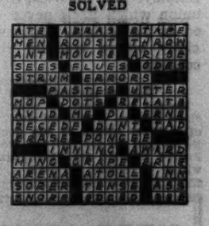
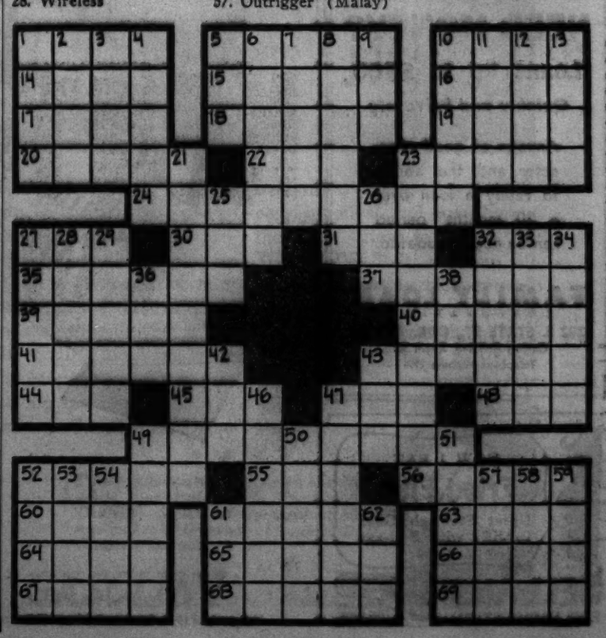
YESTERDAY'S PUZZLE SOLVED





HINTS C. I. O. RUNS NONPARTISAN GROUP OF LABOR

Green Demands Inquiry Into League Objects.

Atlantic City, N. J., Aug. 23.—[Special.]—The executive council of the American Federation of Labor, in annual session here today, voted to investigate the status of labor's nonpartisan league, to determine if it has now become a committee for industrial organization unit. The so-called nonpartisan league supported President Roosevelt in the last election.

William Green, president of the federation, said that should it be definitly determined that the league, of which John L. Lewis is chairman of the board of directors, has become a C. I. O. unit, the A. F. of L. members—some of whom are affiliated with it—would be so advised. They would be notified that to support the league was to support the C. I. O., and they would be instructed to consult the federation as to what nonpartisan political policies should be followed.

Asked why such an investigation was not made during the last presidential election, Green expressed his belief that labor had been largely "behind" Roosevelt and that it was felt inadvisable to take any such steps at that time.

Believes 3d Party Report.

Green said he always had believed that the leaders of the C. I. O. were planning to launch a third political party and that "when that is done we will know whether the country is ready for such a movement." He said that such a party undoubtedly would absorb socialists and communists.

Representatives of the International Union of Elevator Constructors and of the Building Service Employés international union apeared before the council for settlement of a jurisdictional dispute. The council already had ordered that the two groups attempt an agreement on jurisdiction in the organizing of elevator operators and starters.

Such a conference has not been held and Frank Feeney and F. B. Comfort, both of Philadelphia, representing the elevator men, and Oscar F. Nelson of Chicago, and George Scalise and James Bambrick, both of New York, agreed to meet here and come to some agreement before Sunday.

Tobin Scouts New Party.

After the session, Daniel Tobin, general president of the International Brotherhood of Teamsters and Chauffeurs of America and chairman of the labor division of the national Democratic campaign in both 1932 and 1936, issued a statement. He emphasized that he was acting only as an individual.

"You ask me what I think of the possibilities of John Lewis forming a third party," he said. "There will be no third party in 1938 or 1940. It may come in ten or twelve years if the majority party now in power forgets that the workers of the nation put them in power. John Lewis has made some serious mistakes. One of his greatest mistakes was to pull away from the American Federation of Labor.

"He will not make the mistake of starting a third party. He has too much sense not to know what has happened to all third parties for the last forty years. The third party in our country has wiped out nearly all those who started them. Lewis nor any other man cannot get anywhere nationally with a third party until they first cement and make as one voice the present American labor movement."

Green did not comment on Tobin's statement.

Says Reds Run C. I. O. Car Union.

New York, Aug. 23.—[Special.]—Charges of communist leadership in the C. I. O. union for transport workers, which it says are supported "by a mass of documentary and other evidence" were advanced today by the A. F. of L. weekly news bulletin, official organ of the craft union forces headed by William Green.

The accusation that an effort was being made to "sovietize" American transportation workers came originally from the Union Leader, official journal of the Amalgamated Association of Street and Electric Railway Employées of America, the A. F. of L. union which itself never was regarded as particularly conservative, especially where traction strikes were concerned.

FACTIONS FIGHT FOR C. I. O. AUTO UNION CONTROL

Martin Is Opposed by Vice Presidents.

Milwaukee, Wis., Aug. 23.—[Special.]—Approximately 1,500 delegates to the annual convention of the United Automobile Workers of America began their formal sessions here today as two factions of their leaders carried on their campaign for supremacy in the young but rapidly growing unit of John L. Lewis' Committee for Industrial Organization.

A big reception given to Homer Martin when he made his first appearance before the body of the organization today gave indication that he is in a strong position to meet the challenge of the so-called unity group headed by Wyndham Mortimer and E. Hall, vice presidents.

Martin Backs Frankensteen.

The Martin group is seeking to replace Mortimer with Richard T. Frankensteen, executive board member. Martin and his followers blame Mortimer for the epidemic of strikes which has occurred in General Motors plants since the corporation signed a bargaining contract with the C. I. O. early this year. Bitter factional fights have marked committee meetings, which have been going on here for the past week.

The delegates were told today that the U. A. W. increased its cash by nearly $400,000 in the first six months of this year. The financial report of the union, audited by a Detroit certified accountant, show that cash increased from $34,923 at the first of the year to $428,779 on last June 30.

Income Near a Million.

The report showed that total income for the first six months of 1937 were $912,628. Principal items of income were as follows:

Per capita tax, at the rate of 37½ cents per member a month, $410,383; initiation fees, $310,391. and donations, $69,542. Expenditures for the period aggregated $506,821, including $176,800 for salaries and expenses of officers, organizers and employés. Other principal items of expense included printing, legal fees, donations to local unions and supplies.

Martin was shown as having received a total of $4,825 in the six months for salary and expenses. His salary for the period was $1,557. Approximately the same salary was shown for the other international officers. Donations came from local unions, United Mine Workers of America, leading unit of the C. I. O.; United Rubber workers, Amalgamated Clothing workers, and the International Ladies' Garment workers, all C. I. O. affiliates.

Average Membership 182,000.

The $410,383 per capital tax income indicated that the average dues paying membership for the first half of this year was approximately 182,000. As the membership was undoubtedly greater at the end of the six months than at the beginning it is probable that the actual membership today is somewhere between this figure and the 375,000 claimed by the leaders.

The prediction was made at this morning's session by a C. I. O. organizer that the Lewis group would be actively working toward the formation of a third political party this fall.

Leo Krzycki, Socialist officer of the clothing workers' union, asserted that "because labor is dissatisfied with Washington," the same labor forces which are leading the C. I. O. will go around in the next few months appealing to farmers and industrial workers to form their own political organization.

Kryzycki was one of the orators who made inflammatory speeches to the steel strikers in South Chicago just before they precipitated the riot at the Republic Steel company plant on Memorial day. Ten lives were lost in the riot. Kryzycki created little interest among the delegates here when he gave his version of the riot.

SCHOOL TEACHER SETS OUT ON 1,600 MILE TAXI TOUR

Quincy, Ill., Aug. 23.—(AP)—Mrs. Edith Royalty of Pittsfield hired a cab today and set out on a 1,600 mile trip to the United States Naval academy at Annapolis, Md.

George Sieffers, owner of a Quincy taxi company, drove the cab himself. Mrs. Sieffers and one of Mrs. Royalty's sons accompanied them. They planned to pick up another son, a student at the academy, and return him to Pittsfield for a vacation.

"I decided on the cab because I wanted to tour the east and thought this the safest method," Mrs. Royalty said. She is a Pike county school teacher.

FORCED SYPHILIS TEST REVELATION SPURS CAMPAIGN

Find Infection in Fourth of Prisoners Examined.

BY ARTHUR EVANS.

Eighteen men of seventy-six who were compelled to take syphilis tests last week in the Des Plaines street court were found to be infected with venereal disease and were sent to the Bridewell yesterday by Municipal Judge Oscar S. Caplan to take clinical treatment during the 55 days they are working out fines of $100 and costs.

Yesterday Judge Caplan sent seventy-eight more men to the city clinic at 1121 South State street to be examined. Fifty-six of them had been arraigned in the Des Plaines street court, fifteen in the Shakespeare avenue court, and seven in the Fillmore street court.

Sonsteby Commends Plan.

The new rule at the Des Plaines street court of sending to the city clinic men having or suspected of having communicable venereal diseases was commended by Chief Justice John J. Sonsteby of the Municipal court. Under the procedure, established a week ago, the cases are continued until the tests are made, and the infected prisoners then are given fines sufficient to keep them in the Bridewell until they are cured or rendered noninfectious.

"It is an important part in Chicago's campaign against syphilis," Judge Sonsteby said, "and the results of the first week tell their own story."

Judge Caplan, reviewing the first week, said: "Twenty-five per cent of those sent to the clinic were found to be infected. Steps have been taken to cure them. In some cases we have been able to find persons who were in contact with these disease carriers and to insure them treatment.

Undesirables Quit District.

"These examinations have caused a shifting of undesirable transients in the Des Plaines street district. Defendants in the court have decreased from 150 daily to an average of about 62 a day in the last three days."

An opinion that the board of health has full power to demand that persons reasonably suspected of being infected with a venereal disease be examined, and to insist upon treatment for those found infected, was sent by Corporation Counsel Barnet Hodes yesterday to Dr. Herman N. Bundesen, president of the board of health.

The opinion was asked largely because in the Women's court some weeks ago 22 women infected with syphilis walked out of court, their fines paid by male companions, without promising to take treatment. This situation in the Women's court has been rectified in the last three weeks under Judge Eugene J. Holland.

High Fines Aid Campaign.

He has been imposing maximum fines and setting high bonds. Women and men found with venereal disease, if they appear responsible and agree to take regular treatment to render the disease noncommunicable, are placed on probation. If they do not appear responsible or refuse to take treatments they are sent to the Bridewell to be hospitalized.

Dr. Abel Alvear of Quito, Ecuador, came to Chicago yesterday to study first hand the campaign to stamp out syphilis.

Results on the poll to determine willingness of citizens to submit to free and secret blood tests last night showed 79,813 ballots have been returned. Of these 75,438 were checked yes and 4,475 no. As an average of three persons is represented on each yes ballot, Dr. Louis E. Schmidt, head of Mayor Kelly's committee of four hundred to combat syphilis, declared that already more than 250,000 Chicagoans have declared for the blood tests.

Reconciliation Brings Back the Little Wife

(Picture on back page.)

The tall and short of it became reconciled yesterday when Mrs. Dorothy Goldsworthy, 24 years old, 2116 North Springfield avenue, appeared with her attorney, Norman Becker, and dismissed her suit for divorce before Judge Stanley Klarkowski. Attorney Becker said that Mrs. Goldsworthy and her husband, Edwin, 29, decided that in-laws caused their troubles and that they will move away from relatives. She is 4 feet 5 inches tall and he is 5 feet 9 inches. They were married May 14, 1935.

13TH FOREST FIRE VICTIM DIES; SIFT ASHES FOR MORE

Fifty Others Are Injured in Wyoming Blaze.

Cody, Wyo., Aug. 23.—[Special.]—The 13th victim of the Shoshone National forest fire died in a hospital here this afternoon as grimy rescue workers poked through the smoldering ruins of more than 1,500 acres of dense timber searching for more charred bodies.

Although it had been feared others had been trapped by the gale driven flames forest rangers said after the search that they believed "all our dead has been accounted for."

In addition to the toll of thirteen dead about fifty others were injured, half of them so seriously that they required hospital treatment. The latest death was that of William Whitlock of Austin, Tex., CCC enrollee at Tensleep, Wyo., camp.

Artist Among Victims.

Most of the dead were CCC workers, but the list also included Forest Ranger Alfred Clayton, a widely known artist, and L. G. Hornby, specialist in fire control planning for the forest service.

The fire, which the forest service in Washington, D. C., described as the most disastrous in many years, started Friday from an undetermined cause about thirty-five miles northwest of here. Fanned by a terrific wind the flames swept rapidly through the Absaroka mountains in the Shoshone forest, which lies directly east of Yellowstone park.

Weather Fans Flames.

John Sieker, supervisor of the national forest, said that with a break in the weather the fire would soon be brought under control.

"The wind was what made it so treacherous," he said. "Clayton and a man named Post were among our finest forest fire fighters, but they and their party of six were caught as they worked up the mountain. They ran for a rocky ridge but the fire caught them."

Detroit Man Badly Hurt When He Falls Under Train

Verne Verkerke, 47 years old, 217 Cherry street, Detroit, Mich., was seriously hurt late last night when he fell under the wheels of a Chicago bound North Western railway train near West avenue, Elmhurst. His feet were crushed. He was taken to the Elmhurst hospital. Police believe he was riding on the train and fell off.

Widow Accused of Relief Fraud Faces Court Today

Mrs. Gertrude Messer, 8330 South La Salle street, a widow, is scheduled for arraignment in the women's court today on a charge of falsely obtaining relief money. G. B. Foley, attorney for the Illinois Emergency Relief commission, charged she accepted relief for a year while her son and daughter, both employed, helped support her.

HOLD POLICEMAN AND PAL TO JURY ON BOYS' CHARGES

Following testimony given by five boys in Felony court yesterday, Henry Piggott, 32 years old, suspended Rogers Park policeman, and Matthew Caine, 33, of 2222 Giddings street, a former choir director, were held to the grand jury yesterday in bonds of $10,000 each by Judge George B. Weiss on four sex offense charges. The charges were filed after a number of Rogers Park boys accused the men of mistreating them.

Police said Caine has confessed, but Piggott, who was suspended last Tuesday, denies the charges. Stephen Wehr, a chef, was implicated by Caine and is being sought. Piggott, who lives with his mother at 1414 Rascher avenue, was director of a Rogers Park boys' club and also organized a boys' fife and drum corps.

Thousands of Bee Stings Kill Wyoming Boy, Aged 6

Lander, Wyo., Aug. 23.—(AP)—His face and body swollen beyond recognition from the stings of thousands of angry honey bees, Clifford Fabricius, 6, died today. A Riverton physician removed 2,000 stings from his body. Clifford was brought to a hospital here, where attendants said they shaved his head and removed "at least 5,000 more stingers."

KING OF EGYPT AT 18 CHOOSES GIRL OF 17 TO BE BRIDE NEXT YEAR

CAIRO, Aug. 23.—(AP)—Young King Farouk of Egypt chose a bride today—but they will not be married until next year, after his financée's 17th birthday.

The bride-to-be of the monarch, who is 18 years old, is Mlle. Sasi Naaz, pretty, vivacious daughter of Youssef Bey Zulfikar, councillor of the Alexandria mixed court of appeals and granddaughter of former Premier Mohamed Pasha Saied. Her name, of Persian origin, means "the pure rose."

Sasi and Farouk have been friends since their early childhood. They were together for several months this summer on a European tour, with the Egyptian queen mother and Egypt's four royal princesses. Sasi, whose mother is Mme. Henem Zelfikar, lady in waiting to the queen mother, belongs to the highest Egyptian society.

SINKING OF RIVER TUG BLAMED ON OLD ABUTMENT

War department engineers yesterday discovered that the sinking of a tug in the Little Calumet river near Halsted street and 129th place early Sunday morning was caused by the boat striking a submerged bridge abutment. The abutment is 18 feet from the north shore of the river and four feet below the surface of the water. Warnings were issued to all navigators and it was announced that the hazard will be removed in the river widening project. The tug was pushing two empty barges to Beardstown, Ill., when it sank. Six persons on board the tug swam to safety.

TEACHERS ARGUE JOINING C. I. O. AT MADISON CAUCUS

Deserting Federation Is Issue Thursday.

Madison, Wis., Aug. 23.—[Special.]—A bitter denunciation of John L. Lewis' Committee for Industrial organization and a sweeping endorsement of its organization achievements were before the American Federation of Teachers as a preliminary to the affiliation fight which faces it during its 21st annual convention which opened here today.

After recalling the many incidents of close collaboration between the Wisconsin Federation of Labor and the Wisconsin Federation of Teachers, Henry Ohl Jr., president of the state labor federation, warmly assailed the invasion of the C. I. O. and its "perfidious exploits."

Charges Broken Faith.

"The same federation of labor, whose coöperation I have discussed, this agency which has given birth to a new hope in our teachers, is to be superceded in a dual movement, if we take seriously the announcements and actions of the destructionists known as the Wisconsin C. I. O., with the connivance and condonence of the national committee on industrial organization.

"It should be plain to any student that the present controversy is not one of industrial or craft unionism, but rather an attempt at supercession—not a devotion to a cause, but on the idolatry of a man."

Ohl charged that "every activity of the C. I. O. officials in Wisconsin, "shouted treason to the world. They broke faith with our federation. The full drama of betrayal, as evidenced by events, exposes a treachery never before perpetrated in the annals of labor anywhere."

Yale to the Defense.

Defense of the C. I. O. came from Prof. Jerome Davis, ousted Yale sociologist who is president of the American Federation of Teachers.

"The C. I. O. is working with the trends in our social life instead of against it," Davis declared. "We believe that the A. F. of L. has rendered great service over the years, but we stand squarely behind the C. I. O. in what it has done. If it comes to a choice we judge both groups by their fruits."

The convention heard Gov. Philip F. La Follette plead for a program of collective action on common problems which would stimulate, rather than impair, the free speech and a free press.

HAPPY RELIEF FROM PAINFUL BACKACHE

Caused by Tired Kidneys

Many of those gnawing, nagging, painful backaches people blame on colds or strains are often caused by tired kidneys—and may be relieved when treated in the right way.

The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. Most people pass about 3 pints a day or about 2 pounds of waste.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, lumbago, loss of pep and energy, getting up nights, swelling, puffinessunder the eyes, headaches and dizziness.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

JUST "KEEPING TRACK" HELPS YOU SAVE AS YOU DRIVE!
Notice what Miss Marthalou Gray, pictured here, has to say about a "constant check." She drove her own car in the World's Greatest Road Test last summer.
The statement below is an actual excerpt from the Record Book submitted by an owner-driver in "The World's Greatest Road Test of Gasoline Mileage" last summer.
"This book contains a record of the finish of a ten thousand mile trip marked by a gasoline mileage improvement of two miles per gallon. The chief factor in this increased mileage was a constant check and a definite attempt to improve through continual use of tested Standard Oil Products."
Marthalou Gray
Harvey, Illinois
No gasoline you can buy gives more miles per gallon than Standard Red Crown . . . Thousands say "It beats them all."
● It does *feel* that way! The extra care with which you drive, and all the other things you just *automatically* do, the minute you begin to keep a record of your gasoline mileage are so *easy* and so *interesting* they seem "no trouble at all." You'd say too it was the *keeping track* itself that was saving the money. Try it!
Standard Oil Dealers have everything you need to make it easy, practical, and *fun*. There's the book "How to SAVE AS YOU DRIVE." It contains all the money-saving facts proved in the World's Greatest Road Test last summer—everything you need to know how to SAVE AS YOU DRIVE, including a handy score card which makes record-keeping easy.

THE HEAT IN WASHINGTON.

On the adjournment of congress Representative Tinkham of Massachusetts said he was headed for the equator to escape from Washington heat. "In no part of Africa have I found such insufferable climate," he said. Probably the only excuse for keeping the national capitol in the valley of the Potomac is found in its climate.

When it becomes insufferable the most passionate radical finds the heat taking some of the tuck out of him. The will to legislate on everything evaporates. If the capitol were in some congenial and breezy lake shore site in the midwest up towards Mackinac, for instance, congress would be so pleasantly situated that its members might refuse to go home until winter. They would feel well, and inspiration would visit them with every whiff of lake breeze.

The members were stout boys to have lasted out as they did for 229 days, and to wind up with the fireworks which the Democratic dissenters exploded. Whoever wrote Senator Guffey's speech for the radio the Friday night before adjournment can take the credit for producing the final exhibition of party animosities. Senators Wheeler, Burke, and O'Mahoney were not too tired or too hot to take exception to the attack upon them. Senator Wheeler was particularly pungent with his reference to the attitude of the administration toward the economic royalists. "On the one hand they denounce the economic royalists," said Wheeler, "and on the other hand they try to shake them down—shaking them down for campaign contributions and denouncing them as economic royalists."

The de luxe presidential edition of Mr. Farley's campaign book at $250 a copy offered to corporations in sets of 10 or 20, an evasion of the corrupt practices act, will continue to be a hot subject even after the members of congress have left the heat of Washington.

Representative Snell, the Republican leader in the house, failed to get any action out of the house rules committee, but he is giving Attorney General Cummings so much and such damaging evidence of the violation of the law that Mr. Cummings will have to be more than his usual self to put any face upon a refusal to turn his investigators loose on this political jobbery.

Mr. Cummings will have to rise to new heights if he can convince anybody that the corrupt practices act has not been violated by Mr. Farley's booksellers.

JIMMY GETS A PENSION.

Apparently Jimmy Walker was put into the New York political puzzle at this time just to make it harder. There was, among other things, the breaking of his continuity of service which made his pension rating precarious.

Five years ago Gov. Roosevelt, after a show of reluctance, conducted a personal inquiry into Mayor Walker's affairs. Samuel Seabury presenting evidence for the Hofstadter committee. Mr. Walker later went abroad and for years was satisfied with the European scene. Recently he returned.

Jimmy is not by nature an expatriate. He is faithful to the home land. Not long ago he visited Mr. Roosevelt in Washington. Later he was made assistant counsel to the transit commission, a job which pays $12,000 a year. It appears that when he left the mayoralty there were lacking only seventeen days before he would have been eligible for a bountiful city pension. The new job may be intended to tide him over.

Big hearted Jim Farley is credited with the philosophy which cleared Jimmy Walker and put him white on Mr. Roosevelt's conscience. Jim Farley would take the position that when a piece of money was almost in the hand a man should be given justice. Mr. Walker was within seventeen days of a pension of $17,500 a year, a sum on which a fellow could get along. When the transit commission had appointed Jimmy there was nothing any one could do about it, although Mr. Seabury did write a letter to the honorables of the honorable commission intimating everything else but.

Mayor La Guardia has received Mr. Walker after a letter in which the mayor used and retracted the expression "political fixer and alleged expert." But even now nothing is clear although all is excitement. It is not known whose candidacy Mr. Walker is expected to injure or promote. The Tammany Democrat, Senator Copeland, has drawn first place on the Republican primary ballot. Maybe Jimmy was given a job to help La Guardia.

Probably his affair is the simplest thing in the whole New York political situation. Jim Farley saw where a fellow could get $17,500 for life and it would be a sin not to give it to him. That much change is just that much change and some one should get it. The formula is simple.

THE NO WAR IN CHINA.

Three shells falling within the crowded international settlement of Shanghai have increased the number of noncombatant victims of a war which is not a war. It can be suspected that the gunners on both sides are indifferent to mistakes in their range finding. It may be the purpose of the Chinese to provoke foreign intervention or of the Japanese to show their resentment of occidentals in Asia and to stimulate them in their exodus.

Foreign governments are trying to get their people out, but it cannot be done rapidly enough and even when the civilians are withdrawn the military forces remain in the midst of the battleground and the conditions are insufferable. Just because two Japanese naval men were killed, with or without provocation, Japan has started a great war and people protected by treaty rights are stood up in the middle. And this apparently is to be a war even if Mr. Hull of our state department hopes that it will not be one.

In the undeclared Shanghai war of 1932 the Chinese route army No. 19 had all the defense work on its own hands. It was some days before the world learned that an astonishing opposition was being given the Japanese in the paddy fields and that they were making very slow progress.

The 19th route army had no assistance from the national government, and charges were made later that there had been some Chinese interference with it; in fact, that its retreat was made imperative by the obstruction of other Chinese troops. In the intervening five years between that undeclared war and this undeclared war a number of things have happened in China. For one thing the country, seemingly outside the possibility of unity, has acquired something that looks like it. The strong and combative Chinese Reds to the west have made peace with the national government at Nanking and, although nothing at present is heard of their military cooperation with the troops defending the Nankow Pass in the Great Wall, where their presence should be observed, the cooperation of these forces may be expected any day.

Peiping and Tientsin were allowed to fall without the national troops giving the local war lords any assistance, but the attack on Shanghai brought in Chiang Kai-shek's troops. These men have been intensely trained under good foreign drillmasters for a number of years. Their numerical rating is variously estimated and their competence against the real Japanese army, which is just moving in, is questionable.

Nevertheless, for the first time something like a unified China has buried its differences and is making a common front against the aggressor. That did not happen when Manchuria was turned into Manchukuo or when the northern provinces were overridden. Although Chinese patriotism and Japanese patriotism are cast in different molds and have different forms and meanings, Chinese patriotism is apparently thoroughly aroused by what appears to be a new stage in the relations of the two countries.

The peace made some months ago with the Chinese Reds, a compromise undoubtedly dictated from Moscow, may have influenced the Nanking national government to believe that it would have Russian support against the Japanese, just as the Spanish government has received the support of the Spanish communists and of Russia itself. If that direct support is being received there is as yet no indication of it. When the Japanese report that a Russian plane with a Russian aviator has been brought down there will be reason to believe that the soviet forces are trying to give some assistance to the Chinese.

All news from the battle areas is too confused to permit a perspective or a true valuation of what is going on. If the correspondents are not thoroughly deceived by the Chinese announcements of what their aviators have done it would seem that the Chinese planes are good and that they are flown by well trained pilots. They may be of more modern models than the Japanese. A well known American aviator several years ago said that the Japanese always would be backward in their aviation because the models they would be using would be older than the ships used by nations which are progressing by experiment and rapid makeovers. It would be interesting to note whether Japan has placed orders for new machines with American makers and, if so, what effect that would have upon America's suspended neutrality act.

HORSE-AND-BUGGY DAYS BALL.
[Illinois State Journal.]

THE CHICAGO TRIBUNE becomes sarcastic over recent baseball games in which the Cubs have figured. It cites contests in Pittsburgh and Cincinnati where two score sheets disclose a total of 50 runs, 58 hits, and 15 errors. In the two games the clubs used 13 pitchers.

"The way the game is played in the National league," says the Chicago paper, "may be the baseball of the future. It is getting into cricket figures and a tea interval is indicated. Some innings suggest the improbability of getting a side out before dark."

Bless your heart, those figures are nothing to grow nasty over. They spell only a reversion to real baseball form. The boys are getting back to baseball of the good old horse-and-buggy days. When the great national sport was flowering in the seventies, 50 runs in two games was an exceedingly low count.

Originally, too, baseball had its high social side. In Springfield, the first ball teams were formed in the rank of our blooded families. Visiting ball teams were guests at the executive mansion and in the elegant homes of the capital. Usually, the games were followed with a dinner and dance at the exclusive Old Leland hotel, the high spot in western elegance.

Maj. Johnson's socially registered Springfield Zouaves and the smartly accoutered governor's guard appeared as escorts to distinguished visitors at baseball games, which were attended by the elite of the day. The ball players even had fellowship with aristocratic gentlemen who drove their own horses in the race meets.

THE KILT MAY HELP.
[Toronto Globe and Mail.]

The Master of Jedburgh grammar school, now in Canada, says the kilt is "coming back" in Scotland. This appears to be part of the Nationalists' campaign to secure for the country greater legislative independence in the administration of its affairs. Thus, in an endeavor to popularize a movement the Scots do not don black or brown, or green or red shirts. They bring out the kilt, which, according to clan affiliations, may include many distinctive colors.

With characteristic common sense—to say nothing of thrift—it is not considered necessary to invent new sartorial emblems to denote adherence to a cause. The kilt will do. Apart from all this the tartan dress is the most beautiful and impressive worn by any race of men. Its renewed popularity north o' the Tweed may be an effective influence in getting the Nationalists what they want. History records that, on several occasions, appearance of kilted men "en masse," perhaps with claymores or other useful cutlery, has been effective in wearing down opposition.

A LINE O' TYPE OR TWO

How to the Line, let the quips fall where they may. Reg. U.S. Pat. Office

NO PUN WAS intended when THE TRIBUNE referred to Rubinoff's violin as a Stradivarious, but the simple thought rises that the Strads are indeed various and that we never knew a family with a fiddle playing grandpap that didn't insist he had one worth at least $50,000.

FROM PROF. ENG we accept gratefully the quotation from the colored shoe shiner whose boss was a little lax in the furnishing of equipment. "Ef they won't nobody give you nothin' to do nothin' with, they ain't no way you can do nothing for nobody nohow," said he,

FRANK EDWARDS recalls the editor of the Hometown paper who collaborated with a merchant who wanted something different, with the result that a page ad blazoned, "GRAND SPRING APERTURE." And, sezze, it is a matter of record that 'twas the most effective message the store ever turned out.

SUFFICIENCY OF EVIDENCE.

A classic Hometown yarn concerns Vern Barsett, who after many years of effort achieved a job as a state road inspector. His inspecting, although it all showed up on the mileage expense account, was mostly done by proxy. Once, it is related, he went into the hill country, stopped in a county seat and asked how the road was over Blue mountain. The answer was so-so. "Well, kin you walk a dawg down the middle of it at noontime?" demanded Vern. "Reckon I could, if it was a narrer dawg," replied the informant. "We'll mark it fust class," said the inspector.

All these trespassers are well known and should be ashamed. J. M. Conrad.

CHARLES WAKEFIELD CADMAN protests that the words to popular songs are often "childish, almost idiotic." True, and we rejoice to hear a distinguished voice raised. But there is no hope the situation will be remedied until all the present popular ditties are buried under glacial ice and a new start made. Music as a manual and vocal skill is much easier to acquire than the gift of expressing a worthy thought in mellifluous words, and it is human to take the easiest way—make the tune carry the message.

NOTES OF A VAGRANCY.

The roads in Illinois and Indiana are splendid, and outside the cities never seem crowded. . . . Nobody seems to pay much attention to the village signs limiting speed to 30 miles an hour. . . . But no village, town, or city anywhere in this country seems to have enough parking space. . . . The black prairie soil, the yellow earth of Kentucky, and the red acres of Tennessee and Georgia are producing excellent crops. . . . Only a returned stranger can understand how the concrete road and the radio have relieved the whilom isolation of the hill country. . . . Those TVA dams are beautiful and stupendous, but nature looked better without the dressing. . . . It is hot in the daylight hours in the valleys of the Great Smokies, but at night the cool air sweeps down from the summits and comfort comes. . . . A reasonably efficient substitute for a lake breeze.

HOW SOME CHICAGOANS BATTLED DEPRESSION

THE TRIBUNE here presents the story of another Chicagoan who, workless but with high courage, faced the recent depression and fought through it without applying for relief. There is no inference to be drawn that all could have done it; nevertheless the case cited is inspiring. This and succeeding cases are from the files of the Illinois state employment service.

Mr. Fawcett, an industrial engineer, now is 50 and making $3,000 a year. From 1927 to 1933, however, as European manager for an American automobile factory with headquarters in Germany, he made $25,000 a year. In 1933, as the result of political disturbance, the factory was closed. He brought his wife and two children home to the United States—to nothing.

Mr. Fawcett had wide experience in both airplane and automobile manufacturing. He had organized and put into operation two large air lines. A college graduate, he had had two years' experience in production management and costs. At one time he was a regular army officer. None of this background proved helpful.

He looked for odd jobs for three years, sometimes making as much as $25 a week. He did factory cost work. He served as inspector on assembly lines in automobile factories. He worked out time schedules. He operated a milling machine and hand saws in an automobile accessory factory. And they managed to eat.

Two months ago he obtained his first position with any prospects of permanency. He manages the service department of a large automobile company for $3,000 a year.

WHAT CAUSES MALARIA? (Part I.)

THE word malaria, meaning bad air, harks back to the time when most fevers were supposed to originate in damp regions, where vegetation was undergoing putrefaction and the air was filled with unwholesome odors. The word miasma was employed frequently, and many are the long polemics indulged in by the physicians of a century or more ago in an effort to trace the origin of malaria, yellow fever, pneumonia, etc., to these noxious vapors.

In Matthew Carey's narrative of the "yellow jack" epidemic which attacked Philadelphia in 1793 it is recorded that bulletins were issued to the inhabitants, ordering them to close all windows and doors after nightfall so as to keep out completely the putrid effluvia that arose from low, marshy lands along the waterfront. In so far as mosquitoes were excluded by this plan, the suggestion was helpful.

It was not until 1880 that Laveran, a French army surgeon in Algeria, described a parasite in the blood that proved to be the cause of malaria. Three years later a physician of Washington, D. C., suggested that these parasites were spread by mosquitoes. But confirmation was not forthcoming until another fifteen years had elapsed, when Sir Ronald Ross, working in India, demonstrated beyond question that these insects could transmit the infecting agent.

But just what part does the mosquito play? In the first place the parasites can live in the Anopheles mosquito and in man. The pest bites a person infected with malaria and the parasites are drawn into its stomach, where they undergo certain changes. Permit this carrier to bite a well person and we have the mode of transmission—from a sick individual to the mosquito and thence to a new victim.

Little need be said about the devastating and efficiency destroying character of the disease, which has been called the "wrecker of empires." The glory of the Greek and Roman civilizations collapsed before the onslaughts of this insignificant germ. Historians rather generally attribute the decadence of Roman culture to the fact that the organisms so sapped the vitality and virility of those dwelling along the shores of the Mediterranean that they fell easy victims to a superior power.

Today we know that the parasites go through a definite life cycle within human red blood cells, and that there are three varieties of the plasmodium which affect humans: one causing tertian malaria, another that known as quartan fever, and the third, the estivo-autumnal type, a deadly sort of the infection which is likely to appear in epidemic form. The second is less common; in fact, some authorities believe that it is disappearing. Many writers include a fourth group, but for our brief study this need not be emphasized.

The malignant estivo-autumnal "bug" is exceedingly minute, but it grows within the red blood cell to one-half or two-thirds the size of the corpuscle, changing as it develops. One curious characteristic is that the cells which harbor the germs tend to clump together—adhere to the walls of capillaries, thus preventing the passage of blood through them. This accounts for the complete obstruction of many fine arterial channels in the brain, bone marrow, and other structures.

It takes about forty hours before division begins, when from a single organism as many as twenty or thirty descendants may be born. Each new young animal attaches itself to the nearest red blood cell and begins its independent growth. As a rule about forty-eight hours elapse from one generation to the next of this particular species, and the attacks of ague appear at these intervals.

This discussion will be continued in tomorrow's article.

HYPOTHYROIDISM.

O. H. writes: I am a man 68 years old and, from certain symptoms, I have the notion that I may have a hypothyroidism, which has existed more or less all my life. I base my opinion on the following conditions: Feeling cold when others are comfortable, general lethargy, with indisposition to work or play, chronic tired feeling and lack of pep and ambition, with no refreshment following a rest or vacation; inclination to accumulate flabby excess weight especially about the abdomen; inability to be happy, and a strong tendency toward melancholia.

Would you advise an examination, or do you think I am too old to worry about the thing?

REPLY.

You may be right about the hypothyroidism (underactive thyroid). Your symptoms suggest a rather sluggish gland. The only way to determine this is by having a basal metabolism test made. If it should show a minus-10 or more, your physician can prescribe thyroid gland tablets which will be helpful. You can have the test in any good hospital for a comparatively small charge, and it would be worth your while to settle the matter.

You should have a good many years ahead of you.

GAIN IN WEIGHT.

J. W. H. writes: I am 11 years old. When I was 8 I went to camp and I weighed 72 pounds. I went again the next year, when I was 9, and weighed exactly the same as I did the year before. Suddenly that fall, on my return from camp, I gained 20 pounds in two months, which I have kept ever since.

1. Is this due to a deficiency in thyroid or an increased amount of it?
2. Can I hope to outgrow it?

REPLY.

1. You do not mention your height. A gain in weight of 20 pounds with no increase in stature would indicate some glandular failure. One cannot say certainly that the thyroid is responsible.
2. Growth usually readjusts matters in time. The chances are that by the time you are 14 or 15 your extra weight will have disappeared.

FIRST SYMPTOMS.

M. P. writes: What are the first symptoms of syphilis?

REPLY.

A chancre or initial sore occurs at the site of inoculation about three weeks after exposure. At first this is a painless red pimple which increases to the size of a pea. Later it ulcerates and becomes quite firm or cartilage-like, and serum oozes from the surface. Within a few weeks this disappears, leaving a small scar. The lymph glands adjacent to the sore enlarge.

"L"-SURFACE TRANSFER.

Chicago, Aug. 20.—[Friend of the People.]—Last Sunday I traveled from 3400 South Ashland avenue to Roosevelt road, and then transferred to the eastbound car to Wabash avenue. From there I took the "L" to Loyola. All this on one "L" transfer. I took the same route home—the "L" to Roosevelt road, Roosevelt road to Ashland avenue, and then tried to take the Ashland avenue car south. The conductor notified me that my transfer was not good past the 1500 block west, and that I would have to pay an additional fare. I refused to do so, stating that I rode in the opposite direction earlier in the day, and no one said anything to me about paying an additional fare at that time. Who was right? E. J. W.

That section of Ashland avenue from Pershing road to Roosevelt road is tributary to the elevated railway station located at Roosevelt road and Wabash avenue. A passenger boarding a car at any point within this section and receiving a combination transfer is entitled to transfer to the Roosevelt road line, and this transfer when presented at the elevated station named is valid. This likewise applies to a trip in the reverse direction. In this instance therefore, assuming the conditions to be as described, the conductor was in error, and this passenger was entitled to ride southbound on the Ashland avenue line to Pershing road.

TOLD TO REPAIR.

Chicago, Aug. 20.—[Friend of the People.]—Will you please investigate a so-called garage located on the back of the lot at number 22 of our street? It is in a badly dilapidated and filthy, rat infested condition. Will you please take proper action to have this garage removed? C. D.

Our inspector reports this is a two-car frame garage, slightly damaged but structurally safe, at this time. The owner has been notified to repair or board up the premises and this department will proceed according to law in the event our notice is not complied with. RICHARD E. SCHMIDT,
Commissioner of Buildings.

THE RUSSIAN FLYERS.

RIGA, Latvia, Aug. 6.—Mr. Warren Bishop Jr. accuses THE TRIBUNE of rancid sportsmanship because it commented upon the propaganda aims behind the soviet transpolar flights. Mr. Bishop would like to give the Russian flyers credit for performing a great sporting feat. His letter was published on July 20.

If Mr. Bishop had been reading some eight soviet dailies with me for the last fortnight I am sure he would have also been nauseated with the seemingly endless articles addressed to the flyers and "our dearly beloved genius, the father and leader of the soviet fatherland, Comrade Stalin" who, it is openly admitted, ordered these flights, revealing they were not exploits by volunteers as first reported.

A. V. Belyakov, member of the first soviet crew to land in America, wrote upon returning to Moscow: "Through our flight friends of the soviet government in America received another opportunity to express their hot love and sympathy toward the U. S. S. R. It also helped Americans to understand our great work toward building a new life."

The flyers also wrote in Pravda and other papers that they had made a number of highly political speeches during the meetings held in their honor in America. They explained how the latest wave of bolshevik terror was due "to the will of the soviet nation, which will continue to mercilessly destroy all its enemies."

What was the ultimate purpose of the flights? The Moscow press says it was to strengthen the activities of the friends of bolshevism in America. That changes the character of the flights from a sporting event into a publicity stunt.

Mr. Bishop's insinuation against THE TRIBUNE'S pro-American and anti-bolshevik attitude is common among a great many Americans who, because of lack of knowledge of Russian history and because their imagination cannot grasp what is actually taking place in Russia, are inclined to believe just the opposite of the accounts they read in the press.

It is human nature to want to believe the best about everything and everybody. Because of this illuminating newspaper reports are often disillusioning. The censored press of Russia and other European countries is filled with Pollyanna articles and news exploiting this human weakness. Pollyanna attained popularity because she was fiction.

If Roosevelt had ordered some American flyers to cross the north pole and tell the Russians some favorable things about our democracy, what would have happened? They have a censor in Russia. We haven't—yet. DONALD DAY.

HE DID MENTION CHAMPAGNE.

Chicago, Aug. 19.—After reading the latest account of the "Battle of Roses" in Cannes, France, where the mayor led with his chin, I tuned in my office radio to see if the Cubs were doing the same. Imagine my surprise when I heard an indignant father exclaiming that he did not wish to see a certain class riding in carriages and drinking champagne when the rest of the people starved. Chastising his son with a national broadcasting chain! That was something. I was just about to wire the President, "You've got something there, Mr. Roosevelt," when listening further I found it was nothing more than the usual political speech fomenting class hatred. Seriously, Mr. President, give us the names of these men who wish to rule, and why is it that everybody that disagrees with you is wrong and you are always 100 per cent right? The democracy and more democracy you are giving us is just that which you say you are fighting, namely, the vesting of supreme power in the hands of any class, numerous but select, and that class, numerous but select, is the one which you have chosen and which follows you blindly.

THE K. K. K. CARTOON.

Chicago, Aug. 18.—Your cartoon on the front page this morning of the Supreme court was the most un-American and disgraceful exhibition of reactionary newspaper work I have ever seen. I cut it out and sent it to the department of justice in Washington. Personally I never want to see a TRIBUNE again.

FRANK HEILMAN.

CONTEMPT OF WHOM?

Chicago, Aug. 18.—It seems to me your cartoon, "The Black Robes of Justice and the BLACK Robe of Justice" in the Wednesday, Aug. 18, TRIBUNE is about as close to contempt as you can get and still have any defense left.

The cartoon would have been bad enough on Tuesday [but could be expected from THE TRIBUNE], but there is no excuse for such a cartoon after the nomination of Senator Black was confirmed. HUBERT D. RYAN.

FROM THE SENATOR'S NEIGHBOR.

Beardstown, Ill., Aug. 10.—Your cartoon yesterday of the members of the Supreme court looked good until one noticed the hooded member at the foot of the class, Senator Black. To make the cartoon complete, some place should have been found for Senator Dieterich, maybe as a messenger boy for the President.

GEORGE F. TABLER.

WHOLESALE PRICES AND THE COST OF LIVING.

Chicago, Aug. 20.—In answer to "Wage Earner," his letter to the Voice of the People, Aug. 19, I would say that he should check his cost a little more closely before trying to criticize Mrs. Perkins. He speaks about the cost of butter and eggs. I do not know just where he gets his prices, but I will quote prices that are considered official as published from the Chicago Price Current:

Eggs, May 1, fresh firsts, carlots....21¼¢
Same grade, Aug. 18 .....19¾¢
Current receipts, May 1.....19¢
Current receipts, Aug. 18.....18½¢
Butter, extras, 92 score, May 1....31¢
Butter, extras, 92 score, Aug. 18..32¼¢

You will notice eggs are cheaper and there are plenty of them. Butter is a trifle higher, but Wage Earner's wages are no doubt higher also. I am surprised to learn that there is such a person as a wage earner in Lake Bluff.

BRITAIN BOASTS NO FOE CAN TAKE GIBRALTAR ROCK

Unworried by Il Duce's Mediterranean Threats.

BY DAVID DARRAH.
[Chicago Tribune Press Service.]

PORTSMOUTH, England, Aug. 23.—British admirals declare that England's rearmament program now has advanced far enough to discount any threat of a bombardment of Gibraltar. This view was expressed after Premier Benito Mussolini of Italy made a reference to a "collision with Great Britain" in his recent speech at Palermo, Sicily.

Portsmouth hums with activity in connection with the overhauling of the battle fleet.

In spite of the menace from the air and from guns which Gen. Francisco Franco, the Spanish insurgent commander, with the aid of his German and Italian allies, has planted at Ceuta, Spanish Morocco, and Algeciras, Spain, the British are not worried. They feel certain Gibraltar could stand any aerial or gun siege or both.

Great Rock Rearmed.

"Is the Italian air force a menace to Gibraltar?"

"Not by a damn sight," say Portsmouth sailors, and they are likely to add that Mussolini will get what is coming to him one of these days.

Those who declare that Gibraltar still commands the straits despite Italy's bid for control of the Mediterranean and her doctrin that it is the "Mare Nostrum" [our sea] say that Ceuta and Algeciras, as a matter of fact, always have been heavily armed.

They say, however, that at the same time Gibraltar's batteries also have been rearmed since the last war with guns of exceptionally superior caliber and range, and that the situation of the new batteries was determined by the contingency of possible hostile fire from both Spanish and Moroccan territory.

Airplane Detectors Mounted.

Plans for modernizing and replacing Gibraltar's guns were drawn up long before Franco and his friends erected guns along the straits, it is said here. Recent alterations include also the mounting of airplane detectors upon the upper rock capable of detecting the approach of aircraft over a range of more than 100 miles around Gibraltar, according to Portsmouth's naval men.

Modernization of artillery has increased the firing power on the rock. An anti-aircraft division has been created at Gibraltar and new high power searchlights have been installed.

British naval men also claim that they have prepared a new weapon to meet any attempt on the part of a submarine power to block the whole Mediterranean.

New Depth Weapon Hinted.

The London Times, in discussing the orders given to the British fleet to fire on any submarine in the Mediterranean attacking British shipping, hinted at a new and powerful anti-submarine invention which would make undersea boats no longer dangerous to warships.

They say here now that British ships are experimenting on a depth charge which is of such power that any submarine within half a mile of the spot where it is dropped would be forced to the surface. Supplies of these depth charges, which never yet have been used in war conditions and can be dropped overboard or fired from a gun are being dispatched from Portsmouth in response to the British admiralty's orders for drastic action against any submarine attacking a British ship.

British Familiar with Ceuta.

The number, caliber and range of the guns at Ceuta have been grossly exaggerated, the British say. There were guns in Ceuta before the war. Gen. Franco lately has brought the armaments there up to date and added to the emplacements, but the British, who have been aware of all guns mounted, are remaining confident in the knowledge that Ceuta is within rage of the superior guns of Gibraltar.

The British are inclined to excuse Franco's arming of Ceuta. Gibraltar happens to be situated amidst territory dominated by Franco, and he must of necessity mount a certain number of guns to defend the passage of his troops across the straits, according to the British explanation.

The question, say the British, is not whether certain guns could attack Gibraltar, but whether Gibraltar can effectively silence any guns directed against it. Gibraltar can, say the admirals here.

BACK IN PRISON

Joseph J. Bruno, fugitive in the Kelayres, Pa., election massacre of 1934, as he entered prison yesterday after his capture in New York.

Philadelphia, Pa., Aug. 23.—(AP)—Joseph J. Bruno, hunted for eight months as a fugitive from three life terms for the 1934 Kelayres election eve massacre, was shoved through a crowd outside Eastern penitentiary today and the gates clanged behind him.

He became prisoner No. D-2381 in the isolation block. In other blocks were five of his kinsmen, sentenced in the shooting which brought death to five men marching past the Bruno home in a Democratic torchlight election parade.

Bruno, 54 years old, and one time Republican chieftain of the coal town of Kelayres, walked away from a jail guard last December while on a visit to a Pottsville, Pa., dentist.

He was captured in New York City yesterday. In the lineup today he admitted his identity and was given a hearing at which he waived extradition.

MYSTERY WRECK KILLS 11 IN ITALY; PROBE LAUNCHED

GENOA, Italy, Aug. 23.—(AP)—Italian civil and military authorities launched a carefully guarded investigation tonight of a strange head-on train collision that killed ten sailors of the second naval squadron. A trainman also was killed and numerous sailors hurt.

No photographs at the scene of the wreck, Vigo Morasso curve, were permitted, and newspapers up to tonight had been forbidden to publish news of the disaster. Police surrounded the wreckage.

Authorities refused to hazard any speculations as to the cause of the wreck, which followed by one day the launching here of Italy's newest battleship, the Littorio, in which the sailors participated. Some railroad men expressed belief that anti-Fascist sabotage might be involved.

The sailors were on their way to Casella for a fete. Their train collided with an unscheduled freight train, the engineer of which was killed. The presence of the freight was not explained.

Rumanian Prince Tests Plane for World Flight

PARIS, Aug. 23.—(AP)—Prince Constantine Cantacuezene of Rumania tested his plane here today for a projected solo flight around the world. Friends said he had not yet set a date for departure.

BOYS, FISHERMEN RUSH TO DEFENSE OF SANTANDER

90,000 Rebels Converge on Starving City.

HENDAYE, Franco-Spanish frontier, Aug. 23.—(AP)—Shopkeepers, chauffeurs, mechanics, and fishermen of besieged Santander rushed to the defense of their hungry city today.

Despite a series of government counterattacks, insurgents held a spearhead in the fortified ring southeast of Torrelavega, defense outpost of Santander, which is the last main loyalist held port on the north Spanish coast.

Insurgent Generalissimo Francisco Franco's legions held positions which only yesterday were inside the government's fortified defense lines. From there the insurgent big guns pounded defense works south of Torrelavega, where a unified army of Basques, Asturians, and Santander militiamen dug in for a last stand.

Franco's forces advancing along the Reinosa-Torrelavega road neared the Torrelavega objective. A column of insurgent cavalry slowly pushed out government troops along the border between Burgos and Santander provinces.

Loyalists Yield at Irun.

Insurgent officers at Irun said government troops in this sector "offered little resistance," falling back toward mountain peaks.

In all, five insurgent columns of 90,000 troops drove forward to consolidate their control of the Biscayan coast.

From Bilbao came word that Castro Urdiales, tiny seaport along the coastal road to Santander, fell to the insurgents during the day.

Scarcely a shot was fired along the entire route as Black Arrow division troops marched five miles along two coastal roads to Castro Urdiales, occupying the heights and city of 12,000 whence all Santander defenders fled, the insurgents reported.

The government defense ministry at Valencia said insurgent bombing planes had made a shambles of Torrelavega and Arenas de Iguna on the Santander front. Air raids yesterday, the ministry said, "horribly destroyed" the mountain village of Arenas de Iguna, "leaving great heaps of ruins where a great number of women and children perished."

Boys Captured by Rebels.

Boys who had never pulled a trigger were among the prisoners captured by advancing insurgents. The youths said they were rushed to the front with the ragged army of farmers, mechanics and fishermen to make a last desperate stand.

Insurgent commanders estimated their forces had captured more than 1,000 square miles during the last nine days, but government announcements contended an insurgent flank attack was thrown back over the week-end.

Far south of Madrid, the government advices said, insurgents faced a "threatening situation" at Granada, because of what appeared to be an uprising within the ranks.

Rebellious insurgents shelled and bombed the insurgent held city, the ninth government army corps headquarters reported.

SPAIN DEMANDS LEAGUE END SHIP RAIDS BY ITALY

Invokes Covenant; Rome to Ignore Protest.

GENEVA, Aug. 23.—(AP)—The Spanish government asked the league of nations today to stop "the criminal conduct of the Italian government in attacking Spanish merchant vessels."

Although the appeal was filed under the league of nations covenant article which permits a member nation to summon a meeting of the league council, the Spanish government left with the president of the council the decision on whether a meeting would be called.

The protest declared the situation was becoming so grave that another "incident" such as the sinking of Spanish merchant ships might touch off a "general conflagration."

[An Italian official in Rome said Italy's attitude would be to ignore the protest. He said Italy could not take seriously "constant accusations from Valencia by a government not recognized by this nation." Italy recognizes the insurgent régime of Gen. Francisco Franco.]

Campeador Incident Cited.

Article eleven of the league's covenant, which the Spanish government invoked, provides that the league "shall take any action that may be deemed wise . . . to safeguard the peace of nations."

Peace has been threatened by "incidents" in the Mediterranean, Spain declared.

The appeal referred particularly to sinking of the government tanker Campeador, Aug. 18, and death of several of its crew.

There was no doubt, the protest said, that the Campeador was "attacked by Italian warships," and that four of the crew were killed by machine gun bullets fired by two Italian destroyers.

Urges "Condemnation."

It also referred to the sinking of the Conde de Absolo, the Ciudad de Cadiz, and the Armuru.

Italy's action "in attacking Spanish merchant vessels without provocation," the protest continued, "should receive due condemnation in the eyes of the world."

The communication said Spain previously had called attention to dangers to peace from "foreign intervention" in the Spanish civil war.

The protest ended with the assertion that the Spanish government had performed its duty as a member of the league by calling attention of the council to "these facts."

Two Rebel Ships Attacked.

HENDAYE, Franco-Spanish Frontier, Aug. 23.—(AP)—Submarines of unknown nationality attacked two of insurgent Generalissimo Francisco Franco's warships in the Bay of Biscay today. Insurgent officers said neither ship was damaged.

A torpedo launched at the insurgent cruiser Baleares, off Cape Ifach, went wide of its mark. The insurgent auxiliary cruiser Lazaro also narrowly escaped being sunk.

The insurgent cruiser Almirante Cervera captured the Spanish government freighter Isla de Teneriffe off Spain's northern coast and escorted it into insurgent held Bilbao.

RESEARCH IN A CAB

By CALEB

ONE of our good friends was conveyed from his near north side apartment to his work three times by the same taxi driver who, after the first morning, seemed to be awaiting this fare.

Two trips might have been coincidence. Three seemed more like planned intent. Our friend leaned forward and talked to the driver.

"Yes, I planned to pick you up," he said. "I frequently get regular customers by such observing and 'repeating.'"

"What is that?" and the passenger pointed to a long arrangement of cards fastened together and clamped across the width of the cab's dash.

"That's my card index system," said the driver, and he flipped through a few cards, revealing newspaper clippings and written entries thereon.

"What do you have a card file for?"

"Why not? I'm in business, ain't I? Therefore, I want to go where the business is, rather than simply cruise around the streets. I watch the newspapers for notices of parties to be held —or conventions or of important downtown meetings. I fit my work to them.

"In a period of months I find that certain types of parties or events are more profitable for me to go to than others.

"I looked up the addresses of some society editors and I managed to get acquainted with them. I pick them up sometimes mornings and get good suggestions from them."

And the cab driver went on at great length to explain how he was applying (without using the term) "research methods" to increase his income materially.

There is a freshness and reassurance in a society where a cab driver appropriates to his own use some of the most intelligent methods utilized by big businesses.

The research method may be said to resolve into the following:

1. Analyzing a problem into its elements.
2. Arranging these elements in logical sequence.
3. Procuring the data necessary to consider these intelligently.
4. Studying each element in relation to all others.
5. Arriving at a judgment concerning action to be taken.

If any great institution or corporation knows a better way to attack a problem, we have not heard of it.

OLD INDICTMENT RISES TO HAUNT SENATOR GUFFEY

Charges Are Recalled by Radio Attack.

[Continued from first page.]

crandum asking that the case be nol prossed to his subordinates for a report.

Storck read to the committee his report prepared for the attorney general, which stated that Guffey was short $406,011.36 in accrued interest when he turned over his accounts to Francis M. Garvan, the alien property custodian in the Harding administration.

"It appears from the books of Joseph F. Guffey, trustee," said the statement, "that he had on deposit on March 8, 1921, to meet the interest then due and owing, the sum of $406,001.36, whereas, from the analysis of his bank accounts, he had on deposit but the sum of $7,400.15, leaving a difference of shortage of $398,601.21. In order for Guffey to repay the shortage in his accounts it became necessary for him to borrow the funds. On March 8, 1921, a settlement was made by him to Mr. Garvan.

Senator Wheeler, a member of the special committee, asked: "Did you check up any of those amounts that were deposited in any of the banks to find out who the interest went to?"

Operated in 32 Banks.

"Yes, Mr. Guffey operated in 32 banks in connection with these sales," the witness replied.

Senator Wheeler—How much interest was paid? Do you know now much went to the government and how much went to anybody else?

The Witness—Well, I know that this $406,000 was used by Mr. Guffey for his personal use; subsequently it finds its way, after it was called for, into the treasury of the United States.

The witness testified that Guffey, in nearly every instance, "instead of creating a single trust in a bank, mingled the trusts from one bank to another, in all operating in 32 banks. In each of the banks in question Mr. Guffey secured personal loans, putting up as collateral Guffey-Gillespie oil stock or Atlantic, Gulf, and West Indies oil stock."

Proceeds Are Retained.

"Invariably, except in isolated instances," the witness continued, "Mr. Guffey would retain the proceeds of sales for a considerable time; sometimes for months. All this time the funds were earning interest at from 2 to 3 per cent. It would appear that on Feb. 5, 1921, he used $275,000 out of the account of Joseph F. Guffey, special, in the American Trust Company of New York to take up a loan of like amount in the Guaranty Trust Company of New York."

"That is," said Senator Wheeler, "he used some of the trust funds belonging to these alien property funds to pay a personal loan of his own?"

"Exactly," replied the witness.

Used to Obtain Loans.

"He used that money to borrow money to promote the Guffey company," Storck replied. He testified that at the various banks where proceeds from the alien property sales were deposited Guffey obtained personal loans aggregating $2,147,774.80. This money was deposited at 2 or 3 per cent.

"And the banks in turn could loan this money to their call customers and get as high as 12 per cent?" asked Senator Wheeler.

"Yes, sir," said the witness.

"And then they would loan him money on his personal note?"

"Yes, sir."

"Now, Mr. Storck," Wheeler continued, "that report clearly shows the commission of crime, embezzlement and other crimes by this man?"

"It does," the witness replied.

Guffey was in serious financial straits after the change of administration and he was called upon to make good his shortage in accounts. His oil empire collapsed. He was indicted on Dec. 28, 1922, but nothing more was heard of it, except during the senate investigation, until 1930.

In moving to nol pros the indictment in 1930 the district attorney in New York said:

"Our evidence shows that on Feb. 11, 1921, Guffey obtained a personal loan from the Guaranty Trust Company of New York for $275,000. He deposited $328,000 of Liberty bonds as collateral for this loan. These bonds belonged to the alien property custodian and it is said they were taken by mistake from Guffey's box by some one acting for him and that Guffey's representatives should have taken other securities belonging to Guffey and which were in this box. When Guffey discovered this mistake, and before the loan became due, he repaid, Feb. 25, 1921, this personal loan of $275,000."

Mellon Explains Assistance.

During the 1934 senatorial campaign, Gifford Pinchot, then governor, made the charge that Guffey got the money to square his accounts with the government from Mr. Mellon. Mr. Mellon explained that Guffey didn't owe him anything.

What happened, he said, was that Judge Reed, the father of the then Senator David A. Reed, came to his house on a Sunday morning before he left for Washington to become secretary of the treasury on March 4, 1921. Mr. Mellon was told that while Guffey had turned over all his own and his sister's investments, there was not time for them to be liquidated, and cash was needed immediately so Guffey could settle.

"Also," said Mr. Mellon, "Guffey's total assets were not sufficient to raise the sum required without a further guaranty of $150,000, which Judge Reed said he would himself underwrite but felt that he could not afford to risk so large a sum. He asked me if I would join him to the extent of underwriting half this amount of $75,000, which I did. The liquidation of the Guffey securities eventually provided sufficient funds to cover the sum Judge Reed and I had guaranteed, so that I was never called upon to pay any money."

MURDER QUIZ

[Associated Press Wirephoto.]

FRANCES W. FRADA.

Newton, Mass., Aug. 23.—[Special.]—Police today sought a gangster, once arrested in Philadelphia on a murder charge, as the gunman who killed a Newton policeman and seriously wounded his companion when they stopped him for a minor trafic violation Saturday midnight.

Meantime, authorities held Frances W. Frada, 17 years old, in $50,000 bail on a charge of being an accessory before the fact to armed assault with intent to rob. They said the Cambridge, Mass., girl was with the gunman at the time of his attack on the policemen.

It was believed that the fugitive, who is known as a former bootlegger and number pool operator, was shot by one of the policemen in the gun battle. Investigators found a trail of blood leading to railroad tracks toward which the gunman fled.

EXTRA CONGRESS CALL PREDICTED FOR ABOUT NOV. 1

White House Conferences Consider Question.

[Chicago Tribune Press Service.]

Washington, D. C., Aug. 23.—[Special.]—Talk of a special session of congress about the first of November to take up farm legislation and other measures on President Roosevelt's program which the session just closed shelved or rejected was uppermost at a series of White House conferences with congressional callers today.

Representative John E. Miller [D., Ark.], predicted after his White House visit that Mr. Roosevelt would call a special session to consider the crop production control and "ever normal granary" bill, the wages and hours bill, which passed the senate but died in the house rules committee, and the government reorganization bill, which got nowhere.

Representative Miller said it was his "personal opinion" that Mr. Roosevelt would issue a statement "within the next few days" regarding the possibility of an extraordinary session about Nov. 1.

Wallace Favors Session.

Secretary of Agriculture Henry A. Wallace, who conferred with the President regarding the sugar quota bill on which a veto is expected, and other matters, said he favored "a special session of congress this fall to consider a crop surplus control bill."

Wallace also said he told the President he favored cotton loans of 9 cents a pound, instead of 10 cents, as demanded by cotton state representatives in congress. Wallace said no loan figure decision would be announced for several days. President Roosevelt agreed with southern senators and representatives to resume cotton loans with funds of the commodity credit corporation, but no amount was specified.

Senate Majority Leader Alben W. Barkley of Kentucky, who is expected to discuss the possibility of a special session before he sails for Europe in a few days, has told some of his colleagues he expected congress to be called back "in about six weeks."

La Follette Against Delay.

Senator Robert M. La Follette [Radical, Wis.], who is one of the President's closest advisers and is known as the real "White House spokesman" in the senate, said the administration would be "courting disaster" if it delayed the crop production control program until next year.

However, members of the senate agriculture subcommittees said they would hold regional hearings on the new farm program until late in October, indicating that a bill could hardly be ready by the first of November.

Despite all the talk, informed leaders in congress doubt that there will be a special session. President Roosevelt would like one, they declare, because in the regular session beginning in January the members will be clamoring for an early adjournment so they can go home and take care of their political fences for the campaign. But if a special session were called for Nov. 1, the members would be clamoring for an adjournment over the Christmas holidays soon after Dec. 1.

2,000 WAIT AID ON QUAKE TORN ISLE; FEAR SEA WILL SWALLOW IT

MANILA, Aug. 23.—(AP)—Driven to the verge of madness by terrific, devastating earthquakes that convulsed their tiny island three days, the 2,000 residents of Alabat today awaited response to their plea that they be evacuated by the Philippine government.

They still feared the island would be swallowed by the sea.

Arrow points to stricken isle in Philippines.

All shelters were ripped apart and flattened by the earth shocks, army officers reported after a survey of the island, 75 miles off this harbor. Water was reported pouring through large cracks in the earth, opened when the quakes first struck the island.

A corps of government seismologists left Manila to investigate. In Manila and the surrounding area meanwhile the damage from last Friday's earthquake was estimated at more than 1½ million dollars.

ATHLETE'S FOOT ITCHING BETWEEN TOES...RINGWORM
3XB WILL END IT OR YOUR MONEY BACK IN FULL!
Thousands of cases of Athlete's Foot that failed to respond to X-Ray, special costly treatments and germicides have been cleared up quickly with 3XB.
Back of 3XB is a 7-year record of unfailing success. Introduced in 1930, physicians, hospitals and institutions quickly discovered its marvelous effectiveness. They now regard it as the one standard treatment for Athlete's Foot. Athletic directors and trainers, skeptical at first, now use 3XB exclusively. Thousands of sufferers in this city and throughout the country, grateful for quick relief, testify that 3XB worked when all else failed.
A MEDICAL SENSATION
Itching stops instantly. In 7 to 15 days fungus is destroyed—skin becomes normal. This is our positive guarantee.
Physicians, dermatologists, chiropodists throughout the country use and endorse 3XB. Not a germicide—3XB is a specific remedy to penetrate and destroy the fungus of Athlete's Foot. Money back if it fails!
Dr. C. A. Jorgenson, Trainer Pittsburgh Pirates says, "I find 3XB perfect for Athlete's Foot and highly recommend it." R. C. Meiosh writes: "I spent $200 trying to cure my Athlete's Foot. Then 3XB did it with just one application."
Sold by A. G. Spalding & Bros., Walgreen, Liggett's, Whelan, Service, Steinway and other drug and department stores. By Mail, $1. The 3XB Corp., 370 Lexington Ave., New York, N. Y.

Andy Koozer showing us where he does his hatching

This is me just as I was remarking to Andy how I never in my life heard such a peeping and a scratching as goes on in that house where he hatches out his baby chicks. Andy's chuckling and saying so far as he's concerned, he never heard more goings on than in The Wilken Family's bottling room!

Harry E. Wilken

Our Family's Whiskey has more new friends in *Chicago* than Andy Koozer has chicks!

Joking with Andy Koozer the other day, I told him how all those coops full of chicks I see him trucking down to the depot for shipping aren't one two three with the number of cases of Our Family's Whiskey us Wilkens load in a day. Andy says "yes but the only mother all those chicks has got is me personally, but your whole family is turning out the whiskey!"

And Andy Koozer is right at that! Not just me and my brother William Wilken and my brother-in-law Tom, but Pa Wilken and Grandpa Wilken in the bargain—we've been putting all our heart into making fine whiskey the whole of our lives. And this is our own Family's Recipe, and I guess I'm safe in saying it's mighty seldom anybody tries it but what they declare it's the mildest and the tastiest whiskey they ever got a hold of!

Watching a Polo Game

[TRIBUNE Photo.]

Most of Hinsdale is horse-minded these days, with the national outdoor polo championships now being played at the nearby Oak Brook Polo club. A favorite vantage point from which to watch the matches is from a motor at the east end of the field, and Miss Mary Freer, daughter of the Norman B. Freers of Hinsdale, demonstrates the art of perching on a fender.

Peggy Carry to Be Bride Next Winter

BY JUDITH CASS.

AMONG the several engagement announcements of interest this morning is one from Mr. and Mrs. Joseph Charles Carry, who are announcing the engagement of their daughter, Peggy, to Lewis Hudson Durland III., son of Mrs. Lewis H. Durland of Ithaca, N. Y.

Many of Miss Carry's friends met her fiancé last week while he was visiting her and her parents. After their wedding this winter Mr. Durland will take his bride east to make their home in Ithaca, where he is asistant controler of Cornell university.

Miss Carry was introduced to society at a tea at the Woman's Athletic club during her sophomore year at Sweet Briar college. She since has taken post-graduate work at Bryn Mawr, and at Cornell, where she met Mr. Durland, who is a graduate of Cornell.

The bride-to-be has two brothers, Champ Carry and James M. Carry. Mr. and Mrs. Champ Carry [Marion Osborne] and their children live in Mundelein, and the James Carrys [Mary Trigg Waller] and their infant son shortly will move into a new home in Linden avenue, Highland Park.

Donald C. Graves to Wed Eastern Girl.

From Trenton, N. J., Mr. and Mrs. Rea C. Helm have sent word of the engagement of their daughter, Ellen, to Donald C. Graves, son of Mr. and Mrs. B. Clifford Graves of Evanston and Frankfort, Mich.

The attractive young eastern girl is a graduate of Mount Holyoke college, class of 1936, and has been pursuing a business career in Parlin, N. J., during the last months. Mr. Graves, who will take his bride to Milwaukee to live, is a graduate of Cornell university and is a member of Psi Upsilon and Tau Beta Pi fraternities. No date has been set for the wedding.

At their summer home in Windsor, Vt., Mr. and Mrs. Henry Starr Beal of Chicago have announced the engagement of their daughter, Janet, to John Lawrence, son of Mr. and Mrs. Edwin Lawrence of Rutland, Vt.

Miss Beal attended the Latin School for Girls, the Edgewood school in Greenwich, Conn., the University of Chicago, and the Chicago Music college. Mr. Lawrence is a graduate of Phillips Exeter academy and of the Massachusetts Institute of Technology. He is engaged in business in Springfield, Vt.

Mr. and Mrs. Craig B. Ketcham of Kenilworth today are announcing the engagement of their daughter, Betty, to John Noble McConnell, son of Mr. and Mrs. Charles P. McConnell of Evanston.

Pretty Miss Ketcham attended Northwestern university. Her fiancé is a graduate of Purdue university. The wedding will take place this fall, and Mr. McConnell and his bride will live here.

Dunham Woods Horse Show to Be Sept. 12.

Announcements are in the mail for the sixth annual Dunham Woods horse show to be held at the Dunham Woods Riding club Sunday, Sept. 12. The show is being held a week later than usual this year, for as a rule it is a Labor day week-end event, but its popularity has been increasing with the years, and the committee has decided that it should have its own week-end instead of a national holiday event.

There is to be a dinner-dance on the eve of the show for the exhibitors, who will include many of the people living in Wayne, Geneva, St. Charles, and the surrounding countryside, as well as Chicago, Lake Forest, and Winnetka equestrians. To the schedule of classes has been added one sponsored by the Chicago Equestrian association for boys and girls of 12 to 17 years of age, inclusive.

The winner will receive a handsome silver trophy, and he or she and the ribbon winners in this class will be eligible to ride in the same class at the international horse show late in November at the stockyards.

The winner of the grand championship in the stockyards event will be sent east to ride at the big horse show in New York early next year.

Raymond O. Mitchell is chairman of the horse show. His new Wayne

A UNIVERSITY of Chicago professor and his wife had purchased a new living room rug. Their next door neighbors dropped in the evening after it had been laid. Early the next morning the small son of the neighbors appeared and announced he wanted to see the new rug. Pleased at his interest, the professor's wife led him into the living room. The little boy surveyed the rug gravely, walking up and down the borders and across the center as he did so. At last he looked up at his hostess. "Why, this rug doesn't make me sick at my stomach," he said, relief and conviction in his tones.

THIRTY-ONE satiric old English prints, on exhibit at the Art institute, offer a visual outline of caricature and its outgrowth, the cartoon, and in connection with the exhibit the Art institute calls attention to Isabel S. Johnson's explanation of the difference between caricature and cartoon as made in a recent issue of the Public Opinion Quarterly: "Cartooning is not caricature evolved to a higher plane. Rather a division seems to have occurred at some time in the 17th century, and thereafter two simultaneous developments are apparent—**caricature, or the distorted representation of an individual, and cartooning, which is more or less distorted representation of issues, situations, and ideas.**"

Film Star-to-Be Advances a Bit; Photogs Let In

BY GEORGE SHAFFER.

[Chicago Tribune Press Service.]

Hollywood, Cal., Aug. 23.—[Special.]—Producer Sam Goldwyn has at last relaxed sufficiently precautions with which he surrounded his new feminine star, Sigrid Gurie of Norway, to permit her to be photographed for newspaper rotogravure purposes. When Goldwyn brought the Gurie girl here from Europe he barred her from attending any parties, previews, or participating in any of the other mild exploitation activities that generally help a new actress gain a quick "build-up" in public interest.

Goldwyn said Miss Gurie would have no synthetic fame in advance of the showing of her first picture, which will be "Adventures of Marco Polo," with Gary Cooper as the star. Then, if the public accepts her, Goldwyn plans to throw the full force of his limelight emphasizers behind the girl. Reason for the muffler on the new and beautiful foreigner is Goldwyn's fear of overplaying a new actress to the point where the success of one picture would bring such a condition as that in which he finally tore up his contract with Anna Sten, beautiful Russian, in 1935. The impression of this and other observers who have talked with Miss Gurie is that her charm and clear-headedness probably make all of Goldwyn's Goldwynesque precautions about her needless.

To observe Goldwyn's restrictions, as she interpreted them, the fair Norwegian wore dark glasses while going around Hollywood, and she has attended only one preview, on which occasion she was a member of the hoi polloi, standing on a soapbox behind the police lines and exclaiming excitedly when she recognized this and that American leading woman. She hasn't had the chance to meet these sisters socially as yet, but those who've seen some of Miss Gurie's work in "Marco Polo" assert that her name and features won't be forgotten after that picture is "out."

Although the Will Hays office decided not to bar the sequences in which Judy Canova is seen taking a bath in "Artists and Models" and Irene Dunne takes a bath in "High, Wide and Handsome," the same supreme governing council of what is and what is not to be publicly released won't permit the studios to let any "still" pictures of these famous bath scenes be given out to newspapers for reproduction. "Bad publicity" would result, the Hays office fears. Both bath scenes were shot in Paramount pictures. In Miss Canova's bath the Hays office caused a re-shoot of the scene after Judy emerged from her ablutions wearing a pink bathing suit that, in the original sequence, looked like no bathing suit at all. She has to wear a black silk bathing suit in the sequence as finally "passed."

Dorothea Kent, one of the rising young actresses on the Universal lot, is enacting her first dramatic rôle in "Blonde Dynamite" opposite William Gargan. Her rôle is identical with that of Jean Harlow in an earlier film version of the same story when it was produced with Lew Ayres in the leading made rôle as "The Iron Man" in 1930. The part was one of the stepping stones in Miss Harlow's rise to screen fame.

"Blonde Dynamite" is being shot on stage nine at Universal, the same stage on which "The Iron Man" was filmed six years ago. Stage nine, incidentally, is by way of becoming the studio's lucky stage. It was the setting for the recent successes, "Diamond Jim Brady" and "My Man Godfrey" and the stage on which Deanna Durbin's possibilities were realized in the filming of "Three Smart Girls," causing the studio to halt production in the middle of shooting to re-budget the picture and revamp the script so as to exploit the young singer's talents. In the current remake of the story

Set Opera Record

St. Louis, Mo., Aug. 23.—(AP)—A box office report of the St. Louis Outdoor Municipal theater showed today 71,365 persons attended the seven performances last week of Victor Herbert's musical fantasy, "Babes in Toyland," setting a record for the nineteen years of the city's Al Fresco opera. The previous record was 71,032 for Jerome Kern's "Roberta" in 1935.

Noah Beery Jr. is the boxer who fights his way to the top, gets cocky, and slides into quick decline.

Miss Kent, whose real name is Dorothea Schaffer, is 20 years old, a blonde, who was born in St. Joseph, Mo. Her family removed to Hollywood, where she got her first part while still in high school. She had small parts in "shorts" for two years, but was promoted to pictures of major rank this year and has been in "More than a Secretary" with George Brent and "Carnival Queen" with Robert Wilcox. She was tennis singles champion of Chicago city schools for two years.

Billy Anderson says the favorite food eaten by movie greats on their location trips is—you'd never guess it—beans. Anderson owns the catering company which fed Boulder Dam's working forces for years and has quite a reputation over the west for serving hundreds or thousands of persons at inaccessible spots on short notice, and generally to the eaters' entire satisfaction. He says that he has served 800,000 meals to 1,532 movie location units in the last ten years.

"Every American seems to like beans," Anderson continued. "I believe the reason is that they don't get them at home. I've had stars tell me their cooks would get insulted if asked to serve plain, ordinary, baked beans. In our case, it costs us more to bake beans than to serve chicken." Anderson said beans are tied in popularity by only one thing—hot coffee. He added that the success of his business boils down to one principle: "I make no difference between serving movie stars or extras when it is up to me. They eat the same thing or go hungry."

Falling fifteen feet from the mast to deck on the set of "The Buccaneer" at Paramount, Earl Bund, a "pirate," broke his left leg, but was more concerned about the bruises his right leg suffered. The broken left leg was of wood.

Woman Leader Says Farewell to Orchestra

BY CECIL SMITH.

Ebba Sundstrom and the Woman's Symphony orchestra, with the assistance of a male quartet named the Harmony Masters, last night bade farewell to the Grant park band shell for another year. The orchestral part of the program included Massenet's "Phedre" overture, the Chausson symphony, Saint-Saëns' "Spinning Wheel of Omphale," Goldmark's "Sakuntala" overture, the Tschaikowsky "Nutcracker" suite, and Harl McDonald's "Rhumba."

It was unfortunate that Miss Sundstrom, in her last appearance before taking a year's leave, did not focus her attention on a symphony both she and the orchestra can play better than the elusive, fragrant Chausson. I wish she might have given us some dazzling finale that we might the more eagerly await her return at the end of her sabbatical study and contemplation.

Since a miserably timed rainstorm interfered with his appearance at Grant park last Thursday, Morton Manet, 18, Chicago bass-baritone, graciously sang for me again last week-end.

His voice is beyond question one of the most beautiful young voices I have ever heard. While the color is deep and rich, the texture is caressingly smooth. Except for an occasional tendency to let a tone slip back a bit into his throat, he sings with admirable freedom of production.

His singing is alive with temperament, yet guided by unusual musical intuition and taste. To hear him was one of the rarest pleasures I have had in many months. I can only hope and pray that he will work hard and aim straight at the magnificent concert and operatic career he can expect to have if he keeps his head. Not many voices like his are discovered in any single generation.

Two more celebrities have been added to the list of soloists at the remaining Grant park concerts. Ennio Bolognini, at one time first cellist of the Chicago Symphony orchestra, will play tomorrow night with Rico Marcelli's orchestra.

Richard Bonelli, baritone of the Metropolitan and Chicago City opera companies, will sing with the Chicago Symphony orchestra, directed by Hans Lange, on Sept. 1. The appearance Sunday night of Jascha Heifetz, also with Mr. Lange and the Chicago Symphony orchestra, has previously been announced.

Miss Casse Lehmann, Daughter of Otto W., Bride in New York

New York, Aug. 23.—[Special.]—The marriage of Miss Casse Lehmann, daughter of Mrs. Casse Affeld Lehmann of this city and of Otto William Lehmann, Chicago sportsman, to Henry Wilkins Rustin, son of Mrs. William G. Doane of Berkeley, Cal., took place today. The Rev. Frank Murtfeldt preformed the ceremony.

The bride was escorted by her grandfather, Oscar Affeld. Her sister, Mrs. Milton Schubert, was her only attendant. William Aydelotte of Schenectady was the best man.

Mr. and Mrs. Rustin will make their home in New York after a trip to Bermuda.

Plaids Become a Necessity for Fall Wardrobe

BY RHEA SEEGER.

If your hunger for plaids is still active, you'll be delighted to see the current attractions in new suits, dresses, jackets, skirts, blouses and accessories. While the stuff apparently staged just a mild beginning last season, this fall any wardrobe is incomplete without a good large prescription of Scotch.

We found Scotch plaid buttons in the latest button shipment ready for immediate use and if that doesn't prove the plaids will take the town, maybe the dozens of blouses and jaunty short jackets will, or the swaggering short plaited-all-the-way-round skirts, matched to snappy little velveteen jackets made with the edges in the plaid of the skirt. Plaid velvet dresses to be worn under fur coats are other giddy ideas, and plaid velveteen street dresses made with high necklines and long sleeves assure a daytime uniform hard to equal for a fashion wise clothes hound.

Large plaids, not Scotch in ancestry, loom above all the newest wool fabrics. Clear, strong, bold colors make such materials the ideal top attractions for one color wool suits and dresses. If you are hesitant about wearing such blazing splendor on the outside, see the box coats, swaggers and topcoats of such dark colors as forest green, autumn brown, and deep sapphire blue, with plaid wool linings as gaudy contrasts. They're very spectacular and make stunning greatcoats for all fall and winter.

Muffled deep and cozily around the necklines of all the new coats of the topcoat variety are soft wool plaid scarves featuring both the Scotch patterns and the larger plaid combines of eye-blinding color contrast, the last telling whiff of Scotch stimulation needed to make these models high fall fashions.

"Find This Girl"

BY ROY VICKERS [Copyright, 1937, by Roy Vickers.]

SYNOPSIS.

Bessie Mersand, a nurse, is acquitted of the charge of administering a fatal dose of medinal to an elderly patient. Gwynneth Bentley and her lover, Roy Gleason, attended the trial. Later Gwynneth meets Bessie, who has changed her name to Mathews, and, waiving references, gives her a job caring for Gwynneth's invalid husband. She plans to kill her husband and plant the guilt on Bessie. Medinal tablets for Gwynneth's sleeplessness are placed in Bessie's charge. Gwynneth hides a valuable jeweled stagger, then puts the pounded tablets in her husband's food. She then fires Bessie the day off and sends away Bessie's canary to make it appear that Bessie has fled. In London Bessie meets her friend, Jim Watkin. Jim has heard of the crime over the ticker at his club and is torn by doubts of Bessie's innocence. When Bessie boards the train to return to her post, Jim, assured of her innocence, drags her out and tells her what has happened. He hides her in his apartment. Jim calls on Gwynneth and makes her admit Roy Gleason is her lover.

INSTALMENT XIV.

A POSSIBLE MOTIVE.

Gwenneth had been prepared for endless questions as to her own movements, but this utterly unexpected attack on her lover had thrown everything out of focus. "You will please leave the house at once."

The detestable man was grinning at her. The grin widened and presently he was chuckling. For Jim Watkin had discovered at least that this woman had a lover in Gleason—a possible motive for the murder of her husband.

"I'm afraid I've touched a tender spot and hurt your feelings. I hasten to obey your order to get out."

"Before you go——"

"Ah! Before I'm thrown out you want me to put your mind at rest, Mrs. Bentley." He plumped back into his chair. "What's frightening you?"

Gwynneth made one of her lightning changes of tactics, for she saw now that this man had caught her.

"You are frightening me," she said with a very feminine smile. "Need you tell anybody that I am—interested in Mr. Gleason?"

Watkin was delighted. But he was not going to have it all his own way—and no one knew this better than himself.

"I'm not malicious," he answered indifferently.

"Thank you, Mr. Watkin." By the way she said it, he knew there was a punch coming. Swiftly it came.

"And I," she added, "will not tell any one that you are shielding Nurse Matthews."

Danger! Horrible danger for Bessie! They would track her through him unless he could kill that suspicion—convince this smooth, shrewd woman that she had made a bad shot.

"But every one will know that I'm shielding her, as you call it," he said boldly. "This thing has appealed to my romantic instinct."

He laughed. "Maybe I'll marry her if I succeed in getting her off. Has she got a nice voice?"

That was too simple a dodge to deceive Gwynneth.

"You're not going to tell me you've never met her!" she said contemptuously.

Somehow, for Bessie's safety, he must convince this woman.

"Not quite!" he rapped out. "You are going to tell me whether I've ever met her."

In a flash he had seen the one possibility of escape. He took out his pocket case. Inside was a photograph of Bessie, one of those taken at the time of her trial. It was a very bad photograph, but it was the best he could obtain from any of the press photograph agencies. His motive had been wholly sentimental but now he intended to make desperately practical use of it.

He put it on the table.

"Who is that, Mrs. Bentley?"

"Nurse Mathews."

Jim Watkin registered excitement—a feat which he could always perform with the utmost ease.

"Is it!" he rapped out. "Are you utterly sure? Would you sign an affidavit tonight if necessary?"

"I could not possibly be mistaken."

"Then, my dear Mrs. Bentley, I implore you to let me use your telephone."

Wonderingly she gave consent. He picked up the receiver and dialed a number.

"Scotland Yard? . . . Detective Inspector Rason quickly . . . Yes, I know he's home and in bed, but you must switch me through . . . Rason, wake up, pinch yourself till you yell. I've got a juicy plum for you in that Bentley case at Suddington. Ready? . . . I've just shown Mrs. Bentley a photograph of Nurse Mersand—the girl in the Brighton case. Mrs. Bentley positively identifies the photograph as that of Nurse Mathews. . . . Yes, Mrs. Bentley will sign an affidavit, but I don't think we need trouble her, do you? There's no possibility of her wishing to give false informaton."

Rason thanked him and added: "You may like to know we've had the medical report. Bentley did die of an excessive dose of medinal administered in the curry he had for lunch."

While Watkin was apparently absorbed in telephoning Rason, he was watching Gwynneth closely. In those gray-green eyes was the satisfaction of a cat. She had not dared to tell the police she knew the girl was Bessie Mersand. And this much too clever young man had done it for her.

But when he turned, her face wore a realistic expression of horror.

"This is almost more than I can bear!" she groaned. "I met the girl on holiday in Little Pendlesham and she seemed so nice. I took to her and gave her my friendship. And all the time she was a murderer."

"No, she wasn't—she was acquitted—so you've nothing to reproach yourself with. "Though maybe there'll be a few tomorrow who'll say the jury was wrong."

"I shall never shake off the feeling that I am partly responsible," said Gwynneth. "The girl seemed so sweet natured. I simply can't understand it. She must be a homicidal maniac. And you began by telling me you knew she was innocent."

"Now come, Mrs. Bentley, you won't hold that against me," said Watkin penitently. "If I did pull your leg, I've made up for it, haven't I? Own up that I've done more for you than the police."

"Yes, I suppose I must thank you," said Gwynneth sadly. "But I still feel that I like her—I know it's wrong, but I do wish you could prove that after all she's innocent."

"There's nothing'd please me better!" said Watkin enthusiastically. "Every one in the country now will believe that she's guilty. And if I can prove that she's innocent, they'll believe I'm a great man—the public are like that, you know." He shook his head. "But I'm afraid there's too much to get over. The missing dagger—the medinal tablets—and most of all, of course, the fact that she has bolted. I gathered from the police that she rang you up this evening?"

"Yes. And I felt so mean. They made me deceive her by saying the patient was all right. She said she was coming down on the eleven-thirty. Why did she say it, Mr. Watkin? And if she meant it, why didn't she come?"

That was still a puzzle to Gwynneth.

"You've explained it yourself. Homicidal maniac. A homicidal maniac always wants to gloat over the deed."

A glib enough answer. And of the two, only Watkin was quite sure that it was nonsense.

"I still can't bring myself to believe it," protested Gwynneth. She would, she decided, find out from this cocksure young know-all whether there was any danger for herself. "If only you could think of something pointing the other way."

"I don't think there's much hope," said Watkin. "Let me have a look round here in daylight and I'll see if I can help you."

"Certainly!" She gave him her hand. "I didn't like you at first but now I think we shall be friends."

Jim Watkin was ready to believe it. She regarded him as a friend because, she thought, he had put a halter round Bessie's neck.

Perhaps that was just what he had done.

Watkin left the house with two clear gains hard won against a very dangerous woman.

He had learned that Roy Gleason was the object of her love—which made it conceivable that she might desire to kill her husband.

The second substantial gain was that by identifying Bessie Mathews with Bessie Mersand he had won Mrs. Bentley's confidence. Mrs. Bentley believed wholeheartedly that he wished to hound "the nurse" to her doom.

"That woman is devilishly clever. So am I—but I've never murdered anybody yet. Possibly she hasn't either."

Watkin's cocksureness was only skin deep.

WINNIE WINKLE, THE BREADWINNER: The Long and Short of It

Family Loans Often Are Not Quickly Repaid

BY DORIS BLAKE.

[Copyright: 1937: By The Chicago Tribune-N. Y. News Syndicate, Inc.]

A complaint is registered by a young lady today against members of her own family, especially her sisters. She can't understand why it is they feel free to borrow money from her without any thought whatever as to when it will be paid back.

She says she manages to save something out of her weekly stipend, but is beginning to wonder if there's any sense in continuing to do so because her sisters, who spend every cent they make, come to her, knowing of her little bank account, and are quite peeved if she hesitates to lend them the amount they happen to need.

She has suggested to them time and again that inasmuch as they are earning their own money they should be able to make ends meets, and get out of the habit of borrowing, but they only get angry and accuse her of being a tightwad because she doesn't hand over the money at once.

It's an old family custom, unfortunately, that some member or members are made the goats, because of their ability to look to the future and try to provide for it, while others go along in a carefree way, doing everything they want to do, spending all they earn, without thought of the rainy day that is in store for them.

The complaint registered is not an unusual one. They come frequently. But if the one who is imposed upon is wise she will establish a system of lending the money when there is a legitimate reason for it, but on the proviso that it be paid back as quickly as though the money had been borrowed from an outsider.

There is no reason in the world why that same promptness should not be extended to a member of the family, for it is a debt, and debts should be repaid at the earliest possible moment. Too often the repayment of such a loan is put off indefinitly.

Those same sisters who borrow without any thought about quick repayment would be very much concerned were they unable to meet an obligation to an outsider. They would make every effort to repay the loan out of their next salary check, for were they not prompt they would not extended the same courtesy another time when they needed it.

Treat a loan as a loan, and repay it as promptly as possible.

Soviet Paper Attacks Trotzkyist Wreckers in Movie Industry

MOSCOW, Aug. 23.—(AP)—Russia's movie makers were attacked today in Izvestia, official government newspaper, both for the quality and quantity of their work.

As it did earlier this month, most of Izvestia's anger fell on Boris Shumiatsky, head of the industry, who has been blamed for extravagance, misleading reports on production, and mediocre films.

"An obviously counter-revolutionary film, 'Father and Son,'" said an Izvestia article signed "Cinema Worker," "was approved for production by Shumiatsky, who even ranked the film as one of the 15 best pictures of 1936."

The newspaper stressed the film industry's changing production policies—from a "fewer and better pictures" plan in 1933 to an 800 a year schedule after Shumiatsky's return from the United States in 1936. Now, it said, the industry proposes only 156 films in 1942 under the third five-year plan.

The film industry's plan for a Russian Hollywood also drew fire. Izvestia declared it would be a waste because there are inadequate facilities and too few directors to fill the production schedules that such an investment's success would demand.

"Not a few Trotzkyists and grafters, who have inflicted considerable harm to the cinema industry," have had access to workers and studios, Izvestia recently charged.

Marion S. Buckley Weds Laura Jinkins of Virginia

Washington, D. C., Aug. 23.—[Special.]—The marriage of Miss Laura Dean Jinkins, daughter of Edward P. Jinkins of Thrifton Village, Va., across the river from Washington, to Marion Stewart Buckley of Chicago, son of Mrs. Nathaniel G. Buckley of Chicago, took place this evening in Grace Episcopal church in Thrifton Village, the Rev. John Garner, rector, officiating. After their wedding trip Mr. Buckley and his bride will be at home in Chicago.

Maureen O'Sullivan Will Play in English Movie

Hollywood, Cal., Aug. 23.—[Special.]—Using the trip as a belated honeymoon, Maureen O'Sullivan, screen actress, and her husband, John V. Farrow, will sail soon for England where Miss O'Sullivan will take part in a picture based on life at Oxford university. Robert Taylor also will appear in the film. Though Miss O'Sullivan has been married more than a year, previous honeymoon plans have always been upset by picture work.

Sports Carnival to Open 'Know Your Parks' Week

Dr. Philip Fox of the Rosenwald museum, business men and park officials yesterday made arrangements for a sport carnival Sunday at Jackson park which will open the "Know Your Chicago Parks week." Similar programs will be offered in all the parks during the week. The museum, the three park yacht clubs, and the Japanese tea garden on the Wooded Island will be open to the public. There will be sports and handcraft contests.

The best way to frost a cake is to start at the edges, cover the sides, and then pour the remaining frosting in the center of the top, spreading it evenly and quickly out to the sides. This method eliminates unfrosted edges and affords a gauge of thickness.

There seem to be a hundred and one variations of a hundred and one cake frostings, but not many of them can surpass any of these five old standbys, probably the most popular frostings of all. Cooked frostings are more difficult to make than uncooked frostings, of curse, but once the intricacies of boiled frosting, seven minute frosting and fudge frosting have been mastered, there is nothing to fear from any other cooked frosting.

Boiled Frosting.

[Will cover two 9 inch layers.]
1½ cups sugar
⅜ cup boiling water
⅓ teaspoon light corn sirup
2 egg whites, stiffly beaten
¼ teaspoon salt
1 teaspoon vanilla

Combine sugar, water and corn sirup. Place over low heat and stir constantly until sugar is dissolved. Cook without stirring until the sirup threads [238 degrees]. Pour the hot sirup in a thin stream over the egg whites, which have been beaten stiff with the addition of the salt, beating constantly. Add flavoring and continue beating until the frosting is cool and stiff enough to spread upon the cake.

If the sirup has overcooked and the icing threatens to harden too soon, add a few drops of lemon juice or a teaspoon or so of boiling water. If it has been undercooked and fails to thicken, place it over hot water and continue beating until thick.

Seven Minute Frosting.

[Will cover two 9 inch layers.]
2 unbeaten egg whites
1½ cups sugar
5 tablespoons water
1½ teaspoons light corn sirup
1 teaspoon vanilla

Place egg whites, sugar, water, and corn sirup in upper part of double boiler. Beat with rotary beater until thoroughly mixed. Place over rapidly boiling water, beating constantly for 7 minutes, or until the frosting will stand in peaks. Remove from heat, add vanilla, and beat until thick enough to spread.

Fudge Frosting.

[Will cover two layers.]
2 cups white sugar
2 tablespoons cornstarch
2 squares unsweetened chocolate
⅔ cup milk
2 tablespoons butter
½ teaspoon vanilla

Mix sugar and cornstarch and add milk and shaved chocolate. Place over low heat and stir until sugar is dissolved and chocolate is melted. Cook, without stirring, to the soft ball stage [238 degrees]. Add butter and vanilla. Cool to room temperature and beat until creamy.

Cream Cheese Frosting.

[Will cover two layers.]
1 3 ounce package cream cheese
1½ cups sifted confectioner's sugar
1½ tablespoons milk
¼ teaspoon salt
¾ teaspoon vanilla

Mix cheese thoroughly with confectioner's sugar and milk. Add salt and vanilla, and cream until of spreading consistency. More milk may be added if the frosting seems thick.

Plain Butter Frosting.

[Will frost 8 by 8 inch cake.]
¼ cup butter
2 cups sifted confectioner's sugar
1 teaspoon vanilla
3 tablespoons milk or cream

Cream butter until very soft. Add confectioner's sugar gradually, blending well. Add vanilla. Thin with milk, a very little at a time, until the frosting reaches spreading consistency.

Mayor to Attend Brady Wedding Ceremony Today

Mayor Kelly will be among the guests this morning at St. Ambrose church to see the daughter of an old friend, Peter Brady Sr., married to De Wight Halstead, a Los Angeles, Cal., florist. The bride is Miss Rose Marie Brady, whom Halstead courted for twenty years. The bride's brother, Father John Michael Brady, will officiate, assisted by ten priests and Msgr. Foley. After the ceremony at 9 o'clock there will be a wedding breakfast in the Chicago Beach hotel. Miss Brady lives at 1004 East 43d street.

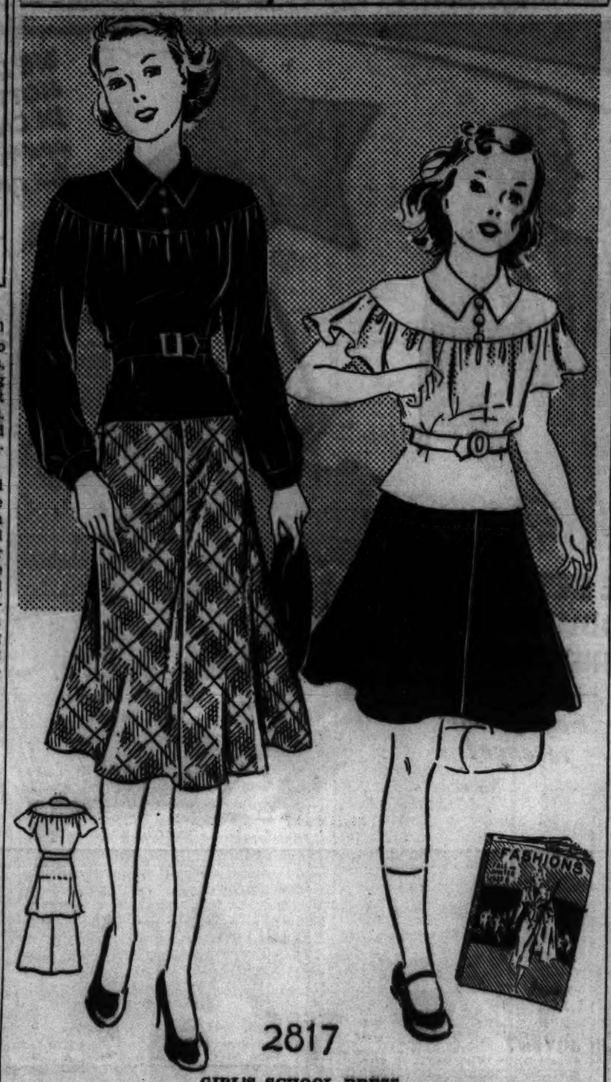
Both Pretty and Practical



GIRL'S SCHOOL DRESS.

The eternal autumn problem is with mothers again: what to make daughter for her school wardrobe. Frocks must be pretty as well as practical, and they must be inexpensive. We think the style presented today is the perfect answer to the problem. It features smart fabric and color contrast. It really is a classic mode. The original of this model is created with the blouse in plain navy blue woolen and the skirt in red Scotch plaid woolen. The soft fulness under the shoulder yoke is flattering and feminine. The styling makes it easy to sew, too, because the sleeves are fitted right into the yoke. If you like, make the blouse in tunic length. The sleeves, instead of being long and gathered into wrist bands, may be short, reaching to just above the elbow.

If you prefer, make the outfit all in one fabric and color. Bright shades are acceptable, of course, and the dress will have a nicely tailored air if fashioned of woolen in a dark shade.

Style No. 2817 is designed for sizes 8, 10, 12, 14 and 16 years. Size 12 requires 1¾ yards of 39 inch material, with 1⅝ yards of 39 inch fabric for the skirt.

Diet Called the Real Secret in Getting Rid of Oily Skin

BY ANTOINETTE DONNELLY.

[Copyright: 1937: By The Chicago Tribune-N. Y. News Syndicate, Inc.]

Oily skin, shiny noses, greasy foreheads, along with the weather that exaggerates these discomforts, are coming in for a lot of "coises" these days.

But hold on! There's nary a blemish of skin, it seems to me, but has its remedial measure. Certainly it's true in face skin conditions unless it is a very bad case of acne, which calls for medical supervision and direction.

I must repeat what I have told a thousand times, mayhap, that in overcoming skin oiliness the treatment begins behind the skin. You have to change your diet. You have to watch it carefully to see that no oily or grease fried foods are set before you. You could perhaps do with less butter and cream for awhile, but don't eliminate these entirely. Just be more sparing in their use, that's all.

Don't eat heavy meats. Put yourself on a good maintenance diet containing lots of vitamin D and you'll see a change in the cours of a month. Whether water is hard to get down or not, drink it. If it would be more appetizing with fruit juice, make yourself up a pitcher of fruit juice [a lemon, two oranges, a grapefruit]. You can sweeten it a bit. But take a two quart pitcher so you'll get lots of water in it.

Maybe you've noticed, as I have, that girls who get out swimming a lot, playing tennis or doing some sort of outdoor exercise aren't troubled much with oily skin. They may work up a healthy sweat on the tennis court—but it is not an excess of oil that is smothering the face. Exercise will do worlds of good in repairing the faulty oil glands that produce the excess secretion.

And then, you olly skinned girls, don't be afraid to take it on the face with scrubbing, soaping, rinsing, and cold ablution. You can scrub your face six times a day if you'll rinse the soap off in clear warm water and splash cold on afterward for all you're worth. Use a skin freshener and tonic frequently during the day.

home is rising just to the north of that of Mrs. Mitchell's parents, Mr. and Mrs. Edwin M. Ashcraft Jr., in which the Mitchells have been living. Charles R. Lindsay III., a member of the horse show committee, also is building a new home in Wayne. He and Mrs. Lindsay expect to move into it in November. John L. Dole, Milton J. Blair, Arthur Farwell, William D. Bangs, Jesse F. Burt, and Mrs. Margaret M. de Martelli are other members of the committee.

Family Classes Are Popular.

Two of the most popular classes in the show are the parent and child, and the family classes. The David and the Edward McDougals and their children; Mr. and Mrs. Ralph Davis and their Scott and Beth, and the Nathan McClures and their Barbara and Douglas, are among the family foursomes who ride together each year.

The Henry Stantons are entering some of their horses, to be ridden by James and Collier Stanton. Henry Stanton Jr. will miss the show for he is on a trip around the world, and is in China now.

The Blairs' sons and daughter are at Edgartown, Mass., for the summer, but probably will be back in time to enter the show. Mr. and Mrs. Dole and their Peter will ride together. The Louis F. Swifts, who have purchased property not far from Wayne, also will be exhibiting horses.

Luncheon Today for Debutante.

Mrs. Frederick F. Friestedt, the former Barbara Shaffer, is giving a luncheon today at the Woman's Athletic club for Miss Patricia Wilson, the Percy Wilsons' debutante daughter, and a number of her fellow debutantes. Miss Wilson is to make her bow at a tea Sept. 11 at her parents' home in Lake Bluff.

Mr. and Mrs. Friestedt and their infant daughter have moved from 1242 Lake Shore drive to Melrose street where they have taken an apartment. Mrs. Friestedt's brother, Dale Shaffer, will return to his studies at Kenyon college late in September.

Mr. and Mrs. Stuyvesant Peabody Jr., the former Virginia Preston, returned last week from their wedding trip, and now are getting settled in an apartment on East Division street.

Mrs. Peabody's sister, Mrs. Harry Nacey Jr., is here for a visit with her parents, the Howard P. Prestons, until the end of the week, when she will return to her home in Tennessee.

James Scott Kemper to Meet Daughter.

The James Scott Kempers arrived at home from abroad last week, and today Mr. Kemper is leaving for Quebec to meet his son-in-law and daughter, Mr. and Mrs. George Whiting Roberts, and to bring Mrs. Roberts back with him to Winnetka.

The former Rosemary Kemper will remain with her parents until she is entirely recovered from the attack of paratyphoid from which she has suffered since shortly after going abroad on her honeymoon early this summer. Then she will rejoin Mr. Roberts in Boston, where they will make their home.

The junior Mr. and Mrs. James Scott Kemper, who have been spending the summer with her parents, the Weymouth Kirklands, at the house they have taken for the summer at the Indian Hill club, will return next month to Cambridge, where Mr. Kemper will be a senior at the Harvard law school.

Qualifying rounds in the women's golf championship at the Knollwood club were held yesterday, and play will continued every day through Friday, when a cup will be awarded the winner. Mrs. Richard H. Fleming is the defending champion, and among those challenging her claim to the title are Mrs. Stanley D. Anderson, Mrs. James O. McKinsey, Mrs. William J. Tilden, Mrs. Russell T. Stern, and Mrs. William E. Macfarlane. Sept. 10 will be the final ladies' day of the season.

Mrs. Frank G. Hall entertained at an Opera luncheon yesterday in her handsome new Georgian home in Wilmette. Luncheon was served in the football room in the basement, which is decorated in purple and gold, Northwestern university's colors, with touches of white.

Assisting their mother were Miss Janice Hall and Mrs. Thomas B. Singleton. Proceeds from the luncheon tickets will furnish a season box at the Chicago City Opera company to be used by New Trier High school students.

Culbertson's "Gold Book of Bidding and Play"

RESPONSES TO ASKING BIDS.

[Copyright: 1937: By Ely Culbertson.]

How the ace or a void of the asked suit is shown: The ace or void of the asked suit is shown by raising the asked suit.

South	North
1 heart	2 spades
3 spades	4 diamonds [asking bid]
5 diamonds [ace or void]	

Spades is the agreed suit; diamonds is the asked suit and the raise by South to five diamonds shows either the diamond ace or void, and denies any outside ace or void.

The object of the raise is to show first round control of the asked suit. The asking bidder keeps in mind the possibility that partner may have a void instead of an ace. In most cases he will know which it is from the texture of his hand. Should the asking bidder hold the ace of the asked suit, he will know that partner raised it with a void and thus be warned of a possible duplication.

"Dear Mr. Culbertson: North and South were vulnerable. North dealt and opened with one heart. East, who had a bad cold and who gets, I think, a keener emotional thrill from a psychic bid than she has had from anything connected with cards since she last played military whist, bid 'wud spade.' South, myself, both victor and villain of the piece, strongly suspecting East's bid, but not my partner's, bid two no trump. West, a charming Christian woman, ordinarily, who becomes a reincarnation of Becky Sharp the minute she sits down to a bridge table, passed with a piteous sigh that purported to disclose her bitter regret at holding worthless cards in crisis.

"North, partly because he was born that way and partly because he remembered that he'd forgotten to bring in the lawn chairs, bid three no trump. West, at this point, took off her mask and, with a very ungenteel leer, doubled.

"Rightly disregarding her partner's bid, West opened the two of diamonds. By playing East for a complete bust, a blank in hearts, and six or seven spades to the jack, I made three no trump. I think I am right in saying that North and South can make three no trump on the hands against any defense.

"Yours truly,
"C. B., Montpelier, Vt."

My correspondent's sprightly comments need no elaboration. It must have been quite a shock to Becky Sharp [reincarnated] for the opponents to have romped home with their three no trump contract against her comparative powerhouse and her partner's spade bid. On the face of it, West has at least five taking tricks, but the trouble was that she could not get rid of the lead often enough to cash them. The moral, if any, is that psychic overcalls, such as East's, rarely come to a good end.

TODAY'S QUESTION.

Question: Please advise the correct call for South at point indicated below. The bidding was:

North	East	South	West
1 heart	Pass	1 no trump	Pass
2 no trump	Pass		

South's hand: ♠ K 5 2 ♥ Q 8 5 ♦ J 6 3 ♣ 10 4 2.

Answer: South should bid three no trump.

JO-JOTTE POINTER.

In ruffing, use a high trump unless you are sure that you will be able to win tricks with all your high trumps later. If you have 9-8 trumps and a suit is led which you must trump, use the nine. Otherwise it may fall on the jack of trumps later and you will have lost fifteen points. The same is true with the ace or ten of trumps. If you can ruff with an intermediate trump and retain a guard for your high trump, the situation is different. With 9-Q-8 of trumps, you may ruff with the queen, for you count five points for the queen and your nine is still guarded.

BY NANCY CABOT.

Here is an applique block which is ethereal in appearance, as the natural flower and as the name itself implies. The dainty applique block is not difficult to make, and may be easily attempted by the beginning quilt makers. A simple pink and white printed material, set together with green for the leaves and a spot of gold in the center of the flower forms a nice effect. The alternate plain blocks are quilted in outline of the applique blocks, with a cable cord quilting in the seven and one-half inch border. Only fifteen applique and fifteen plain blocks are required for a coverlet which measures 90 by 105 inches when completed.

Give Children the Freedom of Their Home

BY GLADYS HUNTINGTON BEVANS

[Copyright: 1937: By The Chicago Tribune-N. Y. News Syndicate, Inc.]

The letters that come in from readers, which back up with their own experience the advice in one of these columns, have, I feel, a certain value to other parents. If you happen to be wavering a little or are unconvinced, the positive statement of some other mother that "I know this works because I have been successful with it in my own family" will often carry a great deal of weight. The following letter is one of that sort:

"Dear Mrs. Bevans: I had to write you our experience with our two children after reading your article in today's paper.

"We had two children in high school at the same time and as we lived about fifteen blocks from the school the children had to report home as soon as school was out, that was one thing we were strict about.

"However, they always came home with a crowd of boys and girls, pushed the rugs back, put on the phonograph, and danced, played the piano, sang, and had a good time in general. Saturdays they were there most of the day eating weenies, and so forth, for lunch, and maybe to a movie in the afternoon and back after that for perhaps a dance or so.

"Nobody ever enjoyed their children more than we did and we felt while they were making a noise and having their fun at home we knew where they were.

"After a siege of typhoid, when my son was still convalescing, my husband used to play cards with the boys, poker, rummy, or anything they wanted to play. And as far as I know none of them turned out to be gamblers.

"Here's for more freedom in the home. I'm sure parents will enjoy it if they will only loosen up."

I really think one of the biggest things in dealing with boys and girls in their teens is for them to know that you enjoy having them around, that you are not irritated by their noise, their nonsense, their friends, and the relative chaos created by all their play and sociability.

There are a great many parents who go pretty much through their children's lives with the inner conviction that the home belongs to the adults, and that the children must not infringe too much upon their quiet or convenience. I do think that quite often mothers and fathers don't realize they have gotten into this attitude; but certainly I do hear many complaints, sometimes from the children themselves [and sometimes from the mother about the father], that their home is not made an easy, warm, friendly, and hospitable place.

At times I think the underlying reason for success or failure with adolescent children lies in the simple fact of whether or not you really enjoy your children.

If you enjoy your children and find them of increasing interest to you and want them to get all the fun possible at home, you are not going to have so many problems, certainly not serious ones. And you are not going to find them wanting to spend all their time anywhere but in their own houses.

An article on the adolescents will appear tomorrow.

For those parents who need help in understanding their teen age children we have a booklet called "Understanding the Adolescent." It will be sent out on receipt of a 3 cent stamped, self-addressed envelope. Address Mrs. Bevans, The Chicago Tribune, Chicago, Ill.

Shag Revived at Meeting of Dance Teachers

BY DORIS LOCKERMAN.

The shag is here again. The dancing masters brought it yesterday when they gathered at the Hotel Sherman to open the sixth annual convention of the Chicago association. It's a dance, you know.

The shag is a smooth, young dance, but the dancing teachers, 400 of them, mostly middle aged, chose their partners Sunday night at their opening ball, and kept up with its fast rhythm in fine style. And yesterday they were still practicing.

Clad informally in shorts and ruffled rehersal costumes, partners were held at arms length, shoulders firm, hips snapping swiftly. Feet were close to the floor, shuffling, knees slightly bent. Three steps forward they moved, then a catchy, hold step, in four-four time. Again—and this time they opened up to "conversation" position, dancing side by side.

"We're almost doing the rhumba," explained Pearl Allen, who instructs dancing at Culver Military institute and has been president of the Dancing Masters for three years. "But, you see, it's not in rhumba time."

The dancing teachers don't confine their talents to the shag, even in its 1928 version. There is the big apple that had its beginning in South Carolina when a Negro church was converted into a night club. In the big apple the dancers form a circle and Charleston to the right, by twos, arms linked. Then they face center and the leader chooses the first performer. "You!" he challenges—and you come out trucking, or doing the Suzy Q, or snake hips. The Suzy Q is a heel and toe dance, and snake hips is just what it sounds like.

Then there is the universal sway, a simple, graceful dance that involves swinging from side to side with the step. It is recommended, Mr. Allen suggests, for older people who have mastered the tango, the rhumba, and now want something new.

LEAGUE FAVORS BRITISH PLAN TO CARVE PALESTINE

Jewish, Arab Homelands Viewed as Feasible.

GENEVA, Aug. 23.—(AP)— Great Britain's proposal to create sovereign homelands for Jews and Arabs in Palestine was approved as a "test" policy today by the league of nations mandates commission.

A political apprenticeship with the two states either united under a single mandate [Britain] or under separate mandates was suggested.

The plan for the Holy Land, center of three great religions and cauldron of age old racial hatreds, would give the two states "a wide measure of internal autonomy and full power to regulate immigration" at the same time uniting them under the mandatory power [Britain] in matters of defense and foreign affairs, the official communique said.

Policy Praised and Criticised.

Otherwise, the states might function under separate mandates which would continue "until such time as each had given proof of its ability to govern itself. The proper moment for granting self-government would not necessarily be the same for both states."

The mandates commission both praised and criticized the British policy in Palestine.

It said that Britain had tried for 20 years to appease antagonistic feelings in Palestine. The commission asked the Jews, who, it said, "all too often and without justification show impatience at delay on the part of the mandatory power, to ask themselves whether there is any other nation by which they had been so little persecuted."

Remind Arabs of Obligation.

Referring to the Arabs, the commission asked them to "remember the origin of their national emancipation," and added that "without British efforts certainly there would have been no Jewish national 'home,' but also there would have been no independent Arab state on the threshold of the twentieth century."

The commission blamed the British lack of firmness and a "certain fluctuation in policy which tended to encourage belief on the part of Arabs that violence could stop Jewish immigration."

Withdrawal of the holy places from the domination of Jews and Arabs was held to be an advantageous step toward general peace. However, an Arab-Jewish reconciliation was declared vital.

The mandates commission has been investigating the British plan for partitioning Palestine for several weeks. Consent of the league and the United States to the plan is necessary.

MOTHER TO HAVE A FISH STORY TO TELL ROOSEVELT

INNSBRUCK, Austria, Aug. 23.—(AP)—Mrs. Sara Delano Roosevelt, the American President's mother, will have an authentic fish story to tell her fisherman son when she returns to the United States from her European trip.

While motoring near here today Mrs. Roosevelt was persuaded to try her luck in the Haldensee. A two and one-half pound pickerel grabbed her lure and while her Austrian companions cheered she landed it unaided.

"He jumped from the water once," Mrs. Roosevelt related, "and seemed to give me a challenging look."

Mrs. Roosevelt ended her Austrian vacation and started by automobile for a resort at Lucerne, Switzerland.

ESTATE RECORDS YIELD 2 MILLION IN UNPAID TAXES

Hidden Wealth Swells Annual Revenue.

Examination of estate records in the Probate court yields more than $2,000,000 annually in hitherto unpaid taxes on personal property, County Assessor John S. Clark disclosed yesterday.

Mr. Clark told of the success of his office in finding this hidden taxable wealth in commenting on the same campaign just undertaken by Lake county tax officials. At Waukegan an examination of estates of wealthy persons disclosed that many paid no personalty taxes for from one to five years before death, while others paid only nominal assessments.

Checks Probate Proceedings.

For several years Assessor Clark has kept a close check of proceedings in the Probate court, employing 25 men to examine records of all new, pending, or closed estates. State's Attorney Thomas J. Courtney also keeps an assistant there to aid the hunt for taxable property, and Judge John F. O'Connell lends coöperation.

Under the judge's orders, no estate can be closed until all personal property taxes have been paid. Recently the records of 15,000 pending estates were made available to Assessor Clark's men.

Mr. Clark said his office does not wait for a copy of the inventory of the estate's assets. As soon as the will is filed, the assessor gets an estimate of the amount of personal property involved through the size of the administrator's bond, which the court sets at double the value of the personal property.

Discrepancy Gives Key.

"In most cases," said Mr. Clark, "we find a discrepancy between the value of the property revealed in court proceedings and that listed on the personal property tax schedule. We then compute how much is owed the county and collect it through the coöperation of Judge O'Connell and the state's attorney."

Even after an estate has been closed, additional taxes may be assessed heirs in succeeding years. Unless heirs show that the personal property distributed to them has been disposed of, the assessor continues to levy against it, he said.

Although records do not show exactly how much the county has realized in this procedure, Chief Deputy Assessor Edward McCabe estimated that approximately $2,000,000 is brought in annually by an examination of all estates.

14 PEASANTS DIE IN POLISH RIOTS; POLITICIANS HELD

WARSAW, Aug. 23.—(AP)—Fourteen peasants were killed in what appeared to be political demonstrations and clashes with police today—ten at Kasinka, near Bochnia, three at Rembow, and one at Dubienko.

Authorities arrested 50 Peasant party leaders, although the party had appealed to peasants to refrain from violence. Forty-seven have died in fighting since peasants began a strike on Aug. 16 in protest against continued banishment of the Peasant party leader, Vincent Witos.

Increasing bitterness the last few days led police to evacuate 3,000 inhabitants from the Galician village, Charta, where large quantities of arms and ammunition were found cached in houses. Ten thousand peasants, driven from villages in the region, are camping in forests and fields near Glazowa.

Lake Winds Cool Chicago; Ease Hay Fever Sneezes

Fresh lake winds not only afforded pleasant weather yesterday, but made the day more endurable for hay fever victims. Based on a four hour forenoon computation, the count of ragweed pollen was 72 grains to a cubic yard, according to O. C. Durham, botanist of the Abbott Laboratories, North Chicago. Other recent counts were: Thursday, 205; Friday, 48; Saturday, 27, and Sunday, 181. The largest count ever recorded here was 1,000 on Sept. 4, 1934.

CHICAGO GOLFER SHARES U. S. AMATEUR LEAD

ALL-STAR COACHES MAP PLAN TO HALT PACKERS

HERBER-HUTSON PASSING TEAM IS CHIEF WORRY

Defense Outlined by Bernie Moore.

BY WILFRID SMITH.

The all-American football squad yesterday huddled secretly in preparation for the Green Bay Packers, whom they meet a week from tomorrow night at Soldiers' field. Defense was the topic of discussion by the coaching staf, and their defensive plans were gone over later on the practice gridiron.

Bernie Moore.

Your guess as to what those defensive plans are, and how they will be executed, is as good as the probable guesses of Coach Curley Lambeau and his Packers. The entire procedure yesterday was enveloped in a censorship as effective as any ever ordered by a dictator to baffle opponents.

Defense Is the Thing.

"For several days," Head Coach Gus Dorais said just before he greeted his squad in the lecture room yesterday afternoon at Dyche stadium, "we will work out our ideas of how we can stop the Packers' attack. There is nothing more to say. But these workouts must be secret. While it may be impossible to keep all spectators from the field, they will be kept far enough away so that the details of our defensive plans cannot become known.

"If we have trouble in this respect, we will take the squad to some other field. For if the Packers find out our plans there is no chance for us to stop the Green Bay attack. The passing combination of Arnie Herber to Don Hutson, or Paul Miller, if the newspaper reports are correct, is so efficient that should Coach Lambeau know how we hope to guard against those passes we might just as well concede victory to them.

They'll Polish Attack, Too.

"However, there will be practice periods when defense will not be the most important lesson," Dorais continued, as he outlined the plans for drills this week. "Don't take it for granted that our offense is complete. The scrimmage Sunday only proved that more work must be done. The line was not charging as well as we had hoped. Our own passes were fairly effective, but the Packers will know how to cover receivers better than our own boys do. This week, when not working on our defensive plans, the attack will be smoothed out. Instead of the general objective of teaching an attack, the individual units of that attack will be emphasized.

"The specialists also will have time to brush up on their work. For these drills the coaches will be assigned to specific duties instead of following the scrimmages in a group."

Dorais was evasive in his discussion of his plans. And the other coaches, now that the game is scarely more than a week away, were equally noncommittal. This is known, however: Bernie Moore, whose coaching experience at Louisiana State university has brought him up against some of the wide open offense in which the south and southwest specializes, has mapped out his ideas of how the Packers' passes can be stopped.

Moore Sketches a Plan.

Moore yesterday diagrammed a defense for the all-Americans. Elmer Layden of Notre Dame and Jimmy Phelan of Washington pooled their ideas to work out other plans. Lynn Waldorf, whose Northwestern teams have been outstanding examples of successful defensive elevens, had a

C.Y.O. CHAMPIONS, SOUTH AMERICAN FIGHTERS PAIRED

Kenneally Meets Merediz in Heavyweight Bout.

Pairings for the international amateur show featuring boxers representing South America and the Catholic Youth organization at Soldiers' field tomorrow were released yesterday.

Sixteen bouts will be held — two each in the flyweight, bantamweight, featherweight, and light heavyweight classes, three in the lightweight and welterweight divisions, and one each in the middleweight and heavyweight divisions. Injuries suffered by Francisco Costanzo, middleweight, and Bernardo Mortimer Devicenzi, heavyweight, of the South American squad, caused their removal from the card.

Kenneally Meets Merediz.

Carlos Merediz of Argentina will be South America's representative in the heavyweight ranks and José Martorell, also from Argentina, will fight in the middleweight class. Tom Kenneally, former C. Y. O. champion, the team captain, will oppose Merediz and Cornelius Young, current C. Y. O. titleholder, is paired with Martorell.

At a meeting of representatives of the C. Y. O., the A. A. U. and South America rules for the contests were agreed upon.

The American system of two judges and a referee will be used instead of the international, which provides for three judges and a referee.

Each Bout at Three Rounds.

Eight ounce gloves will be used. The bouts will be three rounds at two minutes. The officials include:

REFEREES—George Blake, Davey Miller, Tommy Gilmore, Tommy Thomas, Johnny Behr, Frank (Spike) McAdams, Joe McNamara, Norman McGarity, and Walter Brightmore.

JUDGES—William A. Battye, William O'Connell, Dr. C. R. Christoph, Lieut. R. A. Goudie, Dr. E. Allen Frankel, Edward Hintz, Harry Hall, Carl Witt, John Bray, E. L. Cook, Frank Jackson, James McManus, Livingston Osborne, and Rube Metz.

TIMERS—J. J. Lipp, Harry J. Normoyle, Charles Sidebotham, and William Finn.

The C. Y. O. team arrived from its training base at Lockport, Ill., yesterday and registered at the Palmer house at about the time its opponents engaged in their last sparring drills at C. Y. O. center. The Chicago lads ended their training yesterday. Pairings:

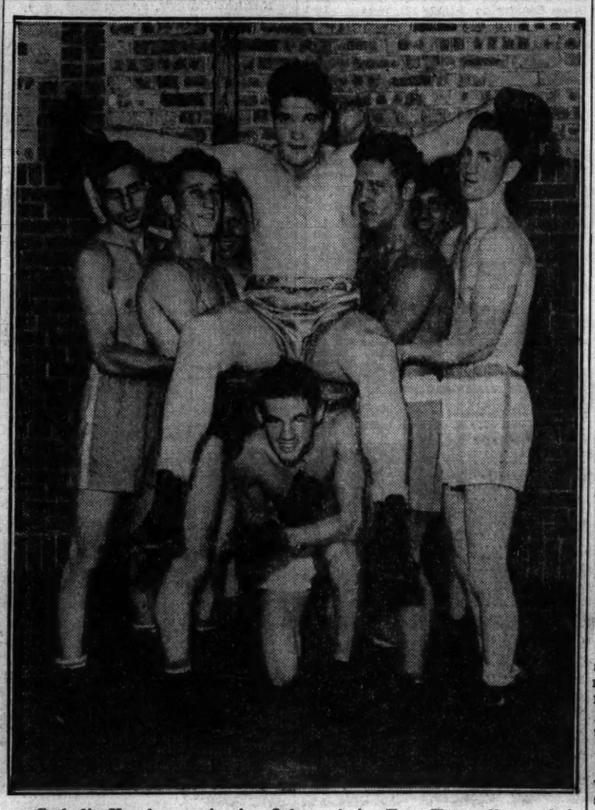
CONGRATULATIONS, CAPTAIN



Catholic Youth organization fighters hoist Tom Kenneally to their shoulders by way of congratulating him on his election as captain of the C. Y. O. team that will meet the South American champions tomorrow night at Soldiers' field.

In the Wake of the News

BY ARCH WARD.

THE C. Y. O. fighters, who tomorrow night meet the champions of South America at Soldiers' field, carry a heavier responsibility than perhaps even they themselves realize. . . . Chicago never has been defeated in international amateur boxing competition. . . . Our Golden Gloves teams have whipped France, Ireland, Poland, and Italy and fought a draw with Germany and an all-European squad. . . . Officials of the Amateur Athletic union who saw the Argentines and other South American entrants in the Olympic games are predicting dire results for Chicago's standard bearers tomorrow night, but this department isn't alarmed. . . . Those C. Y. O. boys can take care of themselves. . . . Four or five of them were outstanding in Chicago Golden Gloves, and a fellow who can come to the front there will hold his own anywhere. . . . Those who patronize the show not only will enjoy a series of thrilling bouts, but they will be aiding one of the finest organizations that has come into the sports field. . . . Chicago needs movements like the C. Y. O. and they succeed only with your coöperation. . . .

Jim Stewart, athletic director at Southern Methodist, who has been attending the All-Star football workouts at Northwestern, will bring the S. M. U. eleven north twice in 1938. . . . The Mustangs play Marquette at Soldiers' field and Pittsburgh at Pittsburgh. . . . The following season they will play Notre Dame at South Bend. . . . Once upon a time a Davis cup player received $18 a day to cover all expenses, but after several returned from trips and immediately purchased automobiles the practice was stopped. . . . The Browns have another Hornsby, no relation to Rogers, on the way. . . . He's a catcher for Palestine in the East Texas league, a Browns' farm club. . . . Bill Tilden once said: "If Billy Johnston had my physique I never would have defeated him." . . . Trainer Dave Woodward does not allow the Green Bay Packers to drink water during practice or a game. . . . He quenches their thirst by sprinkling their mouths with ice water out of an old garden spray. . . .

A Helpful Hint.

I woke up this morning and the radio was playing "It Looks Like Rain." So fortunately I took my umbrella. —Harold Perlberg.

BERWYN LEGION WINS, 17 TO 3, AND REACHES FINALS

Lynn, Mass., Aug. 23.—[Special.]—Berwyn, Ill., post advanced to the championship game of the northeastern section in the Junior American league baseball tournament by defeating Pulaski post 357 of South Bend, Ind., 17 to 3, today.

Kenny Polinka, Berwyn southpaw, allowed only two hits, and struck out 18. South Bend's only serious threat developed in the fifth when Rzepinick singled to score Hanyzewski and Ratajczak.

Johnny Drish led Berwyn's 17 hit attack on two South Bend pitchers. Berwyn scored nine times on five hits and six errors in the eighth.

Berwyn meets Lynn [Mass.] post 291 for the sectional title tomorrow. Score:

Berwyn	300	011	390	17	17	3
South Bend	010	020	000	3	2	9

Batteries: Polinka and Lech; Hanyzewski, Talboom, and Ratajczak.

IT'S A SNAP!

LEE TO PITCH AS CUBS AND GIANTS BATTLE TODAY

New York Team May Use Carl Hubbell.

BY IRVING VAUGHAN.

[Chicago Tribune Press Service.]

New York, Aug. 23.—For a pennant contender there is no tonic like a double victory in one afternoon. The first place Cubs gulped down that variety of stimulant yesterday at Cincinnati and arrived here this noon filled with new ideas of what they are going to do with their world series money. Of course, Bill Terry's Giants still have something to say about who is going to capture the post-season loot, but the Cubs expect to take care of that feature tomorrow and the day following at the Polo Grounds.

Hold Edge Over Giants.

Now that the Cubs have regained a comfortable lead it is again permissible to speak of them as probable foes of the murderous American league Yankees in the fall series. But the Giants' hopes shouldn't be taken lightly. Just about a year ago at this time, after coming from nowhere, they went into first place to stay. After a team has pulled that sort of trick once it has confidence to believe the stunt can be repeated. And under pressure Terry can get work from his men.

The Cubs thus far have a big season's edge over their closest pursuers and if the ratio can be maintained until they complete their 22 scheduled games the Chicagoans won't be headed off. The Cubs have taken 11 of 17 decisions from the New Yorkers, leaving 5 more to play. But five of these victories were in the last six games when the Giants' infield was a joke combination all because Dick Bartell was absent from short. Bartell was injured again the other day but the medicine men of the Giants' training quarters will have him ready for tomorrow.

Lee to Pitch.

If the Giants, who were rained out Sunday and again today at Philadelphia, are to be pushed back to five games tomorrow the job will have to be done by Bill Lee. Whether the big fellow is exactly primed for a nine inning effort is questionable. After a two week lay off due to a side injury he started at Cincinnati last Saturday but was knocked out in the fifth inning when his endurance apparently gave out. He'll probably be opposed by Carl Hubbell whom the Cubs have thumped twice in a row.

There is no reason to be concerned about the few cripples now on the Cubs' linament squad. The absentees are First Baseman Rip Collins, who is recovering from a cracked ankle, and Joe Marty, who had to abandon centerfielding when he wrenched a knee at Cincinnati.

ANGOTT REPEATS TRIUMPH OVER CHRISTY FOR NO. 18

Sammy Angott, Louisville, Ky., lightweight, made it two in a row over Jimmy Christy in a ten round fight at Marigold Gardens last night. It was Angott's eighteenth successive triumph.

Christy, who weighed 132 pounds to his opponent's 132½, made a fight of it all the way. His marksmanship at long range was excellent, but Angott was more proficient at infighting.

Carl Vinciquerra, last year's Chicago Golden Gloves champion, stopped Jack Wright, whose right name is Fred Douglas, in the first round of the five round semi-final.

Alex Kettles recorded his first triumph in four appearances when he scored a two round technical knockout over Fred Dyberg. Frankie Agnes made his professional debut by registering an upset victory over Andy Scrivani in four rounds. Pat Schoenberger knocked out Don White in the first round.

No Schmeling Battle Until June—Jacobs

New York, Aug. 23.—(AP)—Steps to steam up a lagging interest in the heavyweight title match between Joe Louis and Tommy Farr of England at the Yankee stadium were taken by Promoter Mike Jacobs today. He announced there will not be a meeting this year between Max Schmeling and Thursday night's winner in Chicago or any other place. Schmeling had hoped to sign for such a bout either in late September or early October.

The Jacobs announcement said two of the principal factors in calling off negotiations were the lateness of the season and the desire of Louis, who has been in almost constant training this year, for a long rest.

In other circles it was said the promoter feels with no prospect of a Schmeling fight before next June, the apathetic fans will stop saving their money to see the German in action against Farr or Louis and turn out to see the latter gladiators Thursday night.

Julian Black, one of Louis' managers, said the Brown Bomber would sail on Sept. 5 for a month's vacation in London and Paris.

Before Jacobs' announcement, the oft repeated reports that Louis would fight Schmeling in Chicago this fall again were being circulated.

Nevertheless, Joe Triner, chairman of the Illinois Boxing commission, will leave this morning for New York to confer with Jacobs. He hopes to change the promoter's mind and induce him to present Schmeling against the Louis-Farr winner in Chicago in October.

Farr All Set to Put Away Title Money

BY FRENCH LANE.

[Chicago Tribune Press Service.]

Long Branch, N. J., Aug. 23.—Tommy Farr, the prize fight champion of the British empire, is happily making plans here today of what he is going to do with the world's title after he has taken it away from Joe Louis on Thursday night.

It is raining here anyway, a cold wind is blowing in off the Atlantic, and Tommy has plenty of time to go into details.

"After I defeat Louis," says Tommy, "I want to go on an exhibition tour of the United States for a few months, return home to Wales to spend Christmas with my sisters and brothers, and come back here in the spring to complete the tour.

Plans One Defense.

"I'll defend the championship just once and then I'll quit."

Tommy catches himself here on the verge of dictating his farewell speech upon his retirement from the heavyweight throne.

"If Joe Louis wants a return match with me I'll give it to him," he says. "He was good enough to give me a chance. Why shouldn't I do the same for him? But Frankly I don't think he will want any more of me."

Tommy diverges here slightly. "Please tell everybody that I'm going to win the championship by fair, clean methods. Assure them I'm not going to use any 'barroom' tactics on Joe Louis. I'm going to ask your people to pay to see me while I'm on this exhibition tour."

Likes to Talk Finances.

And Tommy is off on his favorite subject, that of finances and where they are eventually going to lead him. He explains that already he has invested his earnings from the prize ring wisely enough to assure him of an income of $45 a week for the remainder of his life.

"I'll add what I earn as world's champion in one year to that investment and there will be at least $100 coming to me each week. I'll get along pretty well in Wales on that sum."

Why are you so certain you can whip Louis? Tommy is asked.

He has an answer.

"The hungry fighter is the dan-

YANKS COME TO TOWN FOR TWO GAMES WITH SOX

Whitehead Pitches Today Against Ruffing.

BY EDWARD BURNS.

The Yankees are in town for their last 1937 visit. Their last visit to Comiskey park, we mean, of course. They will be back to spend the second October week-end, but then the locale will be Wrigley field, which has nothing to do with the matter at hand.

The world champs will not linger long this time. They will play the Sox this afternoon and tomorrow afternoon, after which they will rumble on to St. Louis to pick on the poor Brownies. This afternoon Johnny Whitehead will pitch for the Sox and Charley Ruffing will pitch for the Yanks.

Collins to Scout Yanks.

Whitehead will have to be much better than he was in his two starts against the Detroit Tigers last week, but if he is as good as he was when he beat the Yankees here just a month ago or as good as he was when he almost beat the Yanks before 67,000 in New York three weeks ago, then the Sox should win and cut the Yank lead over them to 13 games. When the Yanks were here a month ago the Sox won three out of four to cut the New York lead to five games.

The Yanks will be scouted by Rip Collins of the Cubs, who hobbled into town yesterday. Rip knows something about homers and world series games, too, and doubtless will take copious notes if he can be pulled away from the forest of microphones. Microphones tantalize Rip something terrible if he isn't talking in same, but the Cubs forgot to scout the Yanks in 1932 and remember what happened.

How About Those Homers.

Among the things that Rip can report to the architects and builders currently charged with making a bandbox of the never spacious Wrigley field is that the elimination of the outfield will make little difference in the matter of Yankee homers.

In their last eight games with the Sox, four at Comiskey park and four at new Yankee Stadium, the Yanks knocked 11 homers here and 9 homers in New York. Nineteen of these homers would have been homers at Wrigley field even were the fences set back to the middle of Waveland and Sheffield avenues. Only one, by DiMaggio into the left field boxes, was a grunter. So if the Cubs, by eliminating the outfield, have brought the stands in to a point where they can drop baseballs into them with frequency, the advantage will be all theirs.

It is almost a certainty that any homers the New Yorkers knock will hit the houses across the street from the park.

RAIN HALTS U. S. TENNIS; GERMANS PRACTICE INSIDE

Brookline, Mass., Aug. 23.—(AP)—Rain today washed out the start of the national tennis doubles tournament, but the delay until tomorrow was welcomed by at least one major contender, the German Baron Gottfried von Cramm, who arrived this afternoon from Europe.

Von Cramm, generally ranked as the second greatest amateur in the world, and his doubles partner, Heinrich Henkel, are the first German tennis players to play in the United States since the world war.

Beaten twice this year by Donald Budge and Gene Mako, who will defend their American title, the Germans hope to reverse the Davis cup and Wimbledon results at the Longwood Cricket club.

The Germans, who disembarked in New York early this morning and sped here on the first train, rested only an hour before dashing off to the Longwood club for some practice indoors with American tennis balls.

DOERING TIES WITH STRAFACI AT SUB-PAR 71

64 Qualifiers to Be Decided Today.

Portland, Ore., Aug. 23.—(AP)—Arthur Doering Jr. of Chicago and Frank Strafaci of Brooklyn sloshed through a downpour of rain today to lead a field of 171 starters in the first half of the 36 hole qualifying test for the national amateur golf championship. Each scored 71, one under par, over the Alderwood course.

Frank Strafaci.

Doering, 21 year old Stanford university student, cracked out a one over par 38 for the first nine and charged home with a 33. Strafaci, national public links titleholder in 1935, combined a 37 with a 34.

Finishing even with par 72 were Eddie Hogan of Portland, Ore.; Ray Billows of Poughkeepsie, N. Y.; Harry Givan of Seattle, member of the 1936 Walker cup team; Robert Babbish of Rochester, Mich., and Roger Kelly of Los Angeles.

Weather Handicaps Players.

At the end of tomorrow's 18 hole round the low 64 scorers will go into match play.

The sodden course, slow on the fairways and sloppy on the greens, confused the players who mastered it so easily in the pre-tournament workouts. They were unable to judge shots and the short hitters were handicapped further by tee shots that plunked down with barely a roll.

While Doering and Strafaci were setting the pace, most of the established stars soared to scores far above their customary game.

Defending Champion Johnny Fischer of Cincinnati put together a 38—38—76, which was matched by Eddie Held of Denver, former public links and trans-Mississippi champion; Freddie Haas Jr. of New Orleans, and Don Schumacher of Dallas. Haas, national intercollegiate champion, had a 39—37. So did Held. Schumacher, present trans-Mississippi titleholder, shot two 38s.

Goodman Scores 77.

Johnny Goodman of Omaha, who blasted his way to the 1933 national open championship and teed off as this tournament's favorite, ended up with a 36—41—77. His six over par second nine included a seven on the 510 yard par five 15th. He reached the rough on his drive, shanked his third, and three-putted.

Ross Somerville of London, Ont., winner of the national amateur in 1932, turned in a 39—38—77. Former Champion Chick Evans of Chicago scored a 74.

The best first nine card, a 34, was turned in by Melvin Harbert, Battle Creek boy, who won the Michigan open recently with 268. Harbert dropped a 50 yard approach for an eagle 3 on the 502 yard first hole. He finished in the 73 class along with Billy Bob Coffey of Fort Worth, Tex., and Jim McHale of Los Angeles.

Leslie Leal of Everett, Wash., blazed home with a three under par 32 after taking a 42 on the first nine. It was the lowest for the incoming stretch.

Scores follow:

Frank Strafaci, Brooklyn, N. Y.	37	34	71
Arthur L. Doering Jr., Chicago	38	33	71
Roger Kelly, Los Angeles, Cal.	38	34	72
Ray Billows, Poughkeepsie, N. Y.	37	35	72
Harry L. Givan, Seattle	38	34	72
Robert Babbish, Rochester, Mich.	37	35	72

INJURIES COMPEL PACKERS TO GIVE UP SCRIMMAGING

Eight Members of Squad Are Hurt.

BY GEORGE STRICKLER.
[Chicago Tribune Press Service.]

Green Bay, Wis., Aug. 23.—Preparations for the All-Star game in Chicago next week were interrupted today and a new conditioning program hastily outlined when eight of the 29 Green Bay Packers in training reported with injuries received or aggravated in yesterday's scrimmage.

Chief casualties were Joe Laws, quarter back, and Tiny Engebretsen, guard, who were unable to take an active part in today's drill. Laws suffered a recurrence of a foot injury received in the Bear game on the coast last winter and a charley horse. Engebretsen's shoulder was severely bruised in yesterday's one hour workout.

No More Scrimmage.

Loss of these men and the partial incapacitation of six others leaves the squad only one able bodied eleven. Sc Coach Curley Lambeau has decided to eliminate scrimmage as a part of the preparation for next week's contest. Lambeau cannot risk more injuries.

None of the cripples is believed to be injured seriously enough to prevent his playing in Chicago. Inability of so many men to take an active part in daily drills, however, may result in key positions having to be manned part of the time Sept. 1 by men who have been unable to prepare properly for the most important game on their schedule. This applies particularly to Laws and Engebretsen and one or two of the new men, who, because the squad consists of only 29 players, must be considered important factors in the Packers' attack.

Laws Is a Sparkplug.

Laws is a sparkplug. He is one of the better quarter backs of the league and an exceptionally good ball carrier. In addition he is an accurate left handed passer, around whom many of the Packers' more productive aerial maneuvers are built. He is a veteran of all-star competition, having been the star of the first game.

Engebretsen, the former Northwestern star, will start at guard if he is able. His power and speed are highly important to the Packers' running attack and, having finished fourth among the league's place kickers last year, he is an important scoring medium. Place kicking may play a decisive part in the game. The Packers can be expected to go for three points instead of punting every time they are stopped anywhere beyond midfield, with Engebretsen, Clark Hinkle, Ernie Smith and Lyle Sturgeon, the North Dakota State rookie, doing the kicking.

Handicap May Be Serious.

While the ban on scrimmage was the only course open to Lambeau, his decision gave rise to the question of whether a team with only two sessions of this work can cope with an opponent as numerically strong and highly keyed as the All-American team.

To take the place of scrimmage Lambeau is planning live tackling and blocking, man against man drills for the linemen, and an occasional session on the bucking machine. His experiment will be watched closely and hopefully by fellow National league coaches.

All-Star Staf Maps Plan to Halt Packers

[Continued from first sports page.]

chance to give his opinions. The coaching group is so intent on the immediate problem that the men practiced yesterday morning privately for two hours.

Against their own plays the first and second elevens of the all-Americans have been uniformly successful. But whether these boys will use a six man line, backed by a 3 to 2 secondary, or whether they will use the 6-2-2-1 combination, because of the long distance kicking of Clark Hinkle, is not known. The coaches insist on secrecy. They drop their voices when any one even suggests the possible advantages or disadvantages of playing a man to man or a zone defense.

The all-Americans expect passes any place on the field. And they are prepared to throw passes at any time. Joe Riley, in the last scrimmage, called for a forward pass on his own 1 yard line. It gained ten yards.

That's the kind of a game this battle between the university stars of 1936 and the professional champions will be, wide open and thrilling. Sammy Baugh and Ray Buivid are ready to match the Packers' best passers. The size of the score depends largely on whether receivers can hang onto the ball.

They'll Scrimmage Tomorrow.

The all-American squad is pointing for scrimmage tomorrow. This quite likely will be the final body contact drill of the training period. It will be a full length game and the order of substitutions and the effectiveness of the substitutes will determine the action of the coaches at Soldiers' field.

The starting lineup elected by 5,000,000 fans seems satisfactory. Bud Wilkinson, however, is running a close race with Vernon Huffman for the quarter back position. Bobby LaRue of Pittsburgh, chosen in the starting lineup by the fans, is a right half back. He will play this position after the kick off. John Drake of Purdue probably is the best right half on the squad.

Sam Francis of Nebraska, a splendid full back, is being given a terrific fight for the position by Ed Jankowski of Wisconsin.

After tomorrow's scrimmage, the squad probably will hold only one drill a day on the gridiron. A chalk talk each afternoon will take the place of the physical drill.

MARIE JEAN on the inside throughout and never in great distance pack, was under restraint after reaching up approaching the turn, failed to withstand SAINTE D'ESPOIR as the latter moved down after reaching the stretch and, rallied to win with decisive termination and getting to the front in the last sixteenth, came away in the closing strides. SAINTE D'ESPOIR, raced very wide and under light restraint early, reached the front with a rush in the stretch but weakened in the last eighth.

MAJOR GREENOCK, closing too early, stumbled slightly when being eased back approaching the turn, responded strongly when placed to pressure in the stretch, where he secured room on the inside and, after wearing down KENDAL GREEN, drew away fast. Latter, raced close to the early pace under restraint, went out badly on the stretch turn, raced wide thereafter and, weakened in the late stages.

FOURTH RACE—Seven-eighths of a mile, out of chute. Purse $1,000. Net value to winner, $700; second, $200; third, $75; fourth, $25.

ODDESA GIRL, under light urging early and saving ground the final three-eighths, gradually shook off MONON LAD and, while closing gamely under vigorous riding, but had little left. MONON LAD, on the outside throughout and taken back slightly before reaching the turn, responded when called upon, could not get up and gave way slowly in the late stages.

ODDESA LADY, away fast and only lightly hustled in taking the early pace, drew clear fast as CROSS KEYS began to falter in the final eighth and, holding on well, withstood the bid of DARRY'S DREAM. Latter was in close quarters early, came out in the stretch and closed resolutely in a good effort.

MUSCLE IN, rated under steady restraint for a half mile and only mildly urged when increasing his advantage on the third turn, was given a short breathing spell entering the stretch and, holding on courageously, withstood REDRESS' rush. The latter, badly outrun early and kept on the inside until the final quarter, closed boldly and was getting to the winner.

SEVENTH RACE—One and one-sixteenth miles. Three year olds and up. Claiming. Purse $800. Net value to winner, $600; second, $125; third, $50; fourth, $25.

SILVER FLEET improved her position gradually, came to the outside in the stretch and, closing with determination under good riding, wore down PARAWICK, and was ready to draw out. The latter, under steady restraint for three-quarters, went in resolute fashion when placed to strong urging and, wearing down FESTOON, held on well, but was not good enough.

EIGHTH RACE—One and one-sixteenth miles. Three year olds and up. Claiming. Purse $800. Net value to winner, $600; second, $125; third, $50; fourth, $25.

BOMBASTIC, improved, began to move up before reaching the final half mile, came around the leaders without need of strong urging and swerved over slightly while drawing out. WATONGA, rated under snug restraint for three-quarters, held on well in the drive. WILLIAM V. rushed into command and inclined to bear out, was in hand for three-quarters and held on well to the last eighth before beginning to falter.

Parlay Players Cheer; Oddesa Horses Score

Oddesa Girl and Oddesa Lady made it a field day for the parlay players at Lincoln Fields yesterday afternoon. Oddesa Girl was a top heavy favorite and won. Oddesa Lady was an outsider and won. The combination put across a double not only for the stable but also for Trainer C. Hyde Smith and Jocky Jimmy McCoy.

The Detroit owned fillies captured the featured Southmoor and Marquette Park purses, respectively, at the Crete course. Oddesa Girl, a 3 year old, paid only $4.20, but when the juvenile Oddesa Lady came home first the payoff was $23.60. Among others she defeated three eligibles for the Joliet handicap, to be run on Saturday, including Cross Keys, winner of the Dearborn handicap two weeks ago.

Oddesa Girl's Second Victory.

Oddesa Girl was tardy about getting around to winning a race this year, scoring for the first time only last week. She made it two straight yesterday in her first effort at seven furlongs. Never before had she been asked to go so far, but the slow track proved to her liking, and she led all the way.

It was the outsider Monon Lad which furnished the only opposition for Oddesa Girl. He forced the pace most of the way and not until the stretch was reached was the favorite able to draw out. At the finish she led by a length and a half with Monon Lad still second and Black Sleeve third. Behind them came Cross S. and Bulldozer. The seven furlongs were run in 1:27 1-5 over a slow track.

Racing Strip Dries Out.

By the fifth race the racing strip had dried out enough to be termed good, for Oddesa Lady turned in a sparkling performance of 1:06 2-5 for the five and one half furlongs to beat a fine band of juveniles. Oddesa Lady was not as high in the public favor as her stablemate. Cross Keys was at 3 to 5, but Oddesa Lady led her every step of the way.

Cross Keys pressed Oddesa Lady most of the distance, but when the test came, Cross Keys dropped back and the Detroit filly pulled out to a wide lead. Although Darky's Dream came up with a rush on the outside in the final eighth, he was unable to catch the leader, landing second money, a length back of the winner. Knee Deep, well up most of the way, was third.

MOON MULLINS—GETTING IN ON THE GROUND FLOOR

Mrs. Hill's 75 Leads Western Women's Golf

St. Paul, Minn., Aug. 23.—(AP)—Mrs. Opal Hill of Kansas City today shot a 75 for a new women's competitive course record at the Town and Country club to win the medalist trophy in the 37th annual women's western golf tournament.

For more than a decade one of the nation's foremost women shooters, and a veteran in international competition, Mrs. Hill paced a strong field in the 18 hole qualifying test which opened the tournament today. She played several times on Curtis cup teams against England and holds several former women's western titles.

Mrs. Hill slipped over par only once on the first nine and equalled regulation figures on all other holes to collect a 38. An eagle three on the tenth and a birdie on the 16th enabled her to come in with a 37, two under par. Coming in she went over par only once when she needed a six on the par five twelfth.

Eighteen hole qualifying scores:

ONE WAY TRIP?

JOHN MONTAGUE.
[TRIBUNE Photo.]

For seven years he had been John Montague, golf instructor to Hollywood's stars and mystery man of the Pacific coast. Yesterday, as he changed trains in Chicago, he merely was LaVerne Moore, heading east in the company of two police officers to stand trial in Essex county, New York, on a seven year old charge of having participated in a roadhouse holdup.

One of his three companions in the crime was slain while attempting to escape and the two others were captured a short time later. Montague, or Moore, refused to talk to reporters but posed willingly for photographs.

Several Hollywood notables, including Bing Crosby, his favorite golf partner, and Oliver Hardy, have been quoted as saying they would intercede in Montague's behalf with Gov. Lehman of New York.

HOUSTON POLO TEAM DEFEATS CAVALRY, 13 TO 4

Stolarik Wins C.D.G.A. Caddy Title

BY CHARLES BARTLETT.

Sixteen year old Mike Stolarik, who totes clubs for many a member of Lake Forest's Old Elm club, yesterday took himself a day off to play a game of golf and thereby won the twenty-fourth annual caddy championship of the Chicago District Golf association at the Beverly Country club.

While Michael was batting out a 97 hole card of 79—40—119 to take the individual title, the Park Ridge foursome, which won the team championship two years ago, came back to capture it again, this time with an eighteen hole aggregate of 337. The winning team was composed of Steve Blatnak, 49—39—81; Ed Gerlinger, 42—42—84; Cliff Hagedorn, 41—42—83, and Dick Behnke, 46—43—89.

Lincolnshire Is Second.

They finished sixteen strokes in front of the Lincolnshire quartet, whose 353 was accounted for by Ted Pryzcz, 44—40—84; Frank Kendrick, 46—42—88; Stanley Dominick, 46—43—89, and Ed Burtusiewicz, 46—46—92. Westward Ho took third place with 359. Beverly, which won the crown last year after a playoff with Brookwood, needed 367 shots yesterday, while Brookwood took a 381.

The individual title was decided with an extra battle over the last nine holes among the eight low scorers for the eighteen holes of the team play. Stolarik, who led the scorers for the first two nines with a 79, added a 40 in the extra innings for his 119. Walter Mauter of Brookwood, a member of last year's runner-up team, took second place with 83—41—124.

Here Are Other Scores.

Other scorers in the individual race included Steve Blatnak, Park Ridge, 81—44—125; Arthur Mazzocco, Idlewild, 82—43—125; George Kraft, Glen View, 82—44—126; Douglas Fisher, Edgewood Valley, 82—46—128; Edwin Grabec, Hinsdale, 83—46—129, and Cliff Hagedorn, Park Ridge, 83—50—133.

The final team standings follow:

Crisis International.

The question disturbing the world today,
Down to the very last man,
Is: "Did or didn't the Roosevelt boy
Bash the mayor of Cannes?"

Was it John and his friend or two other guys,
Who in a playful moment,
Bespattered the mayor with the juice so rare
Of the grape in a state of foment?

The war in the Balkans will have to wait,
Mussolini, relax your pan.
There'll be no more shots on the newsreel lots
Till we've solaced the mayor of Cannes.

So let's get busy and settle this crux,
Was it John or some other man,
Who grabbed those flowers in the carnival hours
And swatted the mayor of Cannes?

ILLINOIS ENTRY KEEPS CHAMPION TRAPSHOOT TITLE

Vandalia, O., Aug. 23.—(AP)—Hale C. Jones of Wood River, Ill., broke 325 targets without a miss from the 16 yard line today to retain his champion of champions title in competition with 31 other state champions in the 38th Grand American trapshoot.

Jones, 30 year old automobile salesman, broke 200 in a row to tie for the class AA title, and then cracked aonther 100 to tie with three other state titleholders in the champion of champions race.

Farr All Set to Put Away Title Money

[Continued from first sports page.]

serous fighter. Louis is no longer hungry. His ambition is realized. I think he has already hit his peak and is now going down the other side of the hill. He has all the money he ever will need. He isn't hungry anymore. But me, I'm still hungry. I want that championship and I want the money and everything that goes with it, but money is the big thing."

Tommy doesn't flinch when asked why nearly everybody thinks he is such a terrible fighter.

"I'm not a gymnasium fighter," he explained. [There have been reports which no one has been able to verify, that Farr has done more boxing with his two British sparring partners in a woodshed behind his cottage than he has publicly in his training ring.]

Farr Is Encouraged.

Tommy takes a little pride in the fact that Dumb Dan Morgan and Abe Attell give him better than an even chance to win.

"Your Abe says I'm a tricky fighter," Tommy points out.

Dumb Dan, we point out to Tommy, is not being very consistent these days.

"You'll win in a punch," Dumb Dan remarked to Louis at the Louis camp. And on Broadway he said, "Farr will be knocked out in the tenth round."

Farr shrugs his shoulders and says, "He's such a nice fellow is your Dumb Dan."

At this stage old Job Churchill, discoverer of Farr in the mines at Tonypandy, Wales, hobbles in on his wooden leg and breaks up the interview.

Boxing Drill Forbidden.

Despite the chill air that was sweeping in from the Atlantic, Farr wanted to stage a boxing drill in the sheltered ring beneath the grandstand at the dog race track where he is training.

"No you don't" said Old Job. He ordered the champion of the British empire back to his cottage and when they arrived there Job ordered a fire started in the grate.

LOUIS DOES GYM WORK.

Pompton Lakes, N. J., Aug. 23.—(AP)—Joe Louis went through a brisk gymnasium drill today to make up for the road work he missed because of this morning's heavy rain. It was his first variation in the routine that called for six miles on the road and no other work on the days he was not scheduled to box.

FREE ICE STILL NEEDED THOUGH AUTUMN'S NEAR

Appeals Made in Behalf of Young and Old.

BY DORIS LOCKERMAN.

Urgent appeals for assistance continued to come into the headquarters of THE TRIBUNE'S Free Ice fund yesterday, for while temperatures recently have been moderate, ice is still needed for cooling babies' milk. Then, too, neighbors and friends have requested aid for aged persons whose diet is limited and whose foods must be kept fresh and cool.

Contributions totaling $40, received during the day from TRIBUNE readers, will provide ice enough to cool milk or preserve vegetables for more than 30 families for a week. The list of contributions follows:

A. K.	$ 1.00
C. M. L.	5.00
Joseph H. Oberfelder	5.00
Herbert M. Oberfelder	5.00
Walter S. Oberfelder	5.00
S.	1.00

Donations to either fund should be sent to the Chicago Tribune Charities, Inc., Tribune Square, Chicago. Each will be gratefully acknowledged.

HOLD FUNERAL TOMORROW FOR FRANK JOHNSON

Funeral services will be held at 2 p. m. tomorrow for Frank H. Johnson, 946 Castlewood terrace, steel salesman, who died yesterday of pneumonia at St. Luke's hospital. Mr. Johnson was 58 years old. Services will be held at the home and burial will be at Graceland cemetery.

Mr. Johnson entered the steel business with the Illinois Steel company. He became vice president of the West Leechburg Steel company at Pittsburgh, and later had his own sales office in Chicago. At the time of his death he was associated with the Chicago office of the Great Lakes Steel company of Detroit.

He is survived by his widow, Mrs. Lillian Reebie Johnson, a daughter of W. C. Reebie, furniture storage warehouse owner, and by a son, George R. Johnson.

Rev. Carl J. Bjork Dies; Retired Swedish Pastor

The Rev. Carl John Bjork, 73 years old, a retired minister of the Swedish Mission Covenant church, died yesterday in Sherman hospital in Elgin. The Rev. Mr. Bjork had held three pastorates in Chicago and others at Lily Lake, in Kane county and at Smoland, Kas., before his retirement in 1923. His home was at 525 Dundee avenue, Elgin. He is survived by the widow and three daughters.

Mrs. Elizabeth McGrath, Wire Official's Wife, Dies

Mrs. Elizabeth Newbre McGrath, 219 Lake Shore drive, wife of Maurice K. McGrath, vice president and general manager of the Postal Telegraph Cable company, died yesterday in Chicago Memorial hospital of a cerebral hemorrhage. She was 58 years old. FLYING DUCHESS WILLS CASH TO 2 WHO AIDED HER

LONDON, Aug. 23.—(AP)—Two Englishmen who befriended the duchess of Bedford, Britain's "flying duchess," when she was forced down in an Iraq oil field nine years ago, today received bequests of $10,000 each in her will. The 71 year old duchess took off on a flight from Woburn last March 22 and no trace of her has been found despite an intensive aerial search.

The duchess left an estate of about $1,778,996. One of the beneficiaries, Robert Parkyn, who is now in England, said he was "quite amazed" that his hospitality was remembered. The duchess and her co-pilot were guests of Parkyn and N. Gass, both employés of the Anglo-Persian Oil company, for ten weeks when they were forced down in the desert on a flight to India. Gass got the other $10,000. The duchess made numerous bequests to friends and institutions.

DR. J. L. MILLER'S WILL PROBATED; ESTATE $300,000

Dr. Joseph L. Miller, professor of medicine at the University of Chicago, left an estate valued at $300,000, it was disclosed yesterday when his will was filed for probate. The widow, Mrs. Mary Post Miller, 5315 Greenwood avenue, is to receive the income from the estate, which will be placed in trust with the Northern Trust company. On her death the principal is to be divided among three children, a son, Joseph L. Jr., and two daughters, Mrs. Dorothy Beall and Mrs. Martha Phelps. Dr. Miller died while vacationing at Augusta, Mont., Aug. 6. He was 69 years old.

Chicagoan Recovering from Mystery Wounds

Alex Rossie, 22 years old, who staggered into the Clinic hospital at Michigan City, Ind., Sunday, shot in the lungs and jaw, was conceded a good chance of recovery there yesterday. He said he lived at 2721 Ogden avenue, Chicago, but refused to tell how he was wounded. He will be turned over to Indiana state police and the La Porte county sherif for investigation.

W. F. Clarke, Once Editor of St. Nicholas, Dies at 83

Castine, Me., Aug. 23.—(AP)—William Fayal Clarke, 83, of Scarsdale, N. Y., former editor in chief of St. Nicholas magazine, died at his summer home of heart disease.

News of Radio

BY LARRY WOLTERS.

A double barreled announcement on television was made by the Columbia network over the week end. The chain is establishing a complete television unit in the Grand Central Terminal building in New York to operate in conjunction with its newly established television transmitter in the Chrysler building; George Seldes has been weaned away from his dramatic and journalistic endeavors to direct these experimental broadcasts, starting Sept. 1.

Construction of studios in the Grand Central station is to begin in early fall. The central studio, 225 feet in length, 60 feet in width, and 40 feet from floor to ceiling, is to be located directly above the Grand Central waiting room. It will contain dressing rooms, rehersal rooms, carpentry shop, and a laboratory. Provision also has been made for the cutting, editing, and scanning of motion picture films.

The project is designed to promote the first full-scale working model in this country of a complete television unit operating under typical conditions of actual daily production. The mode of operation outlined by Seldes is to make as many experiments as possible in order to make as many errors as possible in advance as a means of establishing television on the same standard of entertainment value as other mature arts.

Meanwhile, NBC is continuing its television tests through studios in the RCA building and transmitter atop the Empire State building. The Don Lee network of California, associated with Mutual, is carrying on a daily schedule of broadcasts in Los Angeles. Other experimental work is being done by the Philco Radio and Television company in and about Philadelphia.

Wendell Hall, who came here to sing at the Chicagoland Music Festival, did his portion of his regular CBS show from local studios Sunday evening. Yesterday he and his son, Wendell Jr., celebrated their birthdays, which happened to fall the same day. He will return to New York later this week.

Smiling Ed McConnell is back in town to reherse for his new NBC series starting next Sunday at 4:30 p. m. Other talent on the show includes Robert Trendler, who will be musical director; the Dorings, Four Grenadiers, Campus Choir, Rhythmaires, and Glee club.

Fred Warings' crew reassembled here yesterday after a brief vacation to begin rehersals for their appearance at the Drake on W-G-N-Mutual starting Friday and to view a preview of their recently completed Warner Brothers picture "Varsity Show," which is opening here shortly.

A group of shoe manufacturers are said to be contemplating a radio series featuring the "Big Apple" type of dancing, trucking, and other such sole wearing steps. Among the musicians considered for it are said to be Tommy Dorsey's and Bob Crosby's bands and the Raymond Scott quintet.

U. S. TO BORROW BILLION MORE, INCREASE DEBT

September Finance Plans Announced.

Washington, D. C., Aug. 23.—[Special.]—The government's September borrowings will total about $1,000,000,000, Wayne C. Taylor, assistant secretary of the treasury, announced tonight. Plans for the financing were disclosed as the public debt reached a new record level above $37,000,000,000.

Wayne C. Taylor.

Taylor said that $817,000,000 of the total money to be borrowed next month will be used for refinancing a note issue maturing Sept. 15. He did not disclose the terms of the interest rate of the securities to be offered in exchange for the notes. He said that in addition to the refinancing, a total of $150,000,000 will be obtained through a series of three weekly discount bill offerings.

Treasury to Increase Cash.

Proceeds of the issues which represent the only new money of the operation, will go to augment the treasury's cash balance, which now stands at approximately $1,000,000,000. The treasury has repeatedly indicated its desire of maintaining its cash balance around that figure.

If the three bill issues are not sufficient to meet the treasury's cash needs, a new series of bills may be issued against March 15, 1938, income tax collections. The bills now planned will be issued against Dec. 15, 1937, collections.

Taylor was asked why the treasury abandoned its usual policy of borrowing new cash on Sept. 15 in order to sell the weekly bill issues. He replied that this was considered "desirable." Government bond prices have encountered several sinking spells in recent trading.

Debt Above 37 Billions.

Exact figures were not available today on the increase in the public debt, pending compilation of the day's records, but treasury officials said the sale of $50,000,000 discount bills lifted the gross debt above $37,000,000,000. This figure compared with $33,401,000,000 a year ago, $16,185,000,000 in 1930, and $26,596,000,000 at the war peak in 1919. The present per capita debt is about $285, compared with $257 a year ago.

The federal debt has been making a succession of new high marks this year, due partly to the week-to-week borrowing to finance gold acquisitions.

The treasury has spent $326,000,000 more than it has taken in since the start of its fiscal year July 1. This compared with a deficit of $260,000,000 in the corresponding period last year and an estimated $400,000,000 excess of expenditures for the current fiscal year, which ends June 30, 1938. The big deficit so far this year has been caused in part by the decline in repayments to federal lending agencies.

KNOXVILLE VOTES TO BUILD A UNIT FOR TVA POWER

Knoxville, Tenn., Aug. 23.—[Special.]—The city council voted unanimously today to go ahead with construction of the first unit of a municipal power system to use TVA electricity. TVA Director David E. Lilienthal in a letter to city officials recently, asked what the city intended to do and his letter spurred the council to action.

The council decided to call for bids for the North Knoxville unit. Plans will be turned over to TVA officials, then submitted to PWA for approval. Four weeks will be allowed for bids.

The report said that the estimated cost of the North Knoxville unit will be $209,062.

Several Big Firms Report Lower Profit

The Louisville Gas and Electric company, the Pet Milk company, the Goebel Brewing company, and a number of other companies yesterday reported lower earnings for 1937 periods than in the corresponding periods a year ago. Several other concerns also reported lower earnings in recent months, although total earnings so far in 1937 were still well ahead of total earnings for the corresponding period in 1936.

Union Tank Car company and Crown Zellerbach corporation announced substantial improvement in profit.

Louisville Gas and Electric, a unit in the Standard Gas and Electric company system, reported for the 12 months ended June 30, 1937, net income of $1,527,848, equivalent to $1.69 a share on the combined class A and class B common stock. In the preceding 12 months, net income was $1,690,799 or $1.87 on the combined common shares.

Flood Causes Revenue Loss.

The smaller earnings reflect loss in revenue due to th flood at Louisville, Ky., in January and February, the company said. Permission has been obtained from the public service commission of Kentucky to amortize the cost of the flood damage over a five year period beginning this year.

The Pet Milk company reported for the quarter ended June 30, 1937, net profit of $255,515, or 57 cents a common share, far below the $529,898, or $1.17 a share, earned in the corresponding 1936 period, but an improvement over the loss of $36,509 registered in the first quarter of 1937. Profit in the first half of this year totaled $219,006, or 49 cents a common share, compared with $529,898, or $1.17 a share, in the first half of 1936.

Higher Costs Cut Profit.

William T. Nardin, vice president and general manager, said the lower profit for the June quarter, this year, as compared with the same period in 1936 was due to higher costs, chiefly higher prices paid to farmers for fresh milk and higher labor costs. The selling prices of the company's products, he said, were the same during the 1937 period as a year before.

Goebel Brewing company in the June quarter this year earned $189,645, or 14 cents a share on 1,359,040 common shares, against $320,580, or 24 cents, on 1,323,680 common shares, in the 1936 June quarter. Profit for six months ended June 30, 1937, was $317,168, or 23 cents a common share, compared with $430,146, or 32 cents a share, in the corresponding 1936 period.

Derby Oil Earns More.

The Derby Oil company reported profit of $385,379, or $1.30 a common share, in the seven months ended July 31. In the corresponding period last year, profit was $173,783, or 49 cents a share. July profit, however, declined to $41,171 from $42,538 in July, 1936. The lower profit in July, Derby officials explained, was due to closing down of all wells in some of the newer pools in Kansas pending readjustment of potentials and allowables.

The General Gas and Electric corporation reported a balance after all charges except preferred dividends of $1,686,778 in the 12 months ended June 30. This compared with a balance of $390,225 in the preceding 12 months.

Kansas Utility Does Better.

The Kansas City Power and Light company earned $4,637,497, equal to $8.38 a common share after income tax, in the 12 months ended June 30, 1937. This compared with $4,182,423, or $7.51 a common share, in the preceding 12 months. June net income, however, declined $322,845, or 58 cents a common share, from $341,858, or 61 cents a share, in June, 1936.

The Eagle-Picher Lead company reported profit for the six months ended June 30, 1937, of $745,954, or 81 cents a common share, against $338,520, or 36 cents a share, in the corresponding 1936 period. A charge of $171,447 was made directly against profit and loss for "normal inventory" adjustment in the first half of last year, whereas no such charge was made this year, due to a change in bookkeeping methods. The company produces lead and zinc ores in the southwest and manufactures finished metal products.

Union Tank Car Earnings.

The Union Tank Car company earned $975,206, or 72 cents a common share, in the six months ended June 30, 1937, compared with $821,706, or 68 cents a share, in the corresponding 1936 period.

The Crown Zellerbach corporation said that profit for three months ended July 31, 1937, was $2,507,711, or 81 cents a common share, on the basis of present capitalization. This compares with profit of $1,290,304, or 27 cents a share, in the corresponding 1936 period. Sales for the period this year improved to $14,172,051 from

PONDER INVESTMENT OF CITY MONEY; BANKS END PAYING INTEREST

What Chicago will do with money deposited in downtown banks upon which interest payments ceased last night rests upon action to be taken by the city council, the controler's office said yesterday. Under the regulations of the Federal Deposit Insurance corporation, member banks of the system are not permitted to pay interest on demand deposits of states, municipalities, and other public agencies. Congress had exempted these groups from this provision until midnight, Aug. 23, and it failed to take action extending the deadline.

The controler's office had thought the city council passed an ordinance which would have permitted the city to invest idle funds in federal, state, or municipal obligations. However, it was found yesterday the council had not taken final action and that the ordinance was still in the hands of the finance committee.

Mayor Edward Kelly said yesterday he thought it unwise to pass any ordinance which might permit investment of city funds in securities that might not be liquid.

CHRYSLER CORP. TO EXPAND DODGE DIVISION PLANT

Detroit, Mich., Aug. 23.—[Special.]—Expansion of the plant facilities of the Chrysler corporation will get under way shortly with the commencement of steel construction for the new Dodge division factory, it was learned here today.

It is understood that the new building, which is to be constructed on a recently acquired 47 acre tract near Mount Clements, Mich., will cost $2,500,000, exclusive of new equipment. The unit is scheduled to be completed by the first of next year and will be used for the manufacture of trucks.

Walter P. Chrysler, chairman of the Chrysler corporation, will shortly announce, according to gossip, a plant expansion program far exceeding in scope that already made public. All of the Chrysler corporation's automotive divisions have been crowded for space this year and normal expectation of increased business demands increased facilities.

RESERVE BANK OF MINNEAPOLIS CUTS LOAN RATE

Washington, D. C., Aug. 23.—[Special.]—The federal reserve board tonight approved a reduction from 2 to 1½ per cent in the discount rate of the Federal Reserve bank of Minneapolis. Similar cuts by the Chicago and Atlanta banks were approved by the board last week.

The board said the action would make bank credit easier in the northwest and facilitate the movement of crops. A similar explanation was made in connection with last week's cuts. Bankers point out, however, that the majority of banks throughout the country have excess funds on hand for which they can find no profitable use and are not likely to borrow from the reserve banks to increase their loans.

The Minneapolis district includes North Dakota, South Dakota, Montana, Minnesota, and northwestern Wisconsin.

Only 30 States Eligible for Housing Loans

Washington, D. C., Aug. 23.—(AP)—Only 30 states are eligible to receive loans and grants for low cost housing under the new $526,000,000 program enacted by congress.

Howard A. Gray, director of the Public Works Administration housing program, explained today that benefits can be extended only in states which have laws authorizing creation of municipal or other housing authorities.

The 18 states without such legislation, he said, are: Arizona, California, Georgia, Idaho, Iowa, Kansas, Maine, Minnesota, Mississippi, Missouri, Nevada, New Hampshire, New Mexico, Oklahoma, Utah, Virginia, Washington, and Wyoming.

These states probably will not become eligible before 1939, unless they call special sessions of their legislatures to pass essential laws. The law making bodies of most of them do not meet again in regular session until 1939.

Explains Federal Program.

The housing laws in many of the states were enacted this year, Gray said, at the suggestion of the interior department and in anticipation of the new program.

The director explained that the new program, which the interior department will supervise through a national housing authority, is a decentralized one. Housing authorities—legal entities separate from the states, counties and municipalities—will do the building with a 90 per cent federal loan and a 10 per cent local contribution.

The principal function of the federal agency, Gray said, is to approve applications for loans and see that the projects are developed according to plans. Department officials signified their readiness to start the program as soon as President Roosevelt issues an executive order establishing the national authority and appointing its administrator.

Many Applications Pending.

The department has pending before it now 62 applications from 28 states for PWA housing projects. These applications have been approved by Secretary Ickes, but abandoned because of lack of funds. In addition the department has 312 applications not yet acted upon.

Such projects, it was explained, will have priority over other applications, providing the cities involved establish housing authorities and make formal application for loans. Six, however, are in states without housing laws. They are Los Angeles, Augusta, Ga.; Des Moines, Ia.; St. Louis, Mo.; Tulsa, Okla., and Richmond, Va.

Other approved projects are in Birmingham, Ala.; Denver, Colo.; Jacksonville, St. Petersburg, and Tampa, Fla.; Chicago, East St. Louis and Moline, Ill.; Louisville, Ky.; New Orleans, Baltimore, Boston, Detroit, Omaha, Jersey City, New York, Buffalo, and Schenectady, N. Y.; Cincinnati, Cleveland, Columbus, Dayton, Toledo, and Youngstown, O.; Philadelphia and Pittsburgh, Pa.; Fort Worth and San Antonio, Tex.; Washington, D. C., and Madison and Milwaukee, Wis.

COL. HACKETT QUITS PUBLIC WORKS POST FOR PRIVATE AFFAIRS

[Chicago Tribune Press Service.]

Washington, D. C., Aug. 23.—Col. Horatio B. Hackett today announced his resignation as assistant public works administrator, effective Sept. 1. In a formal statement he said:

Col. Hackett.

"I am severing my relations with the Public Works administration because I feel that this is the opportune time to resume my former activities in the construction field."

It was reported that Col. Hackett had received several offers, but had not decided which to accept. Before coming to the Public Works administration under Secretary of the Interior Ickes on Feb. 19, 1935, he had served for two years as a member of the board of local improvements of Chicago.

Col. Hackett, a West Point graduate, resigned from the army to become associated with the D. H. Burnham company, architects, of Chicago, as superintendent of building construction. After the war Col. Hackett became a partner in the firm of John Burnham & Co., investment securities, and later a partner in the firm of Holabird & Root, Chicago architects.

RISE SCHEDULED IN STEEL INGOT OPERATING RATE

Operations in the steel industry this week are scheduled at 83.8 per cent of ingot capacity, the American Iron and Steel institute reported yesterday. This is an increase of 0.6 point or .7 per cent over the rate scheduled for last week.

Steel production in the Chicago district is scheduled at 85.2 per cent of theoretical capacity, a decline of .2 per cent from last week's rate. The reduction in Chicago is due principally to curtailment of operations in one mill while repairs to machinery are being made. Nearly all other mills in the district are operating close to practical capacity.

The national rate a month ago was 84.3 per cent of capacity, and a year ago the operating rate was 72.5 per cent. Two years ago the rate was 47.9 per cent.

Fewer Commodities Hauled by Truckers During July

July movement of commodities by truck declined 6.42 per cent in volume from the June tonnage, but was 3.89 per cent above July last year, according to the American Trucking association. The July total was 435,672 tons, against 465,580 in June.

Arrangements have been made for the sale of a seat on the New York Curb exchange at $21,500. This is $1,500 under the previous sale.

SPASMODIC

Isn't the wealth you have acquired entitled to as competent and continuous management as the business that produced it? Doesn't it deserve more than spasmodic attention, more than casual scraps of time?

Then why not let us make an efficient, scientific, full-time job of it—give it the benefit of independent, thorough research, the continuous attention of specialists, the unbiased judgment of experienced counsellors?

Sharing the expense with a large group of other substantial investors makes the cost to any one account quite nominal in comparison with results. Inquiries invited from those with funds of $100,000 or more.

WHEAT FALLS TO NEW LOWS, THEN RECOVERS

Sharp Rise in Corn Aids Upturn.

CHICAGO GRAIN PRICES

Closing prices of principal September deliveries on the Chicago Board of Trade yesterday:

	Yesterday.	Saturday.	Year ago.
Wheat	$1.05	$1.05⅜	$1.13
Corn	.90⅜	.93½	1.12⅝
Oats	.29	.29	.44¼
Rye	.75½	.77	.84⅝
Soy beans [Oct.]	.96	.95¼	.....

New low levels for the season were established in wheat futures on the Chicago Board of Trade yesterday with the September delivery declining nearly 2c to $1.03½ a bushel before a rally set in. Scattered liquidation and continued weakness in Liverpool, where the March futures sold at a new low for the fourth straight day, combined with reports of scattered rain in parts of Argentina and Australia, were the depressing influences.

A sharp rally in September corn brought in short covering in wheat and a large part of the decline was recovered. Closing wheat prices were only a small fraction of a cent under Saturday's finish.

Corn Rallies Sharply.

September corn, after breaking a cent early, rallied 4⅜ cents from the low on short covering to 96⅞ cents. It eased later, but closed 3⅞ cents higher net. December and May corn gained major fractions.

December and May oats and rye sold at new low levels for the season, but closed on a moderate recovery. Little net change was shown in oats futures, while rye was as much as 1½ cents lower. Soy beans were irregular.

Liverpool wheat closed as much slow demand for cash wheat. Winnipeg was ¾ to 1⅛ cents lower. Only small lots of North American cash wheat were said to have been sold for export yesterday.

Hedging pressure against the movement of new spring wheat in the northwest is having a depressing effect on the market. Minneapolis and Duluth received approximately 2,250,000 bushels of wheat yesterday, compared with 220,000 bushels a year ago. The movement in that section is about ten days ahead of last year.

Visible Supply Increases.

Lack of export demand for American wheat is being reflected in the steady increase in the visible supply, which rose 6,528,000 bushels last week to 116,819,000 bushels, the largest stock since January, 1934. A year ago stocks were 78,044,000 bushels.

Wheat has been accumulating in the last two months at a rate which has established a new all time record for the July-August period. On June 21 there was only 9,657,000 bushels of wheat held at American terminal markets. Yesterday's total of 116,819,000 bushels as an increase of 107,162,000 bushels since that date. The visible supply of wheat at present is the largest on record for this period of the year, except during 1929-'33, when the government was accumulating wheat in an effort to prevent a decline in price.

Sufficient moisture has been received in many sections of the corn belt to carry the new crop to maturity. According to some operators comparatively little Texas corn will move northward this year. Only three cars of domestic corn were received yesterday at Chicago.

ENGAGE MORE GOLD ABROAD FOR SHIPMENT TO U. S.

Engagement of $3,608,000 gold for shipment to this country was reported yesterday by the New York Federal Reserve bank. The transactions included $2,250,000 taken in Belgium, $490,000 in England and $868,000 in India.

Foreign currencies showed little change yesterday in terms of American money. Pound sterling dropped 7-16 cent to $4.98⅝. The French franc slipped .00⅝ cent to 3.754 cents. The Japanese yen, Hongkong and Shanghai dollars were unchanged.

The price of gold in London was again quoted at the dollar equivalent of $34.7671 an ounce.

To STOCKHOLDERS of

Union Bag & Paper Corporation

The Directors of Union Bag & Paper Corporation have recommended to the stockholders that the Corporation's stock be split up, 4 for 1; that authorized capitalization be increased from 300,000 shares to 1,500,000 shares (after giving effect to the split-up); and that $10,000,000 of convertible debentures be authorized, of which it is proposed to offer $7,000,000 to stockholders under subscription rights on terms to be announced later.

These contemplated steps, subject to registration with the Securities & Exchange Commission, represent a program of major importance to the Corporation's future, and it is imperative that all stockholders personally receive various communications to be sent them by the Corporation in coming months.

If your stock is not registered in your own name, please advise the undersigned so that communications from the Corporation can be addressed to you personally.

Experts Place Farm Income Over 9 Billion

Washington, D. C., Aug. 23.—[Special.]—Farm income this year will top 9 billion dollars, the largest since 1929, the bureau of agricultural economics estimated today. The total is more than a billion dollars in excess of cash income of farmers last year, which amounted to $7,865,000,000, and twice the farm income in 1932 when low prices cut the return to $4,328,000,000. Farm income in 1929 was estimated at $10,479,000,000.

The 1937 revenue is more evenly spread among farmers in all sections of the country than in recent years, A. G. Black, chief of the bureau, said the better distribution this year is due to the fact that drouth has not blighted crops in extensive areas the way it did in 1934 and 1936.

Caused by Heavier Demand.

Heavier demand for farm products as a result of the industrial and business recovery, reduction of surpluses by recent drouths and the "farm programs of the administration," were credited by Black with bringing about the recovery in farm income this year.

The bureau estimated that government payments to farmers for 1937 would total $400,000,000 to $450,000,000, against $287,000,000 in 1936.

Wheat, apples, and tobacco account for the largest gains this year, the bureau said. Cotton, cottonseed, vegetables, and all grains top 1936.

Income from live stock and live stock products will be about the same as in 1936. While prices are higher the shortage of supplies will more than offset the market appreciation.

Illinois Total Rises.

Springfield, Ill., Aug. 23.—[Special.]—Cash income of Illinois farmers in the first half of 1937 was nearly 27 million dollars larger than the first six months last year, J. H. Jacobson, federal agricultural statistician, reported today. The estimated cash income for the period was $219,299,000, the largest since 1930. Cash income of farmers was $192,688,000 in the same period last year.

Higher prices for nearly all farm products and heavier marketings accounted for the increase in cash returns, Jacobson added. He said that the prospects for Illinois' 1937 corn crop continue favorable.

RAILROADS SHOW BETTER PROFITS FOR THIS YEAR

The Reading company yesterday reported July gross revenues of $4,496,786 and net operating revenues of $1,053,300, against $4,608,304 and $1,093,158, respectively, in July, 1936. Gross for the first seven months of 1937 was $36,265,107 and operating net $8,980,469. In the corresponding period last year gross was $33,707,264 and net operating income $7,703,270.

Bangor and Aroostook railroad in the first seven months of this year had net income of $708,448, equal to $4.21 a common share, compared with $420,575, or $1.96 a share, in the first seven months of 1936.

Mahoning Coal railroad earned net profit of $399,655, or $13.05 a common share, in the quarter ended June 30, 1937, compared with $276,717, or $8.95 a share, in the June period last year. Net income for the first six months of this year was $640,452, or $20.80 a common share, against $422,288, or $13.53, in the first half of 1936.

CUBAN-AMERICAN SUGAR TO PAY ON ACCUMULATIONS

Directors of the Cuban-American Sugar company yesterday declared a dividend of $8 on the 7 per cent preferred stock, reducing arrears on the issue to $43.25 a share. Payments of $2.50 each have been made on Aug. 16, July 15, June 15, and May 15 this year. The present dividend is payable Sept. 15.

The usual quarterly dividends of $1.25 on the 5⅛ per cent preferred, $1.50 on the 6 per cent preferred, and $2 on the 8 per cent preferred stocks, were authorized by directors of the Pure Oil company.

Dividends declared yesterday, with rate, period, and payment and record dates, follow:

Cub Am Sug pfd $8 acc.	Sep 15	Sep 2
Pure Oil 5⅛% pfd $1.25 q.	Oct 1	Sep 10
Do 6% pfd $1.50 q.	Oct 1	Sep 10

MILLIONS VOTED TO COTTON BELT IN 9 CENT LOANS

Adjustments to Add Much Income.

Washington, D. C., Aug. 23.—[Special.]—Upwards of $150,000,000 will be disbursed by the Agricultural Adjustment administration throughout the cotton belt in price adjustment payments under a decision made today. This calls for federal cotton loans at the rate of 9 cents a pound with additional adjustment payments equaling the difference between 12 cents a pound—the so-called parity price—and the average of prices on the ten spot markets on the day farmers dispose of their cotton.

Having decided upon the 9 cent rate in the face of congressional pressure that it be fixed a cent a pound higher, AAA officials hastily sent out instructions to all county agricultural conservation agents instructing them to warn producers to preserve their sales receipts as the only basis on which the adjustment payment could be made. Farmers who already had disposed of their 1937 crop were advised to obtain sales receipts if possible.

Estimates on Costs Vary.

Estimates of the ultimate cost to the federal government of the price adjustment payment program vary. Believing, however, that the average market price would not go materially under 9½ cents a pound and that about 85 per cent of all cotton farmers would pledge their participation in next year's program, AAA experts estimated the federal outlay as a minimum of $150,000,000. The calculation was based on a price adjustment payment of about 2½ cents a pound, or $12 per net bale, applied to a 15,000,000 cotton crop.

While it can be determined in advance with reasonable certainty what the minimum cost of the price adjustment to the federal government is likely to be, the same cannot be said of the loan program. The losses, if any, resulting from the loan plan, will depend upon the ability to liquidate in an orderly way whatever stocks are acquired in the form of security for the loans made.

Depends on 1938 Prices.

That ability will depend in turn upon the general level of cotton prices next year. If they are under 9 cents a heavy financial loss will be inescapable, just as the federal government would take a loss of $53,000,000 if it attempted to liquidate the 1,000,000 bales acquired under the first 12 cent loan program.

Moreover, the price applicable to the 1938 cotton crop will be affected by the size of that crop and the latter will be influenced substantially by the kind of general farm legislation the administration is able to get through congress next session. There is no certainty that congress will authorize the kind of production control President Roosevelt and Secretary Wallace may have in mind.

For financing the projected adjustment payments there will be available to the AAA $130,000,000 as soon as President Roosevelt signs the third deficiency bill. A rider to that measure by Senator Byrnes of South Carolina earmarked $65,000,000 of annual customs collections this year and next for the purpose.

However, AAA experts are proceeding on the assumption that a deficiency appropriation to provide the additional amount will be voted by congress when it returns for the next session.

New York Stocks.

[Chicago Tribune Press Service.]

New York, Aug. 23.—Disregarding last Saturday's upturn stocks resumed their downward course today, with losses ranging from fractions to around 3 points. Industrial issues were the hardest hit with steel, motor, copper and mail order issues leading the decline. Rails lost as much as 1 point, while utilities were fractionally lower. Public interest was at a minimum, volume of transactions dropping to 584,720 shares.

The failure of stocks to respond to the adjournment of congress, coupled with the steadily increasing seriousness of the situation in the orient, made for continued caution. Business news was regarded as favorable.

The opening was higher with several issues running up 1 to 2 points. U. S. Steel common touched 116¾ on scattered buying, then receded to 112⅞, and rallied to 113¼, for a 2⅝ points net loss. Bethlehem, Republic, Youngstown, and Crucible were other heavy losers, giving up 1 point or more.

Chrysler and General Motors both pushed higher at the opening, then gave ground under moderate pressure. Chrysler lost 1⅝, while General Motors sagged a fraction. Lower priced auto stocks eased, except for Auburn, which gained slightly.

Anaconda, American Smelting, National Lead, Inspiration Copper, and Cerro dipped as much as 1½ each. Losses in Kennecott, Phelps Dodge and others ran up to 1 point.

Montgomery Ward and Sears Roebuck bore the brunt of the pressure against mail order issues, dropping 1⅜ and 1¼ points, respectively.

Although losses in several instances reached a point, rails displayed a relatively better tone. New York Central was the leader on volume, dropping 1 point. Other rails to decline included Atchison, Southern Pacific, and Illinois Central. Union Pacific sagged one-quarter point to a new year's low. The majority of other losses were fractional. Utilities held in a narrow range.

In the oils, Socony added a fraction while Pure Oil eased ⅛ point on rather heavy pressure.

New York Bonds.

New York, Aug. 23.—Federal bonds declined today after an early rally. Losses ranged up to 14-32 point.

The declines were not as large as those in Friday's break, although volume totaled $2,910,000, face value, a fair sized turnover judged by recent markets.

In the domestic corporate sector lower priced and defaulted carrier liens advanced from fractions to a point. Industrial obligations also rallied. Utility liens were droopy.

Leading gainers included B. & O. 4½s at 63⅜, up 1⅛; New York, Chicago and St. Louis 4½s at 84⅞, up 1⅝; Southern Railway 4s at 73, up 1; International Paper 5s at 101⅛, up ⅛; Texas corporation 3⅛s at 103⅜, up ⅜, and Shell Union 3½s at 99¾, up ½.

While fierce fighting raged in the Shanghai suburbs, Japanese issues took divergent paths. The 6½s pushed up ⅜ to 76⅛ while the 5½s dipped 2⅛ to 63. German bonds rallied major fractions and South American issues faltered.

Chicago Stocks.

Stocks on the Chicago exchange were mostly steady to lower yesterday. Volume was only 23,000 shares, compared with 47,000 a week ago. Of the 92 issues traded, 25 advanced, 37 declined, and 30 were unchanged.

Rolling Hosiery was the most active issue, but all 2,750 shares were traded at 2¼, unchanged from Saturday. Commonwealth Edison closed at 32, up ¼, from the previous session. It rose to 32¼, a new peak since trading in the new $25 par stock began a week ago.

Dodge Manufacturing spurted 1¼ to finish at 26½, also a new high for the year.

—

Bank Stocks.

First National bank stock advanced $1 a share yesterday, while Continental Illinois stock gained 50 cents. Lake Shore Trust and Savings bank stock was quoted unchanged to $3 higher by various dealers. Other Chicago bank stocks were quiet.

SEE COMPROMISE ON PLAN TO LIFT BROKERS' FEES

Odd Lot Dealers Request Lower Minimum.

New York, Aug. 23.—(AP)—A compromise between large wire houses and odd lot brokers on the proposed increase in commission rates so that the minimum brokerage for transactions involving $100 or more would be $3 instead of $5, as recommended by the law committee, was regarded by well informed sources today as a probability before the question of a general rise in rates ever reaches the membership of the stock exchange.

The governors of the exchange will meet Wednesday and will receive the report of the committee on constitution on the recommendations of the law committee for an increase.

Minimum Fee Lowered.

The original recommendation was made by a committee of five headed by E. A. Pierce. Among the recommendations was one for a $6 minimum commission, which was subsequently reduced to $5 by the law committee.

Because of the growing concern over the question of commissions, it was believed likely that the governors would take no action Wednesday but would consider it further.

Odd lot brokers have been represented as being almost exclusively interested in the proposed minimum, and if the $5 is reduced to $3, it is understood that they will not oppose the report.

Present Commissions Vary.

The minimum brokerage on the stock exchange is now $1 for transactions involving $15 or more. Many houses charge higher commissions on small orders, the average probably being around $3. Some houses make a minimum as high as $5.

If the governors approve an increase by a majority vote the question, since it involves a change in the exchange's constitution, would be submitted to the membership of 1,375. A majority vote would reject the amendment. A vote of 350 against it would cause it to be referred back to the governors, where it would have to receive a two-thirds vote to become effective.

Texas & Pacific Orders 500 Box Cars from Pullman

New York, Aug. 23.—(AP)—The Pullman-Standard Car Manufacturing company has received an order from the Texas and Pacific railroad for 500 box cars, with an option on 500 more. Texas and Pacific also has ordered 100 hopper cars from Bethlehem Steel. The American Locomotive company and the Electro-Motive corporation, according to the magazine Railway Age, have received orders for twenty-one Diesel-electric locomotives.

General Mills.

Investors' Guide: I will appreciate information regarding dividend record and structure of General Mills with such information that, with aid of your opinion, I may judge soundness of the stock as a dependable income bearing investment.—J. G. K.

Answer: General Mills, Inc., was formed in 1928 to consolidate Washburn Crosby and several other large flour companies. A series of acquisitions of other important going concerns put the company at the head of the domestic milling industry. It is twice the size of its largest competitor today.

Nineteen flour mills, ten feed mills and two large cereal mills are operated in twenty-one different cities. They are located close to both supplies and consuming centers, making possible economical distribution and leaving the company independent of any one section for wheat requirements. Mills have a daily producing capacity of 80,000 barrels of flour, 6,000 tons of commercial feeds and 762,000 pounds of cereal. Elevators have capacity for storing 48,000,000 bushels of grain.

Development of specialty packaged foods such as Wheaties, Bisquick and Softasilk cake flour has diversified operations and contributed to earnings, but the bulk of profits still comes from flour and feed business. "Gold Medal" is the company's leading trade name.

Earnings have been characterized by a high degree of stability because of more or less uniform consumption of flour. The record of recent years ended May 31 follows:

Sales.	Net Income.	Com. Shr.	Inc. per Com. Shr.
1937 ...	$159,980,000	$4,303,000	$4.46
1936 ...	147,380,100	3,602,000	3.40
1935 ...	143,074,000	4,075,000	4.12
1934 ...	118,092,000	3,710,000	3.56
1933 ...	83,886,000	4,082,000	4.13

Financial position is strong, current assets being $36,364,000 and current liabilities $5,476,000 on May 31, 1937.

Capitalization consists of 233,057 shares of 6 per cent $100 par preferred and 665,054 shares of no par common stock.

Dividends of $3 a year have been paid regularly on common stock since formation of the company.

The company bases its flour prices on the price of cash wheat and protects itself against fluctuations in wheat prices by hedging.

Stability of earnings and firmly established position of the company entitle its stock to a high rating.

COTTON DROPS AGAIN; FUTURES SELL LOWEST SINCE NOVEMBER, 1933

Cotton futures declined 0.07 to 0.20 cents a pound, or 35 cents to $1 a bale, yesterday to the lowest level since November, 1933, with all deliveries selling below 10 cents a pound. Spot cotton closed 0.10 to 0.20 cents lower, with New York at 9.85 cents; New Orleans, 9.70 cents; Houston, 9.55 cents, and Galveston, 9.50 cents a pound.

Heavy hedging sales of new cotton and reports of further highly beneficial rains in parts of Texas were the bearish influences. Many speculators who were recently on the buying side were credited to selling out their holdings on yesterday's break. October cotton, which recently sold at 13.86 cents a pound, was down to 9.41 cents yesterday, a loss of 4.41 cents a pound, or $22.25 a bale. Prices follow:

JEWEL DEALERS EXPECT LARGER TRADE THIS YEAR

Estimate Sales Will Run Above 350 Millions.

New York, Aug. 23.—[Special.]—The jewelry trade is expected to show gross retail sales of $350,000,000 to $375,000,000 this year, according to William D. McNeil, president of the American National Retail Jewelers' association, which today opened its 32d annual convention.

McNeil reported that conditions in the jewelry field were better than in any year since 1930. Diamond imports, he said, were within 25 per cent of the volume of the years immediately preceding the depression. He attributed the activity to general business recovery and optimism.

Big Display of Gems.

The largest display of jewelers' merchandise in recent years has been arranged at the convention, with a strong detail of city and hotel police and plain clothes detectives on guard and admitting only properly identified members of the trade. The registration is expected to exceed that of last year, when more than 3,000 jewelers attended.

There are more exhibitors at this year's convention than ever before and observers noted a growing evidence of American design in silver and plated ware and in the finer types of women's jewelry.

New Ways to Test Diamonds.

The American Gem society also is meeting. With its complementary organization, the Gemological Institute of America, it is seeking to "professionalize" the gem industry. Robert M. Shipley, president of the institute, announced the use of a diamond imperfection illuminator in grading the stones which, he said, now makes detection of imperfections positive.

The instrument was developed by the institute and is being shown for the first time to the jewelry trade. Another instrument recently developed determines whether pearls are cultured or genuine, Shipley said.

LAWS RESTRICT NEW FINANCING, SURVEY FINDS

New York, Aug. 23.—[Special.]—Failure of new capital financing to increase as rapidly as the expansion of business may be traced directly to restrictions on securities trading, a study by Lawrence Dennis, economist of E. A. Pierce & Co., asserted today.

Dennis said the Roosevelt recovery is the result of government deficiteering, whereas the Coolidge-Hoover boom was the outcome of credit expansion. He adds, however, that, even though trading restrictions are maintained and trade volume continues small, the price trend should continue upward "as long as deficiteering, devaluation, socialism and war are in the saddle."

Waldorf-Astoria Hotel to Quit Bond Interest

New York, Aug. 23.—[Special.]—The Sept. 1 interest due on its 5 per cent income debentures will not be paid by the Hotel Waldorf-Astoria corporation, although operating results are slightly better than a year ago. Officials gave as their reason today that the provisions in the ground rent agreement which call for a sliding scale of rent dependent upon earnings. Last March 1 the hotel corporation paid 1 per cent on the income debentures, this being the first distribution to holders since 1932.

BEST GRADE HOGS AND LAMBS DROP; CATTLE STEADY

Price Spread Is One of Widest on Record.

Wholesale prices for the best grades of beef and the top price for live steers probably are at the largest premium in history compared with other meats and live animal costs, live stock men said yesterday.

This spread in prices was widened yesterday when top steers held steady at $18 per hundredweight at the Chicago stockyards, while top hogs declined 35 cents to $12.65 and top lambs receded 15 cents to $10.85. The best price for cattle equaled the highest mark recorded for August in 18 years. A year ago top steers brought $10, or $1.80 below top hogs and only 35 cents higher than top lambs.

Best Beef Above Other Meats.

Butchers yesterday paid as high as $46 per hundred pounds for top loins of beef while the best pork loins cost $28 and the lamb loins $26.

On the corresponding day last year top beef loins sold only $2 over lamb and $4 higher than pork.

There was a liberal run of cattle at Chicago yesterday, 18,000 head, the largest for one day since January.

There was an acute shortage of finished corn fed steers eligible to sell above $17. These retained the recent sharp advances, while others sold weak to 25 cents lower, with the bulk going at $10 to $17. Iowa fed steers averaging 1,240 pounds brought the $18 top.

Prime 1,572 pound stock reached $17.75. Weakness prevailed in butcher stock, cows and hefers selling 25 to 50 cents lower than early last week. Canners and cutters declined 25 cents. Calves and bulls were lower.

Pork Prices Fall.

A slow wholesale demand for fresh pork, coupled with the recent downturn in lard prices and a slightly larger run of unfinished new crop hogs, caused another severe break in hogs. Prices dropped 10 to 35 cents, some off quality underweights showing 50 cents loss. The range of prices was narrowest since early July.

Lambs were steady to 25 cents lower, and old ewes sank 25 to 40 cents. Native lambs brought the $10.85 top. Best old ewes sold at $4.85.

Indiana Steel Reopens Plant at Valparaiso

Valparaiso, Ind., Aug. 23.—[Special.]—The Indiana Steel Products company plant, closed last Friday, throwing one hundred men out of work, resumed operations today with all workers back.

FARMERS LOSING BIG SUM DUE TO MEAT IMPORTS

Half Year's Influx Is Above 70 Millions.

The deluge of meats and live stock from abroad deprived the American farmer of trade for this product amounting to more than $70,000,000 in retail channels in the first half of 1937, it was estimated by live stock men yesterday. Sufficient meat was imported to feed a city of more than 3,000,000 people without help from American farms.

Including beat brought in as live animals, as well as dressed meat previously reported by the department of agriculture, the United States received approximately 90,500 tons of all meats in the six months, equivalent to 25 per cent of the total meat production in Chicago for that period, the largest packing center in this country.

Imports Important Factor.

The value of imported meats in the retail trade is no small item in this country's live stock and meat industry, being equal to about half the sum farmers were paid for live stock they marketed at Chicago during the six months. Imports of all meats, both dressed and on the hoof, during the first six months of 1936 aggregated 78,600 tons. In 1935 there were 56,000 tons and in 1934 only 15,800 tons came in.

Hams, shoulders, bacon, canned beef and beef and pork imported as live animals made up a large part of the tonnage and value of the imports in 1937. During June the hams, shoulders and bacon imported brought more than $3,000,000, it was estimated. American consumers also paid out more than $3,000,000 for canned beef. Pork on the hoof was valued at $1,000,000, and beef imported as live cattle was placed at $3,2000,000 in retail channels.

Canada Gets Largest Share.

Canadian packers and farmers are enjoying the greatest pork trade to the United States in their history, sending American consumers dressed and cured products as well as live hogs. Bacon sales to the United States in the six months of 1937 totaled 1,367,200 pounds, compared with 974,300 pounds in 1936, with 180,200 pounds in 1935 and with 200,700 pounds in 1934.

Other pork from Canada totaled 9,089,500 pounds, against 4,999,900 pounds in 1936, 1,445,500 pounds in 1935 and 90,900 in 1934. Live hogs imported over the northern border at 45,126 head, compared with 29,283 a year ago, 323 two years ago and 982 three years ago.

Auto Sales in July Lower Than Year Ago in 31 States

New York, Aug. 23.—(AP)—Domestic July sales of new passenger cars in the 31 states reporting registrations to date dropped 1.33 per cent under the same month last year, R. L. Polk & Co., announced today. Estimates place total July sales at 365,000 units, against 360,236 in June.

SEVERAL FIRMS REPORT PROFITS BELOW YEAR AGO

Louisville Gas Earnings Reduced by Flood.

[Continued from page 19, column 2.]

$11,657,426 in the quarter ended July 31, 1936.

Net profit of the American Steamship company from operations for six months ended June 30, 1937, declined to $169,837 from $799,832 in the corresponding 1936 period. The concern, however, showed a net loss of $336,526 for the period this year after allowing for depreciation and expenses of $158,582 "incident to the maritime strike," against profit of $494,843 in the first half of last year.

DINER STEWARDS WANT WAGE HIKE; REASON? DRINKS

Repeal of prohibition has so increased the duties of a dining car steward that he must now have the skill of a top-notch bartender in mixing cocktails and at the same time possess the qualities of an old world diplomat in soothing the imbiber, the railroad wage conference meeting in the Capitol building was told yesterday.

C. H. Smith, El Paso, Tex., vice president of the Brotherhood of Railroad Trainmen, arguing for wage increases for dining car stewards, said it takes a skilful hand to keep under control a passenger who has paid more attention to cocktails than scenery. Because of the added chores, Smith declared, stewards are entitled to wage increases.

H. A. Enochs, Philadelphia, chairman of the carriers' conference, said stewards are paid more than hotel or restaurant men holding similar jobs. Enochs said that the 1,067 stewards employed by the railroads were paid an average of $2,160 a year in 1936 and in addition received free meals averaging $30 to $45 a month and free sleeping quarters while away from home.

Bacardi Firm Wins Right to Ship Porto Rican Rum

[Copyright: 1937: By the New York Times.]

SAN JUAN, P. R., Aug. 23.—The Bacardi Corporation of America today won the right to ship Porto Rican made rum to the United States under the Bacardi trade-mark or in bulk, through the issuance of a temporary injunction by the United States District court restraining the insular treasurer, Sancho Bonet, from enforcing sections of the island's beverage act, which the Bacardi company charged would force it out of business in Porto Rico.

JAPAN SUSPENDS IMPORT DUTIES ON IRON, STEEL

Buying Shifts from Scrap to Finished Product.

New York, Aug. 23.—[Special.]—The Japanese diet has suspended the collection at Japanese ports of import duties on iron and steel and iron and steel products, the American steel trade learned today.

During the last three weeks a considerable tonnage of orders for pig iron, scrap, and finished steel products has been placed here by both Japan and China, and will be shipped speedily unless the United States government invokes the neutrality act.

Department of commerce records show that Japan imported from the United States 1,052,067 tons of scrap in the first five months of this year and China 24,512 tons. Finished steel shippings to Japan in the same period amounted to approximately 250,000 tons, of which 30,120 tons were ingots or blooms, semi-finished steel convertible into any or all kinds of products. China took about 25,000 tons of finished steel in the period.

Japanese Demand Changes.

The Japanese demand for steel has changed recently from scrap to a preference for the finished product, shipping officials said. The outbreak of hostilities with China, creating need for munitions, and the fact that finished steel may be used immediately and scrap must first be processed and purified, were regarded the principal causes of the change.

Freight ships operating from New York continue to take on loads of scrap for the orient, according to reports from the waterfront. The most important steel export port on the Atlantic, however, is Baltimore, and the change in the Japanese demand is best reflected in the shipping activities of that port, shipping men said.

Most of the finished steel that moves through New York comes from points in upper New York state and some from Ohio. The freight rate differential of 3 cents per 100 pounds in favor of Baltimore has caused the important exporters of finished steel to route their freight to that port from Pennsylvania and Ohio.

Ship to Other Bases.

Because of the war developments of the last few days ship lines have been notified by exporters of the cancellation of freight orders to points near the danger zone, and the lines have in turn notified shippers that they were unwilling to take cargoes to the Shanghai district. Ships en route are stopping at Manila or Hongkong to land Shanghai cargoes, taking advantage of the provision in their bills of lading that in case of emergency freight may be landed at the nearest base port.

The United States Steel corporation, it was learned, has been forced to evacuate its branch offices on the edge of the international settlement in Shanghai and has set up temporary China headquarters at Hongkong. Ships of the subsidiary Isthmian Steamship line, bound for Shanghai, are being detoured to Hongkong.

TRADE BETWEEN U. S. AND BRITAIN RISES THIS YEAR

Washington, D. C., Aug. 23.—[Special.]—Trade between the United States and the United Kingdom during the first half of the current year showed a marked increase, Alfred Nutting, American consul general at London, has reported, the department of commerce announced today.

Imports into the United Kingdom from the United States during the first six months of 1937 were valued at $230,339,472, compared with $212,847,284 in the first half of 1936, while exports from the United Kingdom to the United States were valued at $77,923,158, compared to $70,070,894 for the 1936 period.

Increased imports into the United Kingdom from the United States were recorded principally in raw cotton, which advanced from $40,943,370 in the first half of 1936 to $44,849,241 in the corresponding period of the current year; wood and timber, $11,070,597 to $13,559,465; iron and steel manufactures, $1,057,933 to $3,306,109; copper, $1,965,704 to $6,393,492; machine tools, $4,242,625 to $9,544,772, and motor vehicles, $9,111,083 to $10,238,867.

MOTOR CARRIERS IN INDIANA HIT BY I. C. C. RULING

Washington, D. C., Aug. 23.—(AP)—The interstate commerce commission ordered nine Indiana motor carriers today to cease interstate and foreign operations. The order is effective Sept. 20.

The carriers were Claude F. Doughty, Indianapolis; J. H. Suiter, Roachdale; E. E. Sparks, Pittsboro; Walter M. Peck, Crawfordsville; John Stewart, Sheridan; Fred Phebus, Frankford; Dorsey Poer, Spiceland; Harold McLaughlin, Greensburg, and William Montgomery, Crothersville.

The commission dismissed the applications of Dee Rich, Converse, Ind.; Roy Smith, Danville, Ind., and Haldon A. Williams, South Bend, Ind., for authority to operate as interstate motor carriers.

A joint board of the commission recommended Sprout & Davis., Inc., Whiting, Ind., be authorized to continue operations as a contract motor carrier between Whiting, Ind., and points in Illinois and Michigan.

Belvidere Plant Closes for Week; Lacks Business

Belvidere, Ill., Aug. 23.—[Special.]—The sewing machine department of the National Sewing Machine company, this city's largest industry, was closed today for one week because of a lack of business. The order affects 250 employés.

Railroad Expenditures.

What do the railways do with the three to five billion dollars they take in annually?

A summary for 1934, when operating revenues totaled $3,271,567,000, showed: 44.1 cents out of each dollar taken in was spent for wages; locomotive fuel took 5.8 cents; materials and supplies accounted for 15.9 cents; loss and damage, injuries to persons, insurance and pensions required 3 cents; 5.9 cents was set aside for depreciation and retirement of property and equipment; 3.9 cents was spent for equipment and joint facility net rentals; taxes took 7.32 cents, and 14.1 cents was left as net operating income.

Net operating income for 1934 amounted to 463 millions, while net profit represented a return of 1.79 per cent upon the total investment. The owners of the roads—the stockholders—received in dividend payments 133 millions, an average dividend rate of about 1.6 per cent.

Wrigley Establishes Chicle Branch in Guatemala

[Copyright: 1937: By the New York Times.]

GUATEMALA, Aug. 23.—The William Wrigley Jr. company has established a branch here for the exploitation of chicle in the forests of Peten province, and has received authorization from the government. The company will make a large investment and will bring machinery expected to give better results in the extraction of chicle from the latex of sapodilla trees, which is used as the basis for chewing gum.

YOUNG BANKERS' COMMENCEMENT ON RADIO SEPT. 10

New York, Aug. 23.—[Special.]—The American Institute of Banking, the educational section of the American Bankers' association, will hold its annual radio commencement exercises Sept. 10, it was announced today by Frank R. Curda, president of the institute.

More than 220 chapters of the institute, located in various sections of the country, will participate in the program which will be broadcast over a national network from St. Louis, Mo. The principal address will be given by Branch Rickey, vice president and general manager of the St. Louis Cardinals.

About 2,600 members will receive certificates as evidence of their completion of the institute's courses in banking, according to Dr. Harold Stonier, educational director.

LOST AND FOUND.

TO FINDERS.

FINAL DAYS OF THE STUDEBAKER $100,000 SUMMER CLEARANCE OF 227 USED CARS

Setting a goal of low prices that has never been duplicated in 25 years of merchandising—STUDEBAKER offers at sacrifice, the entire cream stock of their six branches. And as a climax cap to this amazing sale Studebaker continues the time payment feature that's the talk of used car buyers in three states. Namely:

NO FINANCE CHARGE AND NO INTEREST!

For an 8-Month Period.

Saving you—for each month of 8 months—every cent of finance charges and interest that you would normally pay. Please note—this plan is for the duration of the Summer Clearance Sale only! So by hurrying and buying during the next few days you will double your savings.

"WIDOW" QUIZZED IN SLAYING—Mrs. Theresa Weichbrodt as she was questioned at state's attorney's office, where she admitted she had never been married to the man known as Robert F. Burns, shot to death in Grant park. [TRIBUNE Photo.] *(Story on page 1.)*

[TRIBUNE Photo.]

QUESTIONED AS POLICE SEEK TO UNRAVEL MYSTERY—Anthony Peiffer, Mrs. Weichbrodt's brother, and his wife. Peiffer was questioned about his activities early Sunday morning at the time Burns was shot. From Mrs. Weichbrodt and Peiffer it was learned that Burns' real name was Herbert F. Lee. *(Story on page 1.)*

CHICAGO OFFERS REWARD FOR CAPTURE OF SEX CRIMINALS—Meeting of law enforcement officials in drive on sex offenders. Left to right: John L. Sullivan, chief of detectives; Richard Gill, supervising police captain; John Prendergast, chief of uniformed police; John Stege, supervising captain; Wilbert Crowley, assistant state's attorney; Thomas Courtney, state's attorney, and James P. Allman, police commissioner. *(Story on page 1.)*

[TRIBUNE Photo.]

COMPANION OF SLAYING VICTIM—Lucille Buehler, 22, sweetheart of Robert F. Burns, who was with him when he was fatally shot, as she was questioned last night. She is being held. *(Story on page 1.)*

[TRIBUNE Photo.]

RECONCILED WITH THE LITTLE WIFE—Mrs. Dorothy Goldsworthy, 4 feet 5 inches, and her husband Edwin, 5 feet 9 inches, after her divorce bill was dismissed yesterday. They decided in-laws caused trouble and planned to move away from them. *(Story on page 7.)*

[TRIBUNE Photos.]

BABY STOLEN FROM CARRIAGE AS MOTHER SHOPS—Diane Carol Lucas, 3 months old, and her parents, Mrs. Dorothy Lucas, 22, and Herman Lucas, 31, of 1261 Argyle street. The mother left the child in perambulator while she shopped in north side grocery. When she came out the baby was gone. *(Story on page 1.)*

CROWNING THE QUEEN AT LAKES CARNIVAL—Miss Faraday Benedict as she was crowned last night by Father Neptune (Albert Snite) at the Lagoon theater in Burnham park. Third from left is Mayor Kelly, who spoke, while at right is Corporation Counsel Barnet Hodes holding Father Neptune's scepter. *(Story on page 2.)*
